

# Stranger To Love and Love Which to Fear

By : **KaitDragons**

The time has come and again I am searching for something to keep me going. I am hungry but this time I am doing things differently; very differently. I am a man many know of, but they know nothing about my plans and nothing about me personally. My name is Ryan and of course I am filthy rich. Nobody could ever get into my head. I am 22 but I have it all. For some reason, though, I wanted her. I wanted this strange, troubled girl in ways that would sicken some people, but I wasn't ashamed of it. I wasn't aware of what I would be getting myself into. I wasn't one to fall in-love easily. My past has turned me cold in a way. Honestly, I could kill someone easily if I wanted to with all the skills I have. I have never felt the need to protect anyone since Cara my ex, but for some reason, I feel she needs me and nothing makes me want to back down. What I want most is for her to be mine and nothing can get in the way of my future intentions. Maybe I am crazy...crazy for her.

# Stranger To Love and Love Which to Fear : Chapter 1

## Ryan's POV

I saw Leah. I heard her friend call her name as she was walking down the dark street on the coldest night.

½

At that moment, I knew she was what I wanted.

½

She was going to me mine.

½

Leah was the type of girl who gave you a whiplash when she was present. Those crystal blue eyes left me lingering for more and the way her brunette hair gently swayed with each step drove me crazy. I wanted to touch her; to breath her in. Her tiny flawless body was all that I could imagine.

½

I wanted her.

½

I *needed* her.

½

Those beautiful dimples formed on her face, and as I watched her, I noticed she was nervous, or maybe scared. From what, I do not know, but I was curious .

½

I didn't even make my move yet when out of no where she took off running down the dark street. I'm not sure why, but I know soon enough she will be running to me.

½

I just have to wait. It wouldn't be long at all. Nervous doesn't even come close to how she would be feeling when I get my hands on her. But I needed to know what was going on and to make sure this strange, beautiful girl was alright. I needed to follow her.

½

But where was she running to?

½

## Stranger To Love and Love Which to Fear

And what was the rush?

ï¿½

### **Leah's POV---**

ï¿½

Walking down the street alone in this cold manipulating air didn't scare me. It was comforting because I know what happens out here couldn't be any worse then what would happen in my "sanctuary", or my so called home.

ï¿½

It is a cold December night and the snow had taken over the ground. Ice sickles were lingering above my head, but I didn't really care if they came crashing down into the depths of my soul. I was too far gone to worry.

ï¿½

I am only seventeen and I am ready for my world to go black on me because at this point, nothing could get any worse.

ï¿½

Or at least I don't want to be around for it to be.

ï¿½

As I got closer to my house, I already knew what I was walking into. My mother's boyfriend left me a very disturbing voicemail about what I was commanded to do. I was at the end of the street when I heard a scream and I knew it was coming from my house and I froze in my tracks, questioning what I was walking into...

ï¿½

My mother's boyfriend was pure evil along with his son and doped up friends. My mum was always running around as if she had nothing better to do than slave away her life to him. It killed me. She was a changed woman ever since my father left for war.

ï¿½

We haven't heard a word of his whereabouts and it not only killed me emotionally, but it has also taken a huge toll on my mother. She has been slacking on taking care of my younger sister, who is was just a day shy of being five.

ï¿½

I adored my little sister, Gracie, and she was more of my child then my sister. I work my ass off just to make sure she and I have the things we need because my mother puts her "pimp" of a boyfriend before us, which is exactly why my older brother Max left as soon as he turned 18.

## Stranger To Love and Love Which to Fear

ï½

It has been three years and I lost touch with him a while ago. Max isn't a jerk for leaving us and I understand why he did. He had to. But everyday I wish that he would come back for me and Gracie.

ï½

If only he knew how things were...

ï½

There were days when I thought I saw him on the street, but I knew I was only kidding myself. He wouldn't be here. He wanted nothing to do with our mother since she had given up on dad, thinking he was gone and never returning. Max was furious and when he saw that she just clung to another man, he lost it. Although he loved us dearly he couldn't bring himself to stay. He promised me and Gracie that he would find dad and bring him home; that he would come back and get this jerk, James, my mothers new man, out of the picture.

ï½

I snapped back into reality and took off running towards my house. I wasn't a fast runner, but when you hear something like that it doesn't take much to get you moving.

ï½

I threw the front door open to find some man knocked out on the living room floor. To be honest, I wasn't concerned enough to check on him.

ï½

I raced to my room where Gracie was always waiting but today I open my bedroom door and see nothing. I ran through the house looking like a crazy woman when out of no where James' son grabs me, throwing me into his room which was Max's room before he left.

ï½

James' son, Adam, is a very selfish person and is too caught up in himself. Even though he is far from ugly, I hate everything about him.

ï½

"Let go of me!" I scream.

ï½

I didn't have time for his shit. ï½I needed to find my little sister and make sure she was okay.

ï½

Adam knew I was pissed and he loved to make me mad. He is an immature 19 year old male with dark brown eyes and dirty blond hair. He is built and buff, and about 6 feet tall. I, myself, am ï½5'2"ish, so he towers over me.

## Stranger To Love and Love Which to Fear

ï½

Smacking his hand away, I went to swing the door open as he slammed it shut and pushed me against it. He was close, way too close for comfort, and I took this chance as I slapped him hard across his face.

ï½

That just pissed him off even more, though, and he shoved me to the ground holding me down.

ï½

Adam had his attention on me from day one along with his wicked dad. They made me feel out of place in my own home. It no longer feels like home, it honestly feels like a prison with them here.

ï½

I scream, not knowing what he was about to do when James came bursting through the door like a mad man. He wasn't here to save me, but in a way he did. He had a bone to pick with Adam about a deal that had gone wrong and that was my cue to get lost.

ï½

I ran out of the bedroom, so shaken up that I almost forgot the purpose of why I was roaming the house in the first place and that's when it hit me.

ï½

Gracie.

ï½

I ran back to my room remembering the hiding place I had given her in case things were ever to get out of hand unexpectedly.

ï½

*Who was I kidding things were never good in this house. I know it and my baby sister knows it.*

ï½

I made it to my room, slamming the door and locking it behind me. I go straight to my huge walk in closet, pushing my clothes apart as I climbed over a few toys and threw open the huge toy box that I had since I was young. It is a long pretty blue box I could lay in it if I wanted to. It sort of reminds me of a coffin.

ï½

But there she was, my monkey; my little Gracie.

ï½

## Stranger To Love and Love Which to Fear

I picked her up. She was sound asleep with a bear and a blanket that I had given her when she was born. She opened her eyes and I could tell that she has been crying with how puffy and red they are.

ï¿½

Holding her close, I whisper to her, "You're okay, I am here now."

ï¿½

Gracie hugged me so tightly and I knew, at this very moment, that I could never leave her here. I don't care what I have to do to take care of us. I will work the streets if I have to...

ï¿½

## Chapter 2

Gracie is so tiny and is the only reason I even smile any more. She means everything to me and seeing her tears drove me insane. I wasn't going to ask her what happened yet ..but that's when I see it; a small bruise forming on her face and a hint of blood drying on her cheek, hidden by her hair.

I am beyond words, just speechless.

"I was a bad girl. Mommy told me not to cry and I cried so she couldn't help me." She tells me.

Sweeping her hair out of her face, I smile sympathetically. "You're not a bad girl, Gracie. You didn't do anything wrong."

She always cried when I left for school and I felt awful for leaving her, but I never expected to come home to this. She is so fragile and I wasn't there to protect her. My mom sure as hell didn't protect her. She let James hit her own daughter.

I never knew things would escalate so quickly but they were getting worse and I couldn't just keep it to myself. Not tonight anyway.

I know that what I am about to do would cause a huge blow up. It's only a matter of time when I can get the hell out of here.

I made Gracie pack some of her toys in a bag and gave her my iPod to listen to while I made a call. Having a lot of friends comes in handy. Deciding it's best to call them to get myself and Gracie out of this Hell hole for the night, I call all of them at the same time.

Hunter was the first to answer. I could tell he was out of breath and assumed he was at the gym with Mark and the guys. Then Lilly picked up and of course she was getting her nails done. Little miss beauty queen.

They all knew by my voice that something was wrong.

Before I could even explain to them what happened, I heard Hunter screaming for Mark to get his shit and go to the car. Lilly was about to come but Hunter told her to just meet up at his house.

Hunter is 19 and a handsome guy. Sometimes he can be overly protective, but it's a good thing, especially in times like these. His dark brown hair and eyes caught every girls attention. You would think he is one of those stuck up jerks but he is honestly the most respectful, caring guy I know.

Mark is 19 too, but the difference between them was he has dirty blond hair with hazel eyes. Sadly, he is a man whore because he was screwed over big time by his ex-girlfriend.

As for Lilly, she is 18 and a total sweetheart. Sometimes she can be a real bitch but I don't blame her. She doesn't take shit from anyone and wasn't afraid to speak her mind. She has beautiful blond hair that is naturally curly, blue eyes and the perfect body. As you could assume, all the guys love her.

All three of them are my wonderful best friends. They would always be here for me just like I would always be there for them.

## Stranger To Love and Love Which to Fear

I didn't have my car or else I would have already been out. James took that away from me because he knew I couldn't get away quick enough. He told my mom that I was being a slut and that I stole money from him so she decided to let him take my car away from me. The fact that I paid for it on my own didn't change the fact he could take it away. Bullshit, I know.

My best friends live about 20 minutes away so it was too far of a walk with Gracie. Plus, it isn't the safest neighborhood to be walking the streets at night.

Gracie came walking over to me when she saw me rummaging through my dresser.

I stop what I am doing and look over at her. "We are going to stay at Lilly's and hang with the guys for a while. Okay?"

She smiled and jumped up and down. I know she loves them and of course they love her.

Getting up, I walk over to the door, "I need to get a few things. Stay in my room and lock the door." I walk out and into the hallway.

It is about 8pm and the house is dark. Some voices came from down stairs and the other side of the house but I just make a run for it to Gracie's room. I grabbed a handful of clothes and other things she would need. Just as I got back to my bedroom I heard Hunter's car pull up. I was relieved until I heard someone chuckling at my door. Before I could even turn around, I was knocked to the floor.

James was dragging me by my ankles, trying to pull me to his bedroom.

Gracie screamed, "Let Leah go!"

That must have pissed him off as he went to grab her. Without another thought, I tripped him and screamed for Gracie to get out of the house and go get Hunter and Mark.

I was crying as I tried to get up, but it hurt. James managed to twist my ankle when he was trying to drag me to his room and there was no way I was going to get away from him quick enough.

Trying to crawl as fast as I could, he suddenly grabbed me and threw me over his shoulder. I could smell the alcohol from his clothes and knew I was doomed if Hunter and Mark didn't get up here quick enough.

James threw me onto his bedroom floor and kicked me hard in the ribs. "You fucking little bitch. Worthless piece of shit. You're nothing. No wonder why your father and brother don't want to come back. Your mother and everyone else is better off without you!"

As much as I didn't want to believe it, I knew that's exactly how I felt.

However, he needed me around but for his own sick twisted ways.

I curled up in a ball as he stepped closer to me. I could feel his body on mine as he was now on top of me. Holding my wrists against my sides, he leaned down and bit my neck. It hurt and I tried to pry him off of me, but it was a struggle.

He went to pull my jacket off but I managed to free my hand and slap him hard across the face. A growl escaped from his throat and he stood up. I yelped when he kicked me again.

## Stranger To Love and Love Which to Fear

Just then, Hunter flung the door open and tackled James to the ground.

After a couple punches, James was out cold. Hunter scooped me up and carried me down the stairs. He gently placed me in the backseat of his big blue van next to Mark and Gracie.

"Wait, my bags." I squeaked.

"I already grabbed them." Mark replied, raking a hand through his disheveled hair.

I took a deep breath and curled up with Gracie. She hugged me tightly with tears streaming down her face. I was trying my best to keep myself together, but I couldn't. Through my tears I stared out the window as we pulled out of the driveway.

My eyes widened. I wasn't sure if it was me or my imagination, but it looked as if someone was watching in the darkness.

Did they just see everything that had just happened?

## Chapter 3: chapter 3

### CHAPTER 3

We were finally at Hunter's house and I was actually starting to calm down a little as I was getting out of the car. I seen Lilly come running towards us and Gracie was in her arms in a matter of seconds. It made me feel better knowing that she had them just in case something ever happened to me.

I saw Lilly's face and her eyes were flickering back between me and Gracie. Mark grabbed me picking me up as he carried me into Hunter's house and Hunter of course grabbed Gracie and my things. We all went down stairs to his man cave and he put on the "Lion King " for Gracie to distract her from what just happened.

I couldn't get any words out.

I couldn't even think...

All I kept hearing is what James said to me and it cut into me deep. I knew I shouldn't listen to a damn thing that man says, but I couldn't help it. He knew what to say and how it hurt me and I was falling apart exactly how he wanted me to.

Lilly's arms came around me and then it was just a big group hug. Hunter and Mark were right there and Gracie came running over thinking we left her out as she jumped on Marks lap. We all couldn't help but laugh. Hunter decided to run upstairs and grab a menu so that we could order dinner. Nobody was in the mood to cook and his mother and father were on a mini vacation.

They were so sweet and I love them. They knew about my situation but there wasn't anything anyone could do. His father was a lawyer and a damn good one, but it would only make things worse if we took things to court.

I am only 17 and I wasn't going to be able to take Gracie with me even If I was to escape. I was trapped , and the only escape I had were my best friend's houses outside of school and work. I work two jobs. I am a dance teacher during the week and a waitress / bartender on weekend nights.

