Looking for Alaska Review

Looking For Alaskaby:John Green

I read Looking for Alaska over the course of two days and had a hard time putting it down. The plot of the story was different than the plots I mostly deal with. Miles(Pudge) has no friends at his school so he decides to go to a bording school-Culver Creek-. At Culver Creek Pudge meets Chip, Takumi, Lara, and Alaska. The five kids spend their time smoking, drinking, reading, and pulling pranks. Until something horrible happens to one of them.... Anyway the characters in the story where amazing. Pudge is what i like to call a wicked wimp, even though he is nerdy and small he has a lot of friends.Alaska was pretty strange but also very entertaining. Takumi was funny but should have been in the story more. Lara was in the story for the perfect amount of time and brought a good feel to the story. Chip was the comic relief and always seemed to know what to say.

So in conclusion i loved this book ans would suggest it to anyone over the age of 14. I'm sure you will love it.
