I Ended Up In A Fall

I Ended Up In a Fall

Everytime I close my eyes
I see your face from a thousand miles
Eventually, you're all I can see
And technically, you're everything to me

Everytime I see your face
My life is adding a couple of days
Well, definitely, you're only the key
Of happiness which locked inside of me

I don't remember it all
How I made you my life and my soul
But one thing is that you rock and roll
Within your love, I ended up in a fall

Oooh-woah, Oooh, Oooh-woah, Oooh
Within your love, I ended up in a fall

Everytime I try to wake up
You're in my mind, always at the top
Well, absolutely, you're the one for me
And totally, you're my life as you can see

I don't remember it all
How I made you my life and my soul
But one thing is that you rock and roll
Within your love, I ended up in a fall

Oooh-woah, Oooh, Oooh-woah, Oooh
Within your love, I ended up a fall

One, two three. Count me in
Let's have a toast with this nice cold gin
Let's have some fun this day and night
Tomorrow comes, let's run and hide

I don't remember it all
How I made you my life and my soul
But one thing is that you rock and roll
Within your love, I ended up a fall

I don't remember it all
How I made you my life and my soul
But one thing is that you rock and roll
Within your love, I ended up in a fall

Oooh-woah, Oooh, Oooh-woah, Oooh
Within your love, I ended up in a fall