I love dancing and I have done it since I was a little girl. Lilly's mom owned the studio so she gave me the job. I would leave school around 12pm during the week and work at the studio from Monday through Thursday. Fridays consisted of spending time with Gracie even if it meant just going for a walk to get out of the house. As for the rest of the week, Gracie was home while I was at school and work.

But it wasn't going to be that way anymore.

I was talking with Mark and Lilly while we waited for Hunter to come back down with menus. When he got back we decided to order From "Jones Pizza " We ordered 2 large pizzas and fries. We got back into our conversation.

I told them I couldn't risk letting her be home with that bastard and they completely understood.

Before I could even say anything Mark was on the phone with his mom. He didn't tell her every detail of what happened all he told her is that he needed her to watch Gracie during the week.

She absolutely loves kids especially Gracie. She had offered a million times before to watch her for me when we went out. How ever I always took Gracie with me. It was different now though it wasn't summer and this was senior year of high school for me. I couldn't just bring her to school with me especially without other people questioning me.

When Mark was done on the phone he came over to me and said another problem solved. I couldn't help but give him a huge kiss on the cheek. I felt so much more calm, knowing Gracie would be safe during those hours. I just couldn't restrain myself from showing him how much that meant to me.

Of course he didn't push me off and I heard everyone laughing in the back round and Lilly saying "*Get a room love birds*" But they all knew very well that it wasn't like that at all. We always teased each other like that we were all the best of friends practically family. My dad was the best of friends with the three of thier dad's .When I was young we always had play-dates and that basically how the four of us became linked up together. Finally the dude was here with our diner. We all went upstairs and sat at the huge marble table while eating together and making jokes. Then all of the sudden my phone was going off. I excused myself from the table walking towards the front window just to get the view of the night sky. I couldn't help myself I loved nature. I loved the night sky but something caught my eye on the other side of the street.

## Stranger To Love and Love Which to Fear

I seen someone in a car just looking at the house and I thought I was going crazy. I was standing there shocked for a moment and then I ran to open the door and the car took off down the street. I didn't get a chance to see who it was or to even get the plate number. Within seconds Hunter was by my side. Hunter asked me if I was okay. I guess I looked like I was in another world. But I responded with a "*yes I am fine just thought I saw something or someone watching*" Hunter told me I was probably just tired and thinking to much. I was just scaring myself. I agreed that he was probably right .  
When I returned back to the table it hit me that I had work at 11pm at **King Richards-Diner- Party Club.**

## Chapter 4: chapter 4

### Chapter 4-

**King Richards-Diner- Party Club.** It was a really big hit in this town which by the way is named **Dragon Town.** I really wasn't up to going. But I just got moved up and I was going to be bar-tending and I knew I couldn't just call out. My boss was all about making the money. He had his eye on me ever since I was a waitress there.

The woman who hired me was in her early twenty's. She was most likely his girlfriend at that time, he got around with all the girls so I had been told. I never really talked to him. He was more interested in his night workers which is obviously his bar tenders and strippers or his so called dancers. He didn't particularly care for just us simple waitress.

I was a host for the first 6month and I moved up quick but I didn't mind. Its been two years here and I loved the guest's especially the normals. Now however it was going to be very different. I wasn't serving food to the normals. I was going to be serving food and alcohol to the real high class people, along with who ever else came here.

This place was huge I never have been to the club side. But that was all about to change tonight. I knew that Lilly Hunter & Mark didn't mind watching Gracie they were already fighting over who house we be staying at. We left it up to Gracie. Of course she choose Hunters house. Gracie wanted Lilly and Mark here as well. It was never a problem all of us stayed over.

It's been awhile since I slept out with the way things have been. They told me not to worry about it. Lilly told me to take her car. I told her I was fine that I would just walk because I really did love the night life. Even when I had my car. She wasn't going to fight me on it I had already had a long day. At the moment I just needed a long hot shower.

There was no need for me to ask Hunter. I knew where everything was and I felt like it was a second home to me. Considering I have known him my whole life. I went to the guest bathroom and turned the water on and decided that I would just make this a quick shower.

Once I was in the shower I washed me hair with the fruity bedhead shampoo and conditioner which was my favorite . Then I found my razor and I had to shave I cant stand being a woman. Always having to shave but its apart of life. I was about to curl my hair when my phone went off again.

Unknown?

I didn't bother to answer it and it was already 10pm so I had to get my butt moving.

I applied some black eye liner and mascara to my eyes to make my blue eyes really stand out along with some glitter and red lipstick. I was looking pretty damn good after a day like this who would have known. My outfit was a black thong with tight black skinny jeans and a black lace strapless bra with a hot red strapless top that showed my stomach. It was really revealing my boobs. But that's what I was given to wear for first night. So I needed to try and make the best of it.

My hair was long enough to cover me and I was glad for that. But it was still revealing either way. When it came time to leave I gave Gracie a kiss and hug and told her I be back when she woke up. I thanked my friends for being so great to us. I wasn't going to where my Red heels to work I decided to take my sneakers and change into heels when I arrived.

I got there Finally. 30 minutes before my shift, I was just looking around it was starting to get packed

Of course tonight was a special event for some famous man in town. I didn't know who but I didn't really care to know. I know I have money but I wasn't rich rich and even if I was I would never go around making a big deal about it. I kept my life private and I really didn't tell much about my life to people. I didn't know how I was the type of girl who bottled everything up. I tried to act tough but inside I felt weak. When I was alone I would let all my emotions out.

After a few minutes of standing there my boss found me. He was about 30 he wasn't drop dead sexy but he wasn't bad looking I could see why the woman and girls fell for him but he just wasn't my type. He offered to take my jacket. I was a little hesitant but I slid it off and gave it to him. He introduced me to a few of the girls

## Stranger To Love and Love Which to Fear

and security.

Their eyes skimmed over my body and I couldn't help but wrap my arms across my chest. He was talking my ear off. I guess he saw me staring over at the table where the big event was going down.

He grabbed me by my hand and led me towards it. I reluctantly pulled back a little. But he told me to follow him so I did, feeling nervous. When we got there he was talking to a couple of women. One of the men asked me my name. I responded that it was "Leah". The woman told me how beautiful I was and my name. I smiled a little and thanked her. I wanted to escape the high class and get to work.

My boss Richard told me I would be serving them tonight. Apparently someone had requested me. I had no clue who. All I could choke up was okay where do I begin?

Someone was laughing and waved at me I didn't get a good look but from what I could tell he was good looking. I was biting my lip hard. As it had appeared I was nervous. I just wanted to get the night started hoping it would go by quick.

I followed my boss to the bar, I already knew the menu like the back of my hand and I was trained on how to make drinks before. But there was still a few that I wasn't sure about. Two other girls were here to help me, one was of their name's was Kim & the other was Brie. They were very confident in me that I do fine.

They ushered me towards people and I guess I was doing a damn good job. After giving myself a slight pep talk on the way over to these strange people. For three hours I was just walking around asking people what I could get for them. Bringing them their drinks.

The music was loud. I saw girls stripping on the poles Some were really dancing and some were just fully nude. I have to admit it was hot. Seeing them move like that, but I knew I could do it to, and I was better, I for sure didn't need a pole to dance.

I was watching guys throw money at them while there was a bunch of people on the floor grinding. Some people were making out along with some people getting it on behind pulled curtains. I spent a little time at the actual bar making drinks. But that little bit of time got me two hundred dollars worth of tips alone and I couldn't complain.

A group of men and a woman were gathered around the table. I was a little nervous to go towards them knowing that these were the people in the big event of the night. I looked over my shoulder and the girl's smiled and waved their hands at me telling me I was fine.

I approached the woman first asking how her evening was going and if there was anything I could get her to eat or drink. She just smiled at me and asked for a mixed drink. She left it up to me to decide. Then I approached the men they were all decent looking handsome and dressed for success I knew they were staring at me. I really had wished that my top wasn't so eye catching but that was the point. That's how I would make my money.

I Stopped focusing on the fact that they were staring at me like I was the food that never came and took notice to the very mysterious man staring at me. I didn't know who he was but he gave me goosebumps and I couldn't help but blush. I wanted to run and retreat back to the girls but It would be rude if I didn't check on him.

I took a breath and stepped toward him he had a wicked intimidating smile but I tried not to let it get me flustered. "Sir is there anything I can get for you to drink or eat" He just looked at me smiling. I was so embarrassed .I was waiting for him to respond which seemed like forever. But he just shook his head and leaned forward to show me he had a glass already. I smiled trying to not show how stupid I was feeling. Walking away was a relief the girls clapped their hands and gave me a hug when I got back to them. I told them how stupid I had felt but they just giggled at me. They told me he was the man of the night meaning he was the rich guy that had held the event here. So of course his ass had everything he needed. He was the first one to be served.

I guess I should have found that out before going over to the table. I returned with the woman's drink and she thanked me. I went to walk away again but boss Richard was talking to that sexy man whose name I still didn't know.

## Chapter 5: chapter 5

### 5 chapter.....

He was pointing at me and then he came right over to me and wrapped his arm around my waist. It was a little to tightly for me and he was telling me that "Ryan would like to speak to me". I was at loss for words. I wasn't to happy that he had his arms around me like this. But I walked over.

I wanted to ask what he wanted to speak to me about. Again he was smiling at me before I was even at the table. I really didn't know why but I just wanted to know what this asshole wanted from me out of all people. Or at least out of all the girls here or at least the one with more experience should I say?

Richard winked at me and I was sort of wondering why he was being so flirty towards me. I only just met him not to mention he was my boss. I was going to need to be careful around him I could tell.

Richard was leading me towards Ryan but before we got there he stopped and pulled a curtain open. Three men were sitting there told me he wanted them to meet me it was a few of his friend's that helped him run the bar. They were so drunk I knew it before they even spoke.

I felt something or someone's hand against my leg I tried to ignore it. I moved a little closer to Richard hoping he would just lead me to Ryan. I wanted to meet him and get away from these drunks.

But that's when his friend smacked my ass really hard out of no where. I was just shocked. How could they be acting like this if they worked here didn't they believe in keeping things professional?

I went to walk away and I seen Richard excuse himself and he was following me. When he caught up he told me. He told me to ignore them. That I was a good looking young girl and I should learn to get use to being hit on especially around here.

I knew he was right, I would need to get use to it. But I really didn't need his people touching me especially not on my first night.

As we approached Ryan one of the men from the table came over and told me to "fetch him a drink" I asked what he wanted and that's when he decided he would just squeeze one of my boobs nearly taking it out of my shirt.

I took his hand off so quickly but he pushed me for me pulling him off. and I lost my balance because the next thing I know is I was practically on top of "Ryan"

He seemed pissed and I felt really awful for falling onto him but he wasn't looking at me he was staring at the man like he wanted to kill him!

Suddenly he snapped out of it and asked me if I was okay. He seemed real concerned the look on his face. I was waiting for him to start laughing but he didn't. I just shook my head and whispered I I wasn't expecting that.

He helped me back on my feet but I couldn't stand. My ankle it was hurting from James twisting it out of place earlier that day. I just let out a slight scream falling back into his arms. Out of no where he picked me up and placed me on the table.

I was relieved to have the pressure off my feet.

He placed me on the table. I went to hop down but he held me there and told me to hold still. Taking my heel off of my foot he said it was swollen and for me not to move. I sat there with my head in my hands thinking I should have never have walked toward this table.

Ryan was right back at my side with ice. One of the girls I worked with was beside him asking me what happened. I looked at her and looked down at my hands. I tripped when and I wasn't expecting Richards friend to be so touchy. "It was my fault I choked out I pushed him off guess I should learn I can't do that".

Again I seen Ryan face turn to anger as he glanced over at my boss friend. Richard was now running towards us. Ryan didn't look up at him he was just focusing on holding ice to my ankle. Rich asked me if I was okay and I told him yeah. He didn't ask what happened though. "I am just a stupid and I heard Ryan mumble under his breath "Its not your fault that a scum bag gripped you up and touched you"

I was kind of shocked but just tried to smile. I was hoping no one else heard what he just said. Ryan made Brie get him the ankle tape and he wrapped it around my ankle. I was now useless for the night and Richard told me I could go home and rest my foot.

## Stranger To Love and Love Which to Fear

I felt horrible but in all honesty it really was a long day/ night and I needed to just rest. Ryan helped me off the table. I told him I was okay but he didn't listen. Rich told him to relax that he would take me down and to enjoy himself but Ryan didn't take his hands from my waist.

To be honest maybe he wasn't seeming like an asshole but I still didn't know him well. However I did appreciate his concern and I was happy he was walking with me instead of Rich. Ryan waved to the people he was with. I wasn't sure if he was saying goodbye for real or goodbye until he came back. But I didn't stress much over it.

I got to the elevator and Brie ran stopping us from going down. I completely forgot about my coat bag and sneakers. I was happy she had remembered or else I would have been coming right back up to get my shit. Finally the door closed. I really didn't say much or even get the chance to ask what Ryan wanted to speak to me about. I peeked up at him while putting my shoes on in the elevator about to ask him what he had wanted. But that's when his intense gaze left me choking on air.

He wasn't just sexy or handsome I am not quite sure what you call a man like that was he even a man? He was like a god his eyes were so hungry and blue and it reminded me of my own eyes. But I liked him so much better. He was built. Ryan was all muscle and just to think that he caught me and had his arms around me gave me butterflies.

I think I must have zoned out again because he was waving his hand in front of my face trying to get my attention. He stepped closer to me and asked me if I had been drinking? I just laughed and said "no but I sure wish I had been drinking" He smiled and buttoned up my jacket and I was biting my lip. I bit so hard that I could taste the blood and I stuck my hand to my lip and sure enough I was bleeding. I decided to suck on my finger softly to get the blood off my finger and he started laughing.

Finally we were on ground level and he asked me where my car was. I then remembered that I didn't take Lilly's car like she had asked me to. I felt screwed. I clearly didn't have my car because James my mom's boyfriend kept it from me. Even though it was all in my name and I paid for it all on my own before he was even in the picture. I smiled and said I walked here. He looked at me like I was joking and said "no really where is your car ill walk with you to it". I couldn't help but laugh and say then we have a pretty far walk to my car from here.

He just had that wicked sexy grin on his face. He whispered in my ear I can't let you walk home alone and then he scooped me up in his arms and carried me to some fancy limo. I tried to get down and say that I was fine and wanted to walk. But he put his hands to my lips and said "Your absolutely nuts if you think I am allowing you to walk home at 4am in the morning not to mention there is snow and ice covering the ground along with your fucked up ankle"

I felt dumb for not thinking about that but agreed that he was right. I told him I would call someone to come get me. He could go back to his party but as I went to dial Hunter's number he hung up my phone and told me to relax. He said he was in no rush. I sat back in my seat looking at him and just shook my head allowing him to know I was okay with it. I wasn't going to put up a fight. Ryan asked me where I was headed and I told him while he relayed the message to his driver. I couldn't help but check my phone messages and there were a bunch.

My mom sent me like three messages one of which she seemed concerned wondering where I was. But when I read a little further it was just her worrying about if I had cleaned her sexy dress like she had asked. She was going on a date with James for some "business deal". The other telling me she needed me to get her cigs. Last one was telling me to get my ass home tomorrow with Gracie since I never asked her permission to go out. I just wanted to smash my head against the floor forgetting I was still in the car with this gorgeous man. He looked back at me but didn't say anything he was still talking to his driver. I then saw I had a few voice mails one from Gracie saying she "loved me and goodnight along with the Mark, Hunter & Lilly telling me to be safe, call if I needed them". But of course the best one of all was the one James left me.

I was scared to even hear it but I needed to. I turned the volume on my phone, as low as possible. However James voice was loud as fuck and even if I had muted it it still could have been heard. "You little fucking bitch who the fuck do you think you are. Your really going to get it when you get home you little skank. Get your ass home your only making this worse on yourself you stupid bitch. Don't make me come find you. Be here by tomorrow at 5pm on the dot not a minute later or your really going to be in some shit Bitch".

## Stranger To Love and Love Which to Fear

I tried to hit it off realizing it wasn't quiet it all but instead I hit speaker phone and my phone dropped. By the time I found it the recording stopped playing and Ryan had hear the whole thing. I just pulled my knees up to my chest humiliated as if things weren't already bad enough.

## Chapter 6

### 6th chapter

He slide over on the seat but sat in front of me pulling my legs down and my hands away from my eyes. He looked at me and then asked "*who the fuck was that and why the fuck was he speaking to you like that*" I whispered it's no one important but started crying softly turning my face.

Ryan grabbed my face and said for me to look at him and so I did. He asked me again who was it and then asked if it was it my "boyfriend" and I shook my head and said "NO". He breathed out I guess he was happy but still was bothered and so again he asked me who it was. I choked on my words and said "my mother crazy fucked up boyfriend "and I turned away not wanting to say anything more.

He sat beside me not saying anything. We started driving down the street but I could tell that it was bothering him. He either wanted to know more or he wanted me out of his Limo after hearing that bullshit . I knew he would never talk to me again.

I saw that we had just come to a light and I got the slightest bit of courage,I thanked him for helping me earlier and apologized for him having to hear that.I tapped on the button and thanked the driver since he couldn't see through the private tinted glass. I opened the door to get out feeling like an ass .I knew I had a good walk ahead of me but I didn't care if it took me all night, I felt defeated.

Ryan immediately grabbed hold of my hips pulling me back and slamming the door shut. He was then on top of me and told the driver to keep moving. I was under him feeling so small I blocked my face responding to what I am use to which is getting slapped. But he didn't do that. How ever he was on top of me. H e looked at me and his eyes looked sad and lost and he was still mad and then he spoke!

Ryan asked me why my mothers boyfriend talked to me like that and he asked me why I tried to leave I just shrugged my shoulders.

"I don't know"

Ryan had helped me enough and I didn't want to waste his time especially after he heard that message. I put my hands to my face and I was bawling my eyes out. I never cried like this in front of anyone! Its been so long since I last had a melt down that was this bad. It didn't take him long at all within a second he had me cradled in his arms. My face was against his chest his hands were rubbing my back and pushing the hair out of my face.

I couldn't breath. I was trying but I just couldn't stop and that's when I felt it. The most wonderful thing his soft lips and peppermint breath right against mine. It felt so good to be kissed and especially by him. I started breathing again but it was different I felt like I wanted him to kiss me more. I kissed back even harder as he wiped my tears from my face.

He didn't say anything and neither did I just let the kiss continue on not wanting it to end even though I didn't know anything about him. I knew I never felt this way. For some reason I felt happy which is completely odd under the circumstances I was in.

The last real kiss I had was when I was 14. My first and worst kiss ever I was dared to kiss some boy at a party. I have forever ever regretted playing that game. I told myself I would never play it again. Since that day I have not kissed a guy on the lips!

The limo was slowing down and I knew that we only had a few more light to go before we reached Hunters neighborhood. Ryan stopped kissing me and let me catch my breath he went to say sorry for being so forward but I already had my lips on his cutting him off again. He pulled my hair softly and was biting on my already soar lip. But I didn't stop him and for some strange reason it turned me on. A soft moan escaped my lips and I didn't realize it at first. But I certainly felt it the huge monster in his pants wanted to be free he was certainly turned on.

Although I have never felt this way I knew I was too. My body felt strange and I heard about everyone sex life. I figured this was the start of how ever began. One of which I clearly never experienced for myself at least not until now?

He heard my moan and he was biting harder leaning me back on the seat as he had unbuttoned my jacket leaving my upper body as revealing as ever. Of course with my luck we came to a quick stop. The limo driver

## Stranger To Love and Love Which to Fear

apologized as we flew to the ground of the limo.

Leaving me on top of him we both started laughing uncontrollably and I couldn't stop myself from hugging him. He wrapped his arms around me and whispered that he loved my laugh. He hated that I was crying just a few minutes ago. He bit my lip and said by the way "Leah your not only sexy but your beautiful in every way and I want to know more much more about you"

I blushed although it was dark I am sure he could feel my reaction to his words. He leaned up and picked me up to put me on the seat. I had seen that we had arrived at my destination. He clicked on the light and took my phone putting his number in my phone. Then he asked me mine as he sett it in his . I couldn't help but stare at him. He looked up at me and whispered that he wanted to see me again. He wanted to see me tomorrow !

I shook my head saying yes that I wanted to see him as well. That is when he kissed my lips really hard taking my breath away. Leaving me wanting more I wrapped my legs around him since he was still in front of me on the floor, But he pulled away and had that sexy smile. He pointed to the house and I knew it was time to go.

He grabbed my face seeing that I was sad he said I am more then welcome to come back to his house with him. But he told me he figured that i would want to wait a bit more. I laughed and smacked his arm leaning in for another kiss. He opened the door for me and walked me up to the steps. He kissed me once more before he released his hold on me and whispered that he really wanted tomorrow to be here quick. I was blushing again . I closed the front door leaning against it just feeling so overwhelmed by everything today -night that I couldn't help but smile and peek out the window as his limo pulled away taking off down the street..

I found myself climbing into bed next to Gracie and within moments I was knocked out and dreaming about him dreaming about tomorrow....

## Chapter 7

CHAPTER 7.....

"Good morning *sleepy head*" I heard Lilly say. She was sitting on top me poking my face while Gracie tickled my feet. I was laughing in a matter of seconds. I asked what time it was. She said it's time to get my ass up. She crawled off me and she turned on the radio. Next thing I saw was her and Gracie dancing. I called Gracie over to my lap realizing my little princess just turned five. I told her that we would celebrate tonight. We would do whatever she wanted and she was clapping her hands smiling.

Then out of no where my phone went off. I jumped out of bed grabbing my phone and it was him it was Ryan!!! I was smiling and at the same time I was nervous as fuck. I went to answer it but I didn't get to it in time. Lilly was looking at me with suspicious eyes telling me to spill my beans. I told her about what happen once Gracie had left the room. We talked about everything. She was really happy for me.

But once we got to the part about James we were both silent. I know she didn't want me to go back home. She knew I didn't want to go. I decided that we were going to stay here another night. I wasn't going to take Gracie home to them especially not on her Birthday. We knew the guys were going to flip. Hunter and Mark hated James they had no problem with setting him straight. But that would only make it worse on me & Gracie especially since James didn't care. I told Lilly I needed a bath. She knew I needed a few minutes to myself to get my ideas together.

I locked the door and got undressed sinking into the water I sett my phone beside me and let my music play as I cleaned myself up. That's when I heard it a few voices coming from downstairs but it wasn't Lilly or Hunter-Gracie or Marks it was his it was "RYANS" voice I jumped out of the bathtub barley dry.

Just as I went to open the door Lilly & Mark were standing there telling me Mr prince charming was here for me. I shut the door and threw my tight black yoga pants on along a with a blue tank-top making my boobs look amazing, along with those yoga pants which really showed off my ass not that I was trying to. I just wanted to get down stairs. I brushed my teeth real fast and combed through my hair. I figured I let it air dry and it fell nicely on my shoulder. I didn't care about makeup I didn't even know why he was here. I know I told him I see him tomorrow but I didn't expect him to come knocking for me. As I peeked down at the bottom of the steps I saw Hunter and him laughing. Gracie was doing some tricks I had taught her from dance.

When she saw me she ran over to me jumping in my arms giving me the biggest hug and I again was laughing I loved my little sister so much. I realized I laughed a little to loud because both of the guys were now staring at me. I looked up and waved still holding Gracie and I saw him eying my body up and down until his eyes were caught on mine. He was showing his sexy grin which I was a fan of. I walked over and gave Hunter a hug and then questioned if I should hug Ryan or not but I knew that he wanted one once his arms were open. I fell into them and instantly his strong muscular body was wrapped around me. Gracie started singing "Leah s got a boyfriend" & I just stuck my tongue at her and said no I don't.

## Stranger To Love and Love Which to Fear

Everyone was in the room now talking I didn't get a chance to tell the guys who he was but Lilly had informed them for me. It was all okay. Once he let me go he asked me how my ankle was feeling and to be honest, it still hurt but I think I was so overly happy that I forgot about the pain. Ryan asked me if I had eaten and I responded with a no. Of course he was about to ask me if I wanted to go out with him. I was about to say no thank you and Hunter said of course she would. I looked at him with I am going to kill you eyes. He just laughed and said for me to go that Him and Lilly were taking Gracie out to Lion king on ice for her Birthday.

He had asked me awhile back if I wanted to join but at that time I was on day shift so I couldn't take off. I knew he was happy and wanted me get out and have a good time. They always told me I needed a man in my life but I never let anyone get close besides them. I finally said fine and before I knew it Lilly was throwing my bag at shoes at me. Mark was swinging my black coat back and forth in his arms along with my beautiful blue dressy scarf. I grabbed it from them thanking them and giving Gracie a kiss on the cheek telling her not to have to much fun without me. I told her when she got back we would celebrate some more. I waved goodbye and we all decided that we would all meet back at the house around 5pm.

Ryan opened the limo door for me and I smiled thanking him. I said hello to his driver even though I was still clueless of his name. I was still clueless about Ryan. All I knew was that he was filthy rich but I didn't know anything about his job. I also still had no clue why he has hosted that event at the club or why he had even come back for me.

Once he was in the car I noticed he was wearing a dark blue dressy long sleeve shirt with black fancy jacket along with a nice pair of black jeans he was looking delicious and I could smell his colon. He was watching me eye him up. I was blushing knowing that he saw me watching him.

I went to turn my face away but he grabbed my waist picking me up placing me on his lap with his arms wrapped around me. He had his lips just a little away from mine making me want to jump at him for a kiss. Ryan leaned me back a little making me tighten my arms around his neck. Then his soft lips were against my neck creating a trail all the way up to my lips. My hormones were going crazy. That's when he stopped kissing me.

I didn't realize it but my body was slowly grinding against him and he was hard and I just giggled to myself and said "*sorry*".

He asked me what my favorite thing to eat was. I really didn't care at this point. I just wanted him to kiss me. But I just choked out french toast and he smiled. He asked me if I wanted to eat at his house or go somewhere. I told him I didn't mind either or and we ended up heading to his place. He lived a good 30 minutes away. I had never been to this part of town his house was more like a castle it was huge. It was enormous and it looked so beautiful with the snow all covering the ground and rooftops. The big gate opened as we drove up to the front door of his house. There was a bunch of steps leading to the front door but he wasn't going to make me walk.

## Stranger To Love and Love Which to Fear

He picked me up and carried me to the side door of his place. There was a glass elevator open and ready for us to enter. I was still in his arm's when we reached the third floor of his place. He carried me in setting me down on a warm black sofa. He told me that he would be right back. When he returned he was talking to one of his maids, I suppose? She smiled and offered to take my jacket. I allowed her to and she told me she would bring me some hot tea. I just smiled thanking her.

He was beside me within moments watching me take in everything. There was a beautiful view and a huge glass window that showed the frozen lake and field which surrounded all of this property. I couldn't believe he owned all of this I was so peaceful. I was wishing that I lived here. It was so beautiful.

I looked over, I seen him starting up the fire place and he must have realized I was cold. He gave me a blanket that was very warm draping it around me. I was biting my lip again and he took it upon himself as he put his fingers against my mouth and pushed his finger inside it. I was automatically sucking, biting his finger and he kissed my forehead as I released him not wanting him to think I was some kind of vampire.

I snuggled back into the sofa a little as he moved closer to me. His hand was slowly sliding up under my leg. He lifted my body a little as he was leaning over top me. I wasn't sure what he was doing but he was causing my body to want things that I had never wanted or felt before. I felt his hands on my thighs squeezing them a little as he was right between my legs . I couldn't help but squeeze my legs around him but that's when he started smiling. He lifted me up a little and reached under me and pinched my butt grabbing a remote from under me. I felt a little disappointed with myself for thinking that he wanted me. I quickly released my leg's from around him and sat pretzel style on the sofa.

Ryan turned on the fancy radio with his remote not noticing how stupid I felt which I was glad about. When he went to turn around and look at me the maid had come back in the room . She came to tell us our tea and breakfast was ready, I looked at him as he wrapped his one arm around my waist. Leading me to the glass table just a few feet away from us. We ate out breakfast which was yummy and we sat talking about my ankle and the club.

I asked him what the event was for and he said it was just a get together with people that worked for him. He informed me that he worked for the FBI he was high up on the list but he had his own business as well. He was the man who was creating all the new weapons that only certain people could know about which basically meant the soldiers at war along with the FBI agents. Anyone in that field. He couldn't tell me much about it but at least I had an idea of the things he did.

It instantly had me thinking about my dad and I felt sick in my stomach but he got my mind off of that quick without even knowing it. He was curious about me but there really wasn't much to tell I was a senior in high school I worked as a dance teacher during the week and Friday through Sunday night I would be working at the club and I wouldn't be 18 until January 6th.

He looked at me and said he though I was older but I just smiled and replied no asking if it was a problem and he said "*No not at all*"Then he was standing in front of me his lips against mine as he lifted me up by my ass holding me tightly against him smacking my butt playfully I couldn't help but bite his neck. That left him

## Stranger To Love and Love Which to Fear

moaning softly. I was still feeling tired. I was resting my head on his shoulder as he carried me back to the living room and placed me on the big sofa. Ryan asked me what movies I liked and turned on "**I Am Legend**". He placed the blanket back around me. I curled up on his lap while he was rubbing my back and didn't realize I was so tired but within minutes I was fast asleep.

## Chapter 8

### CHAPTER 8

Next thing I know I was waking up in a huge king size bed with a heating blanket on me. Glancing around the room I saw how huge it was. Then I realized he was laying next to me with his arm around me. I peeked up at him and then hid my face into his chest digging my hands into his back. It now appeared to me he had no shirt on, just his pants which he clearly had changed into sweatpants. I was loving it I started kissing his chest a little and he squeezed my butt asking me what I was doing. I decided to I was going to be a little playful as I slowly climbed on top of him and licked his chest.

Ryan quickly flipped me over and had me pressed on my tummy beneath him his hand were now caressing my breasts even though all of my clothes were still on, I felt his body weight it was forcing me down into his mattress. It was safe to say that,

"I Leah wanted this man I never wanted anyone I never even made out with a man until last night which was with him and I certainly never had sex but he had me turned on and feeling so happy in just the small amount of time we spent together."

I slowly pressed my ass up towards the huge monster in his pants. His hand cupped my breasts and he whispered in my ear that they were so beautiful and soft. I was biting the pillow still forcing myself against him as I let out a moan because of the pleasure and slight pain that I felt from him squeezing my boobs so tightly. He leaned up a little knowing I was a little out of breath. Then he turned me over and looked at me kissing my neck again making me crave him even more. Leaning on my elbow's, seeing him over top of me just felt overwhelming in a good way. Ryan planted soft kisses from my lips all the way down to my waist. My breathing was so UN even as he slowly started to slide my tank top up off. He kissed all over my tummy in the process.

Now I felt the cold air hitting my skin and I was shivering from it and his touch but I was loving it. Ryan lifted me up slightly so that he could undue my bra strap. That quick it was off of me and on the floor and my nipples were hard and soar wanting and needing him. He was breathing his warm peppermint breath on them and touching my nipple with the tip of his tongue teasing me and I tugged at his hair as I pushed my boob into his mouth. He began twirling his tongue around and biting down softly, his teeth teeth were sinking into me and I was lost feeling so good. I screamed out his name "Ryan" as his one hand slowly made its way to the back of my yoga pants caressing my ass and then he softly started rubbing his hand against my front making me squirm in his arms for more. I wasn't ready for this though. I knew I had already done to much in just the time we were together. It was hard to find the courage to ask him to stop. But that's when I heard it my phone ringing.

It saved me in a way from having to ask him to stop even though I wasn't happy knowing I had to get up and let the fun end. It was James. I knew this because I had a special ring tone sett for when he called it was the jaws theme song!

## Stranger To Love and Love Which to Fear

Ryan grabbed my phone off the chair in his bedroom and brought it over to me I was hesitant to answer but I figured I just get it over with. *"Hello James. I will not be home tonight and Gracie won't either I am taking her out for her birthday and we all could you some time away from each other"* .I heard his laughing I could tell he was drunk,even though my mom got us into this situation I was worried about her. I was about to ask him where she was when I heard her voice in the back round singing some song.

Ryan had looked at me but then he was writing something down in a notebook. I felt the instant need to be in his arms I crawled into his lap resting my head back against him waiting to hear what James had to say. Then out of no where he was screaming at me cursing me out telling me I needed to be home. I heard my mom in the back round. She was saying that it was okay that I was staying out. That's when I heard it. The loud sound of her getting slapped and I jumped forward. I forgot I had no bra on so my boobs were shoved tight into Ryan's hands as his arms held me securely knowing something was wrong. I screamed "you bastard" and he told me to fuck off and then he hung up on me. Tears were streaming down my face. I was so upset and mad why did she let this man treat her this way? Why did she allow him to treat us this way ? Dad never would have done this!

I tried to remind myself daddy isn't here anymore and neither is Max. I am on my own it's just me and Gracie now. Ryan grabbed some tissues and was handing them to me while he wrapped the heating blanket around me. He wasn't going to ask me what was wrong instead he was dialing up someone number and he turned to me asking for the address to my real house. I told him without thinking to ask why. He was on the phone and a minute later he was off and told me that he had just sent someone to check on my house. I turned to look at him through my blue teary filled eyes all I could choke out was *"thankyou"* as he pulled me closer against him. He hardly knew me but he was so protective and caring in so little time. I really was falling for him. I knew if I could I would stay here. Right here in his arms wrapped up in his blankets with him and never leave...

## Chapter 9

### CHAPTER 9.

Laying in Ryan's arm seemed like the perfect escape. But in reality I couldn't just hide here. I had to face things head on and literary head on. My mind was racing I know that Ryan just called someone to go check on the house. But who ever it was didn't know the situation or how crazy James could be Ryan barely knew anything. Maybe allowing him to send this person there was a huge mistake. I quickly begged him to call the person back to stop them from going. He could tell It wasn't open for discussion but he did as I asked. I took a breather. He asked me if things were going to be okay,when I went home. I lied and said yeah my moms boyfriend was just mad about something.

He just studied my face but I smiled trying not to give anything more away about how shitty my life truly was. It was about 230pm and the snow was falling to the ground quicker. I was curious to see how Gracie was doing so I called Lilly. Lilly answered telling me that they all had a very nice time and that Hunter was letting Gracie pick out some toys for herself. He really spoiled her and she knew she had us all wrapped around her finger. Lilly asked me if I was okay. I just told her James had called freaking and she told me to keep calm and that we would figure everything out when we all got back to the house. She told me to enjoy my time with Ryan and we said our "love yous and goodbyes".

When I got off the phone I seen that Ryan was just returning from the bathroom. I assume he wanted to give me some privacy or that he just needed to use the bathroom. His body structure was just perfect, seeing him stand in front of me was very distracting. He pulled my legs so that I was laying towards the bottom of the bed and he kissed my forehead softly while leaning over top me. Then I was suddenly over his shoulder he was about to open the door. I screamed wait my shirt and he laughed and threw one of his shirt at me. He smacked my butt playfully. I wasn't sure where he was taking me but I didn't care at the moment. I was just happy to still be here with him. He told me to close my eyes and I did as he said.

We were in a different room. I could tell. Ryan placed me down. I saw a piano and glass mirrors with a beautiful huge window showing the balcony and lake which was covered in a beautiful white flakes. He asked me if I enjoyed singing and I smiled and shook my head yes surprised by his question. Gently he placed me on my feet by the piano and said go for it. I was not going to sing not here not in front of him. Yes I loved singing and writing my own songs just as much as I loved dancing but it was easier to dance in front of people. Dancing didn't involve my voice. He kissed my head and whispered one day I would sing for him. I just giggled and whispered yeah if you make me. His eyes became playful and he said "*don't worry I will*".

He played a few songs on the piano and I did to but I didn't sing. I wasn't going to not yet. We were in there for about a thirty minutes and I figured it was time to start heading back. Before I could stand up he picked me up placing me on top of his piano.

It was really sexy the whole mood quickly changed from us playing music to him making me crave him again. Boxers was the only piece of clothing that hid his beautiful body from my sight. I was in just his t-shirt and my yoga pants. He slowly kissed my ankle and then he gently tugged at my pants biting my hip bone and leaving a bite mark. I smacked him playfully and then he picked me up and was spinning me in a circle in his arms and I was all giggles.

## Stranger To Love and Love Which to Fear

## Chapter 10

### Chapter 10....â â â â

It was time. I was looking out the window of the limo while he wrapped his arms around me pressing his lips against my neck. We were almost at Hunter's house. I knew I didn't want Ryan to leave. I figured I ask him to celebrate Gracie's 5th birthday with us.

I tilted my head back asking him if he wanted to join us and he smiled and said sure. He asked me what Gracie liked. I told him that he didn't need to get her anything, but he said what kind of person would he be if he didn't get her a gift. I just laughed realizing I couldn't argue with him. That's when I realized we were stopping at a store.

He smiled ..." toy store it is". We were in and out quick but people were glancing at us. I knew a good amount of the people. I guess they were shocked to see me holding his hand, I was shocked that he was holding my hand. When we were about to get in the limo I heard someone scream my name I turned around looking to match the voice with an image but I seen no one. We were only a few blocks away from the house when my phone began to go off.

I answered it and told Hunter I be there within a minute. Before we could get out of the car Ryan stopped me. He asked me who had screamed my name and I gave him the most honest answer, I truly had no clue who it was. With that being said I started to tug at him to follow me. When we got inside Gracie was charging towards me. She was showing me that she had got her face painted.

Mark had just walked in behind us. The 3 men were all talking but I still felt Ryan's eyes on me. It gave me butterflies especially when I felt his hand on my waist. I saw Gracie looking at him smiling. He leaned over and said that he had a present for her. She was smiling and jumping up and down like a kangaroo shocked that he bought her a present. I told her to go sit on the sofa and close her eyes. But before I could finished saying it she had given him a huge hug. He laughed and followed her to the sofa and told her to close her eyes tight and no peeking.

He returned with her present when she opened her eyes she was more then excited. He had gotten her a one hundred dollar gift card to the best toy store in town along with the new karaoke CD she had been telling me about. Gracie nearly knocked him off his feet when she jumped into his arms thanking him. Ryan gave her a hug back and placed her back on the sofa.

Gracie wasn't shy she was a very friendly loving child, which scares me at times because of the creeps in this world. Ryan seemed a little taken back but he just went along with it and I giggled seeing her take a liking to him so quickly. She was already trying to take the CD out wanting everyone to play along and sing. But I scooped her up and told her first we need to celebrate.

I still had yet to give her my gift. We all were hungry and let the Birthday girl Decide on diner. Gracie of course choose "Apple Bees" We decided to all just go in Ryan's limo. It was all smiles and laughter on the way there. Before we got in the limo to head home Ryan and I went to the store right after we had payed. I had to grab Ice cream cake and candles while everyone went to the bathroom. It was about 8:30pm when we arrived back at the house.

## Stranger To Love and Love Which to Fear

I took Ryan's coat and put it in my bedroom along with my stuff. When I headed back downstairs I saw everyone talking and playing games. We talked a little and let Gracie play with the board games Mark had bought her along with the karaoke CD that she had just gotten from Ryan. Shortly after we all gathered to sing Happy Birthday to her.

The cake was delicious and it was getting late so I decided it was time to give Gracie her gift. I ran upstairs and returned with her gift. She was looking at me with curious eyes as well as everyone else. I handed her a the scrap book I had been making her ever since she was born she loved it. However that wasn't all I gave her a tiny box and inside it was a small expensive charm necklace that unfolded into a couple hearts. Inside was a picture of my dad,mom ,Max and her along with myself, she was only 2 in that picture. There was one of her and Max and one with my 3 best friend's and her and of course one of Gracie and me. However I left few blank hearts for her to fill in the necklace.

Gracie thanked everyone for her gifts without even being told to. She really did have great manners for a child. It wasn't long before Gracie was in my arms asleep. We were all just laying on the sofa and of course Ryan was next to me with his arm around me. Lilly was sprawled out on Hunter and Mark. Ryan kissed my hand and told me that he needed to go.

I never thought I would get upset but for some reason it really bothered me. I didn't want him to think I was some crazy girl so I just smiled and said sure... "ill walk you out". I placed Gracie gently on the sofa. The guys shook hand with Ryan and Lilly gave him a hug as they told him to come around and not be a stranger. Clearly they liked him.

I Walked down the drive way to the limo as he climbed in I just looked at him. He smiled at me and pulled me in for a kiss. Which of course ended with me on top of him in the back of the limo nibbling on his lips.

He swatted my ass â "Your a very playful girl". He liked that I was. He wanted me. I winked at him â "...well don't get to use to it. He looked at me with questioning eyes. I just smiled â "...I don't know why I am acting this way I am not a playful person,At least not when it comes to flirting".

I guess he doesn't know I am a virgin. I don't plan on telling him, what good would that do me ? I know I was a little to horny in his room, I didn't mean for it to happen. However it happened and I never did it with anyone else so that couldn't make me a slut..(i at least hoped not)! Maybe it was a bit slutty, I never had it happen to me I was never in a situation like that before. Nobody made me feel this way Just him. Now I was just wondering what he though about me feeling slightly down.

Ryan grabbed my face and just kissed me deep holding me on top of him with his hand on my waist. I was getting ready to get off his lap when his phone went off. He was quick to answer it. I heard some girls voice on the other line. I became instantly jealous. Ryan spoke to her for about two minutes â "...i can't talk right now I am busy,will get together later". He was clearly trying to get off the phone with her quick. I knew I shouldn't care but it really did bother me. I felt like I had a crush, I knew it would bite me in the ass. It was nearly 10pm and I knew I had work in an hour. I just got up and climbed off of his lap.

## Stranger To Love and Love Which to Fear

â "Thank you for coming and celebrating with us have a goodnight". He reached for my hand ... "Do you want to go back to my house for a couple of hours?" . I looked away ... " I can't" . He seemed disappointed but he just smiled â "maybe another time". I nodded my head. Softly he placed his lips on mine as I returned his kiss and headed back towards the house.

...It was time to go to work. I had a hot refreshing shower after I tucked Gracie into bed. How ever I needed to get my butt to work and I decided that tonight I would take Lilly's car. Lilly was spending the night with Hunter tonight. Mark had left to go home he only lived three houses away so it wasn't a big deal. I kind of had a weird feeling.

I felt like Lilly and Hunter were going to kiss or something. I always wanted them to be together just like they always teased me about being with Mark. How ever Mark had a huge crush on me when we were younger. But Me and Mark would never work. Mark was to much like me in some ways,we end up killing each other. How ever I loved him like a brother and loved every moment we were together. But these two on the other hand have been spending a lot of time together. I knew eventually that one day they would be a couple. I just never knew when.

I I looked to Lilly when I saw her walking out of Hunter bedroom in just a tshirt and boxers. ... "How do I look?"

She smiled and gave me a thumbs up. I laughed. Tonight I was wearing tight black jeans with rips in them. My top was a white sparkly strapless top that showed off my belly button ring. Along with white heels that were sexy as fuck. I had really long eye lashes so the mascara looked great on me with the black eye liner making my blue eyes pop. I was ready to go even though last night wasn't the best I was determined to make tonight better. I grabbed my bag and Lilly's keys and headed to her car. She had a Hot Pink convertible. My hair was blowing in the wind but to my surprise it didn't friz up in the cold it was still straight as a pin.

The club was just getting wild when I walked in the DJ had some wild remix on and the floor was packed. Girls were of course stripping and the men were throwing there money on the stage. I smiled when I saw Brie at the bar. I walked over to her and she walked with me to the locker room showing me where to put my things. She looked at me... "You looke hot !!"

I guess I would be making a lot of tips tonight for sure. I wasn't sure if it was a good thing but I needed the money and didn't dwell on it. Withing minutes of being here I am being noticed by all the "normals". Guys were flirting with me at the bar while I made drinks but I just did my job and filled there drinks and gave them something to look at.

It was 1am when I headed to the back to use the ladies room. A few of the dancers were talking and applying more makeup I was checking my phone. I missed a call from Ryan but I wasn't going to call him now. I headed back out to the the club and my boss Richard approached me ... "how is your ankle". I assured him It was better. â "I am sorry for having to ditch work so early last night." He smiled "Don't worry about it."

## Stranger To Love and Love Which to Fear

..."I rather you heal then make it worse, I need you for what i have in mind ". I nearly choked wondering what the fuck he meant by that.

As I was working on cleaning glasses Richard made his way back over to me. Before he came to me I saw him standing inside one of the pulled curtains. He grabbed my arm "I need to speak with you."

..."UGHH sure whats up?" He caught me off guard when he asked this question and I don't know why.

"Your dad's name is John right ?"

I nodded, confused with why he was asking me this. He proceeded

"Ann your mother, does she know you work here"

â !..."no she only know that I work at a dance studio.." "she doesn't know about my second job."

More questions followed, "what about your friends, do you have any?" Is he serious of course I did. He asked me for a few names.

â !."why does it matter what their names are?"

â !."It is for your emergency contact list."

I felt stupid for a second. Almost every job did that for the most part. But that's when he asked me a few more questions and I got suspicious.

..."Does your friend Lilly have a job? Do you think she be interested in working here?" I just burst out laughing. â !."Lilly would never work here!" she didn't wait on people they waited on her and he smiled.

.."i understand maybe one day!"

It seemed like he was finished questioning me but right before he went to walk away he turned around "You look might sexy tonight Leah you will be making me big money soon I can't wait !"

WHAT did he mean by that? I was just a worked like the other girl's how could I make him any more rich then he already was?

The night was going well other then that weird conversation with Richard. When it came to an end I was happy with myself. Security walked me and the girls to the parking garage and I slipped my heels off as soon as I got in the car. I checked my phone before heading home and I seen I had two missed calls. Another call from Ryan and the other from James. I played Ryan's voice mail he was asking me if me and Gracie would join him for a movie tomorrow. I decided I shoot him a text I responded with a sure and sorry I was working. I decided it be best to not hear James voice mail at least not until morning.

I was headed back to Hunter's house with the heat on full blast and I was enjoying some of (Adele's top hits on the radio.) ! I decided to drive by my house on the way home just out of curiosity since it wasn't far from the club. There was a light on the third floor and bottom floor. I figured my mom and James had company over along with Adam and his creepy friends. I had always had a really weird feeling about him and his dad since I met them. I know that they are fucked up people now but something tells me there is something far worse about them and I just have yet to figure it out. Maybe I don't want to know. I sat there for about five minutes looking at my house from the end of the street.

## Stranger To Love and Love Which to Fear

I saw I had a text message and it was Ryan asking me when I wanted to go and why I worked there in the first place. He sent another one asking me how my night was. He seemed a bit annoyed but I wasn't really sure maybe it was just me. I just responded saying I am and that I needed the money and It was fine, I would talk to him later.

After I sent the message I saw the front door open of my house and a few strange faces came walking out. I thought it best for me to get going before someone saw me. But something seemed really weird I could have sworn I heard a girl scream. Perhaps I was just hearing things I mean I did just come from a loud club. But I kept watching I saw the three men pile into a white van and then I seem James following. He was backing out of the drive way in his black car.

I had the lights off so nobody could see me. I watched as the car was coming towards me out of the corner of my eyes I saw a hand slam at the dark window I couldn't make out a face though. It seemed to me like someone was in there getting a beat down . Who was it ? I had no clue. Probably some drug addict who tried screwing James over... !

Morning light was shining through the window it was about 8am I was so tired. Gracie wasn't next to me I figured she was downstairs with everyone else. I gave myself a few minutes to wake up and decided I get a quick shower before heading down to everyone. I came down stairs smelling a hot pot of coffee and bagels . They were all sitting at the table buttering there bagels watching me throw my wet hair in a sloppy bun. I walked over to Gracie and gave her a kiss & hug and asked how every one was doing. I looked at Hunter... "Well I slept like a princess outside of Lilly's snoring."

Lilly smacked his shoulder hard and he just started chuckling pulling her in for a hug. My eyes got wide..."Hey love birds get a room!" Lilly blushed and stuck her tongue out at me. SO ha it was true I was right I KNEW IT!

## Chapter 11: chapter 11

### Chapter 11

I heard a knock on the door and it was Ryan here exactly on the dot. Hunter let him in. I had told Hunter and Lilly that I was taking Gracie out with me to the movies. Which meant they had alone time. Lilly was putting Gracie Jacket on while I finished up getting dressed. I had a pair of tight gray yoga pants, a cute pink & black flowery top along with my gray UGGs boots and my black button up (North Face jacket) and black dressy scarf. My hair was curly and of course I had my eyeliner and mascara on. I looked okay but not over dressed.

.."hey are you girls ready?" His soft voice came from the living room. I saw Gracie run over to him while she gave him a hug telling him how much she loved her Karaoke game.

"I am glad you like it Gracie. You me & Leach will have a sing off sometime." I walked over to him and he wrapped his arm around me. ..."You look beautiful Leah as always"

"Thank you Ryan you look handsome as always" He smiled at me "Thanks babe" I blushed did I hear him correctly did he just call me babe? He Had Dark blue jeans that really showed off his ass along with a black shirt that showed how muscular he really was. I never took notice to it before but he had a sexy tattoo that was on his arm.

"Lets go ladies after you" He opened the door to the limo for us Gracie dove into the car singing (Girls just want to have fun) When we were all settled in the car he asked Gracie what movie she wanted to see. She of course picked "Frozen". I didn't mind he took us to the huge fancy mall with one of the best movie theaters in town. It was about 40 minutes from Hunter's house but this was worth the drive. It wasn't cheap this wasn't just one of those normal movie theaters.

Gracie was crawling around on the seats climbing over us pretending she was a kitten. Ryan reached his arm around me rubbing the side of my arm softly.

.."How was your night and morning Leah? Did you sleep well"

.."My night was good a little weird but certainly better then my first night at the club. As for my sleep I got just the right amount but if it wasn't for you I still be zonked out!! " That made him smile "Leah you can sleep in the movies if your tired I make the perfect pillow so it seems" I laughed softly realizing I had my head resting on him. I kind of just did things without thinking my body had a mind of its own?

When we got inside he told me to wait with Gracie but I didn't want him paying for our tickets.

.."Were coming with you I have money to buy our tickets" I waved my money at him.

.."Leah baby, put your money away your not paying for anything don't ever bring your wallet there is no need"

..."But Ryan!!"

## Stranger To Love and Love Which to Fear

â "Leah I am not letting you pay for anything end of discussion so just put it away. Feel free to walk with me but I am paying for us. I have money I am the man it's my job. Besides I need to spend my money I have to much and who better to spend it on then you two beautiful girls"

.."Okay thank you but I am not letting you pay every time"I stuck my tongue out at him as he gently pulled at my lip for a quick kiss. Gracie was looking all around I had never taken her here. She was blown away how big the screen was. We sat in our seats waiting for one of the servers to take our order. It was lunchtime and this theater actually served food and drink right to you throughout the whole movie. Basically why it was so expensive it was a huge sofa couch type thing that we sat in. They rolled out our food on a fancy table. Gracie was freaking out.

Ryan was next to me while Gracie sat on the other side of me. It was really nice..."Leah are you enjoying the movie?"

.."Of course I am are you enjoying this movie Sir Ryan?" I knew he was smiling but I could only see the light from the movie shining on his face. Gracie was singing along to some of the songs. I had my head on his lap and he was playing with my hair twisting the soft curls in his fingers. He pulled me up a little as his lips pressed down on mine his hand was on my butt squeezing it a bit. He wasn't going to do anything with Gracie right next to use.

"Your so beautiful Leah and you smell delicious,if Gracie wasn't here I wouldn't be able to stop kissing you" Soft giggles escaped from me but I covered my mouth not wanting to be a distraction to Gracie or anyone who was actually really focused on the movie. When it ended we went to the bathrooms and met up at the bench. It was about 2:30pm and we had time to kill still.

.."Gracie do you want to walk to the toy store?" she smiled "Yes please" Ryan laughed. .."Leah is that okay with you if we all go to the toy store?"

.."of course it is" Ryan smirked "I figure you say that" He grabbed my hand but Gracie jumped inbtween us and grabbed hold of our hands wanting us to pick her up and swing her.

I remember when my mom and dad use to do that with me, when I was little. Max was always jumping around racing in front of us getting told to slow down. Gracie wasn't in the picture at that time but now she was, she loved everything I loved basically. I considered her my mini me.

"Where should we begin" He was pointing to all the different toys trying to figure out which area she wanted to start in. She headed straight for the dolls and music section. We followed behind her watching her mouth drop open at all the different option she had to choose from. He told her to pick out whatever she wanted. "Can I have this princess piano" Her cute little face always made me smile. "Absolutely " he grabbed it off the shelf for her and we walked around seeing all the other cool thing they had. When it came time to pay Gracie looked at me.

.."Can I please have my gift card Leah" Ryan put up his hand & told Leah to save it he gave her a hundred dollar bill to give to the lady. He picked Gracie up so she could hand the lady money. The lady smiled and asked him how old his daughter was.

"She not my daughter, this is my girlfriend's little sister" He smiled and stuck his tongue at me. I guess I was his girlfriend ? Maybe he was just saying that because he didn't feel like having to explain. Well she adorable the lady said.

## Stranger To Love and Love Which to Fear

"Thank you " I gave her a quick smile. As we walked out of the store he picked Gracie up to give her a piggy back ride. I had stopped to look at something in the window of one of the stores totally forgetting about telling Ryan to wait. All of the sudden out of no where I felt someone hand tug at mine I turned around.

It was Adams friend. He wasn't a jerk he was probably the nicest guy out of all his friends. Me and him have know each other since high school started. I guess some of them were normal but I never seen Adam bring him around my house. I doubt they would be friends if they knew how he really was. He was a real good actor. What was he doing here? I was about to ask if he was with Adam until I felt someone press up behind me. ..."Hey buttercup when do you plan on coming home " His friend Dylan was walking away I wanted to scream come back but I didn't have it in me. My immediate response was ..."Adam leave me the hell alone, I don't want to come back home" His hand was on mine squeezing my hand tight it hurt as he pulled me toward the hallway to the bathroom. I TRIED to pull away but he is much stronger then me and I was practically sliding on the floor in my flats as he pulled me.

"Well that's unfortunate Leah for you.. believe it or not I miss you sort of â I have no one to play with or fuck with. By the way your ass is huge in these pants you should wear them more around the house or less, nothing sounds even better . By the way you don't have a choice you have to be home tonight or else your really going to piss my dad off."

"Like I give a fuck he can't do shit when I am not there. He should be happy your living in my house and no one has to deal with Gracie or I "

.."Your pretty stupid Leah, He loves having to deal with you and I do to" He reaches in his pocket and I didn't know what he was doing until I heard a snap shot in his phone. "Nice ass Leah" he pushed himself against me I smacked his phone out if his hand so quick and I went to stomp on it when I felt two hand grab my arms. I went to fling who ever it was off but when I heard his voice I stopped.

.."What the fuck is going on" I glanced up behind me hearing this voice as it got closer and byt the time I turned around I seen Ryan was towering over me. I wanted to slap Adam but he had already grabbed his phone and was out of sight. Man he was fast. Ryan had his on me, his hands were on my face forcing me to look into his bright blue curious eyes that were filled with annoyance.

"Leah Who the fuck was that and are you okay" he shouted softly enough for me to hear but not loud enough for Gracie to hear. I was humiliated,disgusted pissed I just wanted to get Gracie and leave. he had Gracie sitting on bench eating icecream not even a foot away from us. I just looked at him and then looked down.

"Plz Please just take us home" He looked at me and just said "okay" I walked over to Gracie.

"Gracie honey we are leaving he said to her do you want to take your icecream" She shook her head and told hold if his hand. It was clear she really liked him. I followed behind them not saying a word. He opened the door for us and we drove home. I was quiet the whole ride home other then answering a few of Gracie's questions about dance. Her one question hit me hard.

.."Leah when is Max coming home I miss him? Also will mommy let me keep my gift I don't want James to take it from me"

I just didn't know how to respond .." Gracie you won't get anything taken away from you don't worry James can't take it that is just for you." She hugged me tightly .."Um Leah is Max coming home you know our brother ?I wish he would have been at my birthday I am 5 I am a big girl now like you"

## Stranger To Love and Love Which to Fear

I just tickled her so she would stop asking those questions I didn't know how to respond and she was too young to understand the real situation. I wasn't even sure of the situation I just knew being home was hell. I wanted my Dad and Max home but it just seemed like I would never see them again. I saw her crawl over and she was sitting on Ryan's lap he was looking at me just staring at me. Gracie fell asleep on his arms we were almost back at Hunter's house.

.."Leah I don't understand what happened back there what are you hiding from me who was he" I really didn't want to talk about it I didn't want him to know about anything he wasn't going to be able to do shit even if he was FBI and owned his own personal business.

.."It was nothing just some guy that's all" He was annoyed I could tell but what was I suppose to do. When we got back to hunters Gracie woke up and ran inside to show Lilly what she got from Ryan. Ryan quickly came up beside me and turned me by putting his hands on my hips.. I wanted him to hold me I wanted him to know but I felt like he just say goodbye to me right then and there. My LIFE was a joke I felt like the joke!! I couldn't look him in the eye's ..."Leah just tell me what happened please I am not mad at you but it's pissing me off that your keeping shit from me just tell me" I just got up "i ii I have to go thanks for today" I gave him a quick kiss on the cheek and ran up towards the door. I shut it behind me and took a breather. I was here I was okay, at least at the moment I peeked outside the limo was still out front.

I was about to take off my shoes when I heard a knock at the door. I opened it. He grabbed my waist pulling me outside pulling the door closed behind us. He pressed me against the cold metal door.

"Ryan I really don't want to talk about..." He cut me off from saying anymore his lips were deep against mine as he forced his tongue inside my mouth I was breathing heavy and I felt like I needed to moan. God how could he do this to me? Just a second ago I was about to breakdown now I am being kissed by RYAN.

"Leah come home with me we won't talk about what happened right now. I just want a little time with you I won't keep you out too long. Just have dinner with me and I'll bring you back"

I looked into at him he was giving me the puppy face it worked, I hated when people did that to me I always fell for it.

.."Fine I but give me a second. I need to find out what everyone else is doing"

I walked into the house and saw Lilly in the kitchen pulling things out of the fridge. Gracie ran over to me

..."Leah me and Lilly are baking cookies for dance you can go out with your boyfriend " I looked up at Lilly .."Go on butthead me and Gracie have some baking to do and you need some time alone with prince charming" She waved to him at the door and I saw him wave back.

"Leah I packed a bag of clothes for you just in case you decided to crash there. I also put something cute in there for your job tonight, I figured if you stayed the NIGHT with him he take you and pick you up from work." She said it loud enough for him to hear

He heard it for DAMN sure " That's no problem for me Lilly I don't mind taking or picking her up from anywhere" she smiled "see now get your ass out of here we have some baking to do and your distracting us" I stood there staring at Gracie..

"Leah I am okay Lilly and me are having a tea party with Hunter & Mark and Lilly wants to sleep in the princess bed tonight with me. That means you have to sleep with Hunter .Me and Lilly think it be weird plus he farts also so we want you to have a slumber party at Ryan's" SHE WAS SO INNOCENT we were all laughing.

## Stranger To Love and Love Which to Fear

Hunter came into the room ..."Yeah go have a slumber party he smirked at me while giving me a hug I don't want to share my tea and cookies with anyone else. We don't have school or work so that means a free day for you we have Princess Gracie under control now get going"

.."OKAY OKAY I will go I said" Ryan was smiling when I looked back and I seen Hunter was now over there talking to him. I gave Lilly and Gracie a kiss and hug & I told them to call me before bed. I walked over to Ryan and he took my bag from me kissed my cheek and we walked to the limo. I climbed in as he placed the things in car and we took off down the street.

I had butterflies swarming around in my stomach I couldn't believe I was going to be spending the night. I was about to say something when my phone went off I answered it quickly.

.."Hello who is this"

"Hello Leah it's Richard . I know you were scheduled to work tonight how ever we are having some issues at the club so consider this a night off for you. Don't do anything to crazy ill need you looking your best this Friday as your already blow me away with your looks"

"Oh Okay thanks and umm thanks ill see you next Friday then.."

..."Leah I am so happy your working for me your going to make me a rich man I see it now be a good girl and ill see you Friday Goodnight"

"okay..Bye" He really was a weirdo I don't know what he was thinking I was just a bartender even though I was not "ugly" it didn't mean every guy would be attracted and I certainly wasn't going to make him rich just by giving people drinks. I swear he was on something.

I looked up at Ryan as I slide my phone into my bra. Ryan looked like he was going to ask who it was. But he was distracted by me putting my hand down my shirt and his eye became playful he inched closer to me. I manged to squeak out I don't work tonight. That's all he needed to hear he had me under him as he kissed my neck sucking softly. The limo driver coughed. I guess to remind Ryan that the privacy glass wasn't up. I heard the driver laugh.I laughed myself as Ryan pulled me up and placed his hand in mine holding it tightly the rest of the drive to his house or as I like to call it his "CASTLE my dream home".

## Chapter 12

### CHAPTER 12

(Ryan's Point OF veiw)

She is so beautiful sitting here beside me in my limo. I feel like tonight is the night, she sleeping over and I don't know if she going to sleep with me but by the way she acts I am sure it won't be hard to get her to. That's not all I want from her I really do like her and I want her to myself .How ever I can't stand that she is keeping things from me. I just don't understand her. I had my hand tightly holding her waiting for "JONES my limo drive to deliver us to my mansion house"

MY MIND WAS RACING...i was just sitting there thinking of now and then my past....

Maybe I am just a side guy, maybe she has someone else ?

I mean she is young and beautiful.. sexy as fuck . But if she playing me then two can play at this game. I don't date for a reason most chicks just want me for my looks and money. That's bullshit and I won't invest my time into a hoe again .I don't mind buying people things I am loaded but it pisses me off to be used. I have a high sex drive but I am okay without having it. Besides I don't need any diseases or "kids" fuck that the next girl who claims to have my baby can get lost. I keep myself clean,can't say the same for the rest of the world

.If she turns out to be like my ex then I will be sure to leave her right then and there I don't care if I break her heart. I don't want to break her heart I want to have her but I won't share & it's not something I am open to discuss. She is beautiful but that isn't even the proper term to describe her, I really want to believe that she is different. However she is a young girl working in a club, I bet she has had some experience but it would be like nothing if you compared it to me.

I am good I know it for a fact. Leah has been distracting me since the first day I laid my eyes on her. I have a high self esteem. I guess most people think I am an ass but I don't care. I am not ugly I am far from it and I am a rich young man that any girl would "die to be with", at least that's what I have been told. I graduated high school really early I was only 15. Like I said I was smart as fuck..i knew my shit and school was a piece of cake for me.

I come from a very wealthy intelligent family so it nothing to be shocked over. I love my family to death even to this day after everything that happened. We use to be so close I spent so much time with my parents and my older brother & sister. But things changed for me quick. When I started dating my ex Cara she took up so much of my time she was a selfish hoe.

I started dating Cara when I was 16 she was a year older then me and we dated up until I was 18. Thing's were good at first but that's because she was fake and made me believe all of her fucked up lies. "She was raped and abused by her ex yadad it was all a lie". She threw herself at men and she knew how to use her body as a weapon. She talked shit on me to my family when she got the chance, and just betrayed me and my trust. I never put my hand's on her but she told them I did when she was pregnant with our "baby".I really thought I was going to be a dad at age 18 but that was just another one of her lies. She wanted me to herself and she wanted my money. At that time I was away a lot for training to get to where I am now (FBI-DETECTIVE

## Stranger To Love and Love Which to Fear

ALL OF IT) My own business for the the army etc... She hated me going away more then anything except when I was giving her money or holding her in bed pleasing her.

I didn't know she told my family lies about me. They just cut me off no one answered my calls my dad blew me off. I wasn't included in the family functions with everyone else. I may sound like some "Pussy but I am far from it". I really was just close with my family and to just be kicked to the curb really fucked me up and turned me cold. Me and her had gotten a place together when I was 17 I payed for everything. I fucked my leg up while I was training. That's when Cara decided she go fuck some other man. For a month I couldn't do the things she wanted. I REFUSED to give her money for her drugs anymore because I actually cared about her. Especially when she told me she was pregnant with our "baby". She never let me know when the dates were for the checkups. She wasn't pregnant !It was a lie she just said that to keep me!

That was the lie that got my family to stop talking to me. Apparently I made her lose the baby because I beat the shit out of her. But really I had broke up with her and kicked her out.Turns out she was never pregnant. "She told them I cheated on her and kicked her out. Oh don't forget I beat the shit out of her that I told her I didn't want the baby I told her to abort our child"

YEAH FUCKING RIGHT what a cunt...

I only kicked her out when I found out she was fucking some other guy. Only to find out a 3 week later that the whole pregnancy was a lie. I was done supporting her and the drugs. She got the shit beat out of her by him (the drug dealer -side man who she fucked) . I still cared about her I loved her and I beat the shit out of him. No man should ever lay his hand on a woman especially a (pregnant one) . I was still there for her I told her I give her money to get a place and help her get off the drugs. I was still going to be around for our child's sake and maybe try to work on things when she was well. But she wanted me right then and she didn't want to stop the drugs. I wouldn't let her back in to fuck with my emotions or heart anymore then she already had.

She told my family lies about me and they believed her. It shocked me and pissed me off that they would turn their back on me just because of her. They never took the time to ask me what was going on they just took her word. When they found out she was a liar they tried to apologize. I didn't want to hear it at the time. I was still messed up from her fucking some other dude. Not to mention finding found out about our "baby" never existing I fell apart. I never want a kid now, because of CARA!!

She got into drugs and I tried to get her off of them but she wanted what she wanted. I wouldn't get back with her. Even though I gave her tons of money and she blew it on heroin and pills and she wasn't going for help. Finally I had the Balls to check the records of the place she claimed to be going for her appointments that I was never invited to for our "BABY " !!Only to find out this place didn't exist. SHE WASN'T PREGANT SHE WAS A LYING ASS HOE" So I broke the relationship off completely. SO YEAH ...My world was a living hell for two years. I didn't want anyone around I worked non stop! I still didn't have time to cry over my "baby" that never even truly existed. But I guess in a way it helped me it got me here to where I am,

Now I speak with my family we settled things but it will never be the same. At least not for me, I don't see how life ever could be.

I felt her head rest on my shoulder and she was tilting her head up at me I left a soft kiss on her lips. She had me hard and we were finally here perfect timing. I grabbed her bags and we walked to the glass elevator. Finally we were on the 3rd floor of my house . She followed me to my bedroom as I placed her things on my lounge chair in my room. Her eyes caught mine and she was staring at me biting her sexy lip leaning against the wall.

## Stranger To Love and Love Which to Fear

I walked over to her slowly, I picked her up by her waist and bit into her lip hard she moaned and wrapped her legs tight around my waist.

"Ryan she cried out I i"

"SHHH Leah baby breath" she closed her eyes her breathing was heavier as I kissed her neck holding her tight in my arms.

"Ryan please can I please have a glass of water" I started cracking up laughing what a tease.

"sure baby do you want ice" She smiled and started to catch her breath as I placed her back on her feet. She wanted me I could tell. But she was acting so scared and nervous. Why ? I really didn't know why.. I know I am hot but she didn't have anything to be worried about she was even better looking. No girl was as beautiful as her not even Cara. It didn't even cross my mind that she could possibly be a virgin. NO fucking way.

I walked into the kitchen and she followed me. I got her a glass.

"Get comfy don't feel weird to ask for something..okay?"

She just nodded "Okay thanks Ryan"

She was blushing. I loved when she blushed because of me. Leah had the cutest dimples and sexiest smile her teeth were so white and her eyes were so blue she was perfect?

I lead her to the living room and we sat talking I knew we wouldn't be sitting here very long once she finished her drink. She was totally milking it sucking her water out of her straw. She was all seductive about it. At least that's how it made me feel. I wanted to kiss her or at least play a game of cards , anything was better then sitting here wanting her watching her and restraining myself...

I just wanted her to finish..i wanted her. I wanted to kiss her again.

## Chapter 13

### Leah Point of View... Chapter 13

"Leah I am going to take a shower make yourself at home, you can watch or rent whatever movie you like. If you want a shower when I am done you can"

"okay and yes please" I kissed him on the cheek. I would have loved to climb in the shower with him to see his body all soapy. Water running down his body . Thinking about it turns me on. But here I am sitting on the sofa alone while he in there. He has already seen some of me but I am not ready to give my innocence up. I am not so sure I could stop him from having me and I look like an idiot if I went in and did nothing. I flicked through some channels not finding anything of my interest.

Ryan came walking out with a towel wrapped around his tan colored body. Man he was fucking hot, My mouth just dropped open he walked over and closed my mouth as he kissed me softly on my neck I tilted my head back. Of course thats when he pulled away.

"Be right back babe" I smiled and grabbed his neck kissing him deeply giving him a taste of his own medicine.

"Well I won't be here when you return, ill be in the shower" I smiled "Umm where is the shower exactly" he led me down the hallway we were standing in front of his bedroom.

"Leah there's many shower the question is which room do you want to shower in? My room, Guest bathroom, or any other bathroom we have?" He was leaning his back into the wall with his arms across his chest. He had a playful grin on his face.

"Ill take a shower in your bathroom if that's okay? Since my stuff is already in your room" I pulled my Long dark brown hair into a sloppy bun while I grabbed my clothes. Of course Lilly packed me a cute blue bra & panties . As for my top it was a hot pink t -shirt and black sweatpants. I Grabbed my pink dance sweatshirt out of my bag as well. My razor and deodorant wall all in my makeup bag. Lilly never missed anything. I got cleaned up quick shaving my legs and stuff is always my hold up. I was almost clean just rinsing the soap out of my hair. Shit I forgot to ask him where the towels were I peaked around the huge bathroom but I see nothing. Other then a huge mirror reflecting back my image. My hair was all wet and curly I loved my hair. "Ryan RYAN " I screamed but I guess I wasn't loud enough he couldn't hear me. I saw a closet but I didn't think it was for towels. It was worth a try though I was trying to be careful not to slide on the tile but of course with my lock I busted my ass. I let out a scream and clearly that was loud. Of course it was . He threw the door open looking for me then he looked down and saw me on the ground.

"AHHH I am not dressed" I covered myself wrapping my arms around my knees. I know he had seen my boobs but that was all I still had most of my clothes on. But here I was naked on his bathroom floor.

"Its okay Leah I won't look" He was totally looking at me when he said it with a smile on his face. "what were you trying to do anyway" I looked up at him shyly.. "i needed a towel I kind of forgot to ask and I called you but I guess you didn't hear me" He stood there for a second then opened the huge closet door and pulled out a huge heated towel. He held out the towel to me covering his eyes to make me think he wasn't looking. I pulled it and it fell to my legs. I quickly pulled it around me and he gave his hand to help me up.

## Stranger To Love and Love Which to Fear

"Thanks I whispered" he was so sweet "No problem babe ill be in the bedroom if you need me or decide to fall again " I just stuck my tongue out at him. He picked me up before I could stop him he had me on the counter top. Slowly he licked my cheek and kissed down my neck I wanted it to never end.

"Your teasing me RYAN. It's really hard to keep control of how I feel right now" ilooked down at my hands and he pulled my chin up and planted a soft kiss on my lips

"Ill stop then cupcake, how ever I do enjoy seeing you like this" he brushed his hand down my cheeks I had butterflies and a shit load of them. He slowly got up and walked away leaving me on the counter soaking wet with a towel around me. In front of me was the huge mirror showing me how (SEXY) I actually was. I don't think much of myself but I know I am not an ugly girl well I am at least decent in my own eyes.

I quickly got done and got dressed when I walked into the bedroom I saw he was on his labtop. I climbed on his bad and wrapped my legs around him. My hands were massing his shoulders.

â !."Leah that feels wonderful where you learn how to do that"

.."I didn't learn from anywhere It's just natural skill Ryan" he was smiling.

.."Oh really cupcake ? Well I love to see what else your good at what other skills do you have outside of music,"

"DANCING DUHH" I couldn't help but laugh that was my true talent I always loved dacining.

"I would love to see you dance Leah, when can we arrange for this to happen"

"I am not scared to dance, anywhere anytime as long as I am in the mood & there is music" He looked amused "Oh really well I have music" he leaned over and grabbed the remote. SHIT SHIT SHIT SHIT FUCK why did I just say that. Now he was going to have me dance I had no way out of it without looking like a girl that was all talk.

"Dance for me Leah, I dont care what you do just show me some moves" He hit on some funny song and I was dying of laughter.

"Really this song?" He smiled ..."sure why not? Is their a problem with this song? "

"No but I prefer a different one a slower one"

I decided to put on the song "Human" it was a beautiful song, I wasn't going to allow him to see me shake my butt and go all hip-hop on him not yet. I figured why not show him the dance recital song.I stretched first, then I hit play and started dancing. I didn't show him the whole thing but from what he saw I knew I did a dam good job. When I finished I took my sweater off and tossed it on the bed. He was sitting at the bottom holding his hand open for me I gladly crawled into them pushing him back on the bed deepening the kiss.

"Diner time he said as he bit my lip"... we ate diner in his dinning room we had chicken covered in tomato sauce and cheese with broccoli melted into the cheese. It was delicious. Who ever cooked in this house did an awesome job. We finished up and headed back to his room I used the bathroom and brushed my teeth before climbing into his bed. He did the same then returned to me and climbed in bed leaning over top of me.

## Stranger To Love and Love Which to Fear

"Leah, are you going to tell me what happened today at the mall? Who was that guy? Was he your boyfriend.." I looked at him shit he looked kind of upset maybe slightly I grabbed his face between my hands.

"Ryan I don't have a boyfriend and he no one important just someone who I wish wasn't in my life"

.."Well then why not give him the boot ? Why was he so close"

"It complicated you wouldn't understand.."

â !."try me I would understand"

"I rather not take my chances I don't want you to get all worried or go crazy mad like you seemed at the club" He smiled and then his face seemed to be a little annoyed at what I just said.

"I just don't want any more drama I already have enough" I laid on my side looking away from him.

"Leah that guy was wrong he shouldn't have put his hands on you without permission and your boss let him so yes that pissed me the fuck off. I didn't know you but he was wrong. Also I am not sorry for the way I acted. He just lucky I didn't get up, hell even me saying something would have made him run cry. Not to mention he was keeping you from me. As for the drama everyone has drama and ill find out eventually even if you don't want to tell me. So save me the time and just tell me.

"Its just my mothers boyfriend son he is a pervert and an ass.He doesn't leave me alone. He took a picture of me. He gets to close and he thinks I am just some person he can fuck with. My mom doesn't get involved. His dad doesn't either. I can't do anything about it NO ONE CAN. SO can we please go to sleep I am tired" I slid out from under her and laid on my side.

â !."Leah that's not alright have you tried talking to your mother about this? but yes we can go to sleep. Your more then welcome to come stay here if you ever want to just catch a breather and Gracie of course seem like your very close your sisters a doll. I enjoy both of your company"

"It not that easy Ryan you just don't understand but thank you. Gracie really likes you. I guess I better be careful my little Gracie might have a secret crush on you..i might have some competition" I laugh at myself at the thought of that. Any woman is competition when it comes to keeping his attention he won't want me long this is just a thing.. for now. Laying there just made me happy I didn't want to worry about it.

I hate sleeping in pants so I slid my sweatpants off but I still had my t- shirt on. Once I felt his arms tighten around me he pressed his legs in between mine keeping me close. His hand were wrapped around my tummy as he tickled my side. I felt his hands slide up and down my side under my shirt as he whispered how beautiful I was. But we didn't go any further then that. I woke up and it was morning. Today I would be going home to face whatever punishment James had planned, I didn't want to go but I couldn't stay away forever.

â !. It was a perfect night we didn't do anything I was a good girl. Morning came and so did after noon. He had work so he was taking me home but of course we stopped and had breakfast and he payed of course. When we got back to Hunter at noon he carried my bags in then he said goodbye to everyone. Gracie told him not to leave he ended up staying for about an hour just to keep her happy. It was so cute to see the way he was with her. I could tell he be a great father, who would it be with was the question? Certainly not me.

He left eventually but he left me with kissed he told me he call me after work. We made-out before he left and then he was gone. It was time to face reality. My mom called me as I was walking into Hunter's house.

## Stranger To Love and Love Which to Fear

"Hi Mom"

..."Honey please come home I miss you and we need to talk. James is sorry for what he did but you were wrong. You have been very cold and he doesn't appreciate it. But he want's to apologize for us keeping your car from you we won't do that anymore you can have your car back. I love you & Gracie please come home so we can settle things" I was shocked I bet he didn't tell her how he put his hands on me. He never would. She didn't mind a little punishment or a smacking and if I was wrong I would fully accept it but I never did shit.

"Okay mom and thanks for letting me have MY car back since I bought it on my own... ! He isn't my fucking dad but sure ill come back home. It was Gracie's birthday the other day just in case you forgot. Ill see you later and yes ill be home. I love you too be for now." I couldn't believe her.. she was so head over heels for him. They were off and on for the past three years but he always came back. She didn't even love him she just needed him because dad wasn't around. She couldn't handle being alone. She would ditch him in a second if dad was here but he wasn't. SO instead she put up with this scum bag and his bullshit. She loved his charm.. he wasn't ugly he was 39 she was 40. It made her feel better that he had interest in her. But he slept around the moment they broke up. It was always over him being om business trips and him not spending time with her enough being late for her "diner dates"

I always wondered what his job was.. he said it was none of concern. He hated being questioned so I never asked again. He was easily pissed off I really hated him I rather be with some ugly dude then have a man like him his looks did him no justice his personality sucked. I WISH she would smarten up and let it be over for good.

â !..... "Mom I am home" Gracie was holding on to me so tightly she didn't want to come home I could see the fear in here eyes. I felt like a villein bringing her back here but this was our home. The house was dark it was about 8pm we walked up the stairs and I put our stuff in my room. Gracie refused to leave my bedroom she wanted to play with her toys so I let her be.

"can you bring mommy in here plzz" she still had her baby voice I loved it.

"Sure ill be right back monkey"i took a deep breath before I walked into the dark hallway. We had our kitchen and living room on the second floor. I saw them sitting on the sofa watching a movie. I coughed a little to loudly and they both turned around. My mom was running to me to give me a hug she pulled me in and kissed.

"I am so happy your home come sit and we will talk" I saw James face he just had a weird look on his face...

"Mom Gracie want's to see you but she in my room playing with toys" She shook her head letting me know she see her but first we needed to talk.

.."Leah I am giving you your keys back I was wrong to take them from you and I don't want you walking places I wouldn't want anything bad to happen to you" He spit his words at me!! I knew he didn't care about me but I was just happy to know that I be getting my car back. It didn't matter about his bullshit lies. He was just saying this to make my mom happy.I knew she had her fights with him because she did love me and Gracie very much but she was still swept up in his charm and lies.

"thank you for giving my car back and I am sorry for not being so social with you guys ill work on it"

"Good" is all he said.. "Leah don't run off like that again you hear me" I nodded.

## Stranger To Love and Love Which to Fear

"Can I go back to my room now I am tired I have school tomorrow"

"Yeah thats fine" My mom followed me to the bedroom she was only in my room for about ten minutes before retreating back to James. She really didn't give Gracie much attention. Gracie knew it but at least she had me. Before my mom left my room she told me she was going to take Gracie out after work. Gracie was happy with that. My mom was a doctor in the hospital she was a hard worker and took good care of patients.

It was around 9:30pm when my phone went off.."Hey Ryan"  
â !.."Hey are you okay Leah I called you but you didn't answer,"

"i am sorry I was talking to my mom and James, they gave me my car back I said..& I didn't know that you called I am sorry. How was work"

..."It was good and oh okay well I am glad your okay and I happy that you got your back how ever I didn't know you got it taken away from you"  
"YEAH well I shouldn't have had it taken from me I payed for it all on my own and the reason was stupid but I got it back so that's all that matters. I know this may seem weird but I actually kind of miss you I think.."

..."I miss you also he said strange but true, I don't enjoy sleeping with people usually but now I don't want to sleep alone. I liked having you in my bed sleeping with me" I felt face lighting up he made me feel special when he spoke like that.

â !.."When will I see you again"

"Tomorrow night.. after I get out off of work, I have school then dance I am not done until 8pm"

..."That works for me baby oh by the way tell Gracie I got her that other cd and that she will be battling me in a sing off" I started laughing.. these two goofballs. How ever he had an amazing voice I must admit.

"Well babygirl I guess you need some sleep ill see you tomorrow evening sweet dreams to you girl's"  
"Night handsome" I got off the phone and gave Gracie a bath then I took a quick shower and climbed into bed. Gracie never slept in her room she slept in my kind size bed with me.I didn't mind.

1 MONTHS LATER...(January)

I am 18 now we celebrated my Birthday at Lilly house with all my friends from school and of course Ryan. I STILL haven't heard from my brother Max I wish he would call. Ryan asked me to be his girlfriend on my birthday and It's been great since. I really havent been home much because of work.. my bestfriends & Gracie. I don't like to be home anyway not with James and Adam they make me feel really weird.â !... Things have been going well sort of there hasn't been any huge blow up at least not yet. James has been off and on with my mom but she always kissed his ass at the end of the day. I have had a few arguments with James but my mom breaks it up by kissing him and telling me to calm down. Everything my fault. But I am use to it by now. As long as he keeps his hands off of Gracie and me I am fine. My boss still makes weird comments now that I am 18 he says he wants to give me a better job. Ill fit the part "perfect" I don't know what he means.

Gracie has been going to Marks house during the day as planned until I get done at the dance studio. Weekend nights I work at the club so basically for the most part I am a busy girl. I am only able to see Ryan a few times out of the week. We take Gracie out to diner a lot with us or to the aquarium-mall. My friends come out with us too, it is nice everyone gets along great. Things are getting more serious between me and Ryan I still haven't gone all the way but I think I might lose it to him this soon.

## Stranger To Love and Love Which to Fear

3 MONTHS later.....( April 1st)

I just finished up at the club I am so fucking tired but I am sleeping over Ryan's tonight its been about a month since I last slept their. But I have only spent 5 nights at Ryan's since I met him I haven't went all the way yet but I think its time. I have been thinking about it a lot lately. He still doesn't know I am virgin but I will leave that a secret. I am scared that he won't want me if he knows I am .I know that some guys hate it if a girl is. I JUST hope that I don't bitch out I hope I can make him happy. Lilly has given me some tips.

Her and Hunter have been official since my birthday,, Mark still is playing the field. My boss has been watching me closely he been really flirty these past few months I really hate it. How ever I can't tell Ryan he flip out on Richard. I end up losing my job..! I let my mom meet Ryan but I haven't let Ryan meet James or anything. I don't really want anyone knowing it will only cause drama. My mom thinks he is sweet she asked me to bring him to the house but I shoot her down every time I don't want him around THOSE DICKHEADS. Those two have been fighting a lot anyway I don't know what about.

Gracie is sleeping over Lilly's tonight. Lilly,Hunter and Mark are taking her to the fair tomorrow. Gracie been begging to spend the night with Lilly and Hunter as usual. Me and Ryan will most likely end up seeing them tomorrow at the fair. I told Lilly we pop visit!

â !.....I am waiting for Ryan the security walked me and the girls to the car. I smile when I see him. He grabs me and scoops me up into his arms holding me against his car. Yes his nice ass car not his (LIMO)! I have my tongue in his mouth and his hands are sliding up under my short black dress. He squeezing my butt and I can tell he is really turned on. I want him man I want him â ; I can't wait until we get home.

Tonight is the night I can tell...

## Chapter 14: chapter 14

### CHAPTER 14

â !.. "Baby wake up were home" I rubbed my eyes not realizing I had fallen asleep. He was opening my door and then he grabbed me and my bag he was holding me like a baby in his arms. He was so strong. I only weighed like 120 pounds. He made me feel like a feather in his arms. We were on the third floor withing seconds. He plopped me down on the sofa and then brought me a drink. It had alcohol in it but it was fruity it tasted delicious.

"Babe my feet hurt" His hands were at my feet undoing my high heels.

..."Baby girl your so beautiful but why do you wear such high heelsâ ?"

"Ryan I have to it's part of the uniform-dress code Richard gave me"

..."That bastard can go suck it your going to end up hurting yourself in these. If he has an issue with you not wearing them he can handle it with me" .He tossed them across the room and took my glass putting it on the table beside him. He leaned over me. I was laying flat on my back looking up into his eyes.

"Can I have my glass back please babe" He smiled ..."someone is in a drinking mood. " He got up and poured me another glass while returning with the bottle of vodka and the fruity mix. I wanted to be buzzed a little bit before I gave myself up to him. I had seen how big he was before. Not on purpose though. Ryan didn't know that I did but I knew he was huge. He hasn't even touched me down there yet. He only touched my butt & boobs.

I was drinking at work with the girl's before I left we had done an awesome job so Richard let us all celebrate by taking shots and drinking how ever much we wanted. I know I am not 21 but nobody cares around here. 18 is good enough! I had about three shots at work and a mixed drink that Brie made. I don't know what it was but I loved it. I was feeling a little out of it now especially when Ryan gave me my second glass.

"Ryan can we go to your room and lay in bed" I stood up but felt dizzy and I grabbed onto his shoulders when I felt his hands tight around my waist.

..."Leah baby I think you are wasted"

" No I am not come to bed with me please" I gave him the puppy face.

â !..."Baby you know you kill me when you make that face"

"Yup now come on" he picked me up and his hands were squeezing my ass. I rested my head on his shoulders. He placed me gently on the bed. My dress was black,short and so revealing. I still had the black flower in my curly brown hair. I felt beautiful. I was leaning on my elbows watching him walk over to his closet he was getting undressed. He disappeared into his bathroom for a few minutes.

"Babe what are you doing" I was so curious and impatient. He peeked his head out of the bathroom to look at me. He was wearing his boxers and a DARK blue muscle shirt. God I wanted him. I never played with myself but I wanted to right now. I wanted TO try but I didn't know what to do. I wanted HIM to be the first to touch

## Stranger To Love and Love Which to Fear

me even before I touched myself. I was nervous for my first time but I wanted it to be with him and I want it to be tonight.

He climbed into bed beside me. "Is that what your wearing to bed baby? Do you want one of my t shirt's "

I laughed a little to myself. He really had no clue what was about to happen or at least what I wanted.

"Sure could you get me one? But first can you unzip-per the back of my dress please?"

.." Of course I can cupcake" he kissed my shoulder softly as he uni zippered my dress. But he got right up after and came back with a t shirt. I was a little upset. Usually I would walk into the other room and change but I wasn't going to tonight. A little lamp was shinning. I felt nervous. I was sitting on the bed looking at him wondering why he was being distant.

He was putting something in his dresser but when he looked up in the mirror he saw me standing there by the bed as I slowly let my dress fall to the floor. I had a Lacey ocean dark blue bra and thong on. His mouth dropped. I hugged my arms around myself. I didn't know what to think. Maybe he didn't like the way I looked ? Am I stupid for doing this I was about to run to the bathroom but I seen him walking towards me.

..."Leah baby your beautiful" I felt his hands grasp my sides. I had the perfect curves and I knew he loved it he told me that before when I had worn a dress at my party.

"Kiss me please Babe" His lips were on mine before I could even take a breath. I felt myself falling back on the bed. Ryan was on top of me kissing my neck and his hands were sliding down my arms to my breasts. I bit his neck when he leaned in close enough.

"I want you..i want you to make love to me" I really just said that out loud? I felt how hard he was I could feel it through his boxers. I knew I wanted him.

"Leah I want you to but your a little wasted baby girl" he cupped my face between his hands.

"I know but I want you. and I know I wanted you before I even started drinking. I wanted you this whole day. so please make love to me. I know you want to or at least I thought you wanted me before." I couldn't help but feel disappointed and stupid. I was getting up reaching for the shirt ready to hide away in his bathroom.

"Leah, baby please don't think that I don't want you I do. I just don't want to take advantage of you."

I felt like I was about to cry at any moment. I looked away from him stumbling to my feet. The bathroom seemed so far away my legs were soar from standing all night. I wiped my eyes I didn't care. I threw his shirt on me when I got into the bathroom. I shut the door. I curled up in the soft huge chair that he had in there. His bathroom was fucking huge. There was a huge hot tub. A shower that could fit like 10 people in. Glass mirrors a beautiful sink and toilet, yes EVEN the toilet was fucking NICE. I just laughed to myself here I was wanting him and he doesn't want me because I am just a bit wasted.

..."Fuck it " I hear Ryan say from the other room. Ryan grabbed me off the chair throwing me over his shoulder. He dropped me down on His king sized bed. His tongue was in mine his Fruity breath mixed with my fruity alcohol breath mixed perfect. His hands were caressing my breasts as I felt him undue my bra strap my legs tightened up around him. I wanted him but I was nervous and still trying to wipe the tears away. I felt like he didn't even want me. Eventually he wouldn't. He still had no clue I was a virgin. What if he went to

## Stranger To Love and Love Which to Fear

rough?

"Leah he said in between his breaths. I felt his lips around my nipples and his one hand pinching my other one. It felt so good but it was painful at the same time.

"Bite harder please Ryan" I was distracted by his touch.

.."You like when I bite you don't you cupcake" Before I could answer his teeth were digging into me I managed to scream his name into the pillow.

..."i love when you say my name Leah" he let up on his grip on my boob and I knew that I was going to have a bruise surely there was teeth marks! His hands slid down I only had my thong on it was the only piece of clothing I had left. His lips were on mine as I felt his fingertips tickling the side of my hips.

"Oh please babe please "

.."please what cupcake?" He knew what he was doing he was teasing me. "I need YOU" I shouted at him. He was laughing, it wasn't funny.

His lips were kissing up and down my neck as I tilted my head giving him easier access. I felt his lips sucking on my nipple again he kept changing it up. I felt my thong getting soaking wet. He made it feel so good. I can't imagine how it will feel once he is inside of me.

"PLEASE make love to me" He kept teasing me. I felt his lips trail down my body then he was kissing between my thighs. Then his lips were right there right against my pussy"

..."God damn baby your so wet.. your kitten is ready?"

"My kitten? I giggled "Babe your monster is ready he is hard"

"MONSTER" he was laughing uncontrollably.. as well. We were able to make each other burst out laughing in the most strangest times I loved it I loved these things about him.

"open your legs for me Leah" I instantly got nervous. He was about to do it. I guess I was in my own world for a second I felt him rubbing between my legs. He was pulling my thong down slowly with his finger tips. I felt his warm fingers against me, I never had a guys hands our mouth against me down there. He slid my thong down to my ankles and slowly started to massage my feet. I felt his lips and his teeth biting my heel of my foot.

..."Leah baby your so tense relax" He kissed right between my legs and I felt his lips against my pussy.

"ughh fuck, fuck fuck fuck," His tongue dipped inside of me and I was pulling at his short brown hair as I wrapped my legs around his neck moaning out.

"it feels so good please please please don't stop" I was crying to him. His hand were rubbing against me I was panting and my body was shaking. His hands were digging into my ass and I was going crazy. This felt beyond amazing. His hands were massaging my pussy or as he call it my "kitty". I was moaning his name so loud. Then I felt his finger slide in me and my legs tightened around his hand.

## Stranger To Love and Love Which to Fear

â !...."Leah baby your so tight.." he was trying to push two of his finger's in me.

"OWWWWWWWWWWW Owww." I could feel myself ripping apart down there it stung. He pulled out his fingers and then began pushing just one finger in me. I felt myself pulling away in pain but it still felt good but the pain was unbearable. He grabbed my inner thigh pushing my legs up towards me. I knocked the lamp off the side table by accident the room was pitch dark. I was so wet but I felt so soar inside from his fingers. His mouth was on me then his fingers he kept mixing it up it was driving me crazy. I was ready I wanted him but at the same time I was freaking out on the inside.

"Ryan.. wait. WAIT. I need to tell you something I was moaning. I barely got the words out of my mouth but when I did I screamed I am a virgin "

I was so scared to tell him but I needed to. I was afraid. I couldn't see his face but the whole mood changed. My body was shaking I was out of breath my hands were sweaty and I could feel my tears building up I hugged the pillow over my face. He instantly pulled away from me,.

I felt him get off the bed I didn't know what he was doing or where he was going but he seemed pissed. I was laying there for two minutes before I climbed out of bed searching for the shirt he had given me. I found it and threw it on I walked towards the door which lead to an office in his very enormous room.

"Ryan please talk to me I am sorry I didn't tell you" He didn't turn around he was facing towards the window.

" I am sorry I didn't tell you I was scared, I didn't want to tell you but I was afraid.. please say something I am sorry" He didn't say anything.. I didn't expect him to be this pissed but fuck it I could see he didn't want me here. I still felt so out of it from all the drinks I had.

I walked away struggling to keep my balance. I grabbed my bag of things. I took my dress and got changed back into my dress it didn't take me long at all I ran to the elevator and was out of his (Castle in a matter of 10 minutes) I didn't even put my heels on I threw them in my bag. When I was outside of his gates I grabbed my phone it was about 1am. I didn't want to bother anyone. I was going to walk home it was a good 40 minute drive so the walk was going to be long as fuck. I didn't care I was so upset, to wasted. Everything was a joke in my life. I just wanted to hide myself in a ditch or camp out in a cave forever.

Thing's were always bad it couldn't possibly get any worse could it??

## Chapter 15

CHAPTER 15.....  
RYAN'S POV!

â€¦!God damn it what was I thinking ? She is totally wasted and here I am, I was so wound up about to make love to her. Actually no more like fuck her. She has me way to wound up. Then she tells me she is a virgin. I am shocked how did I not know that? She is flirty but she always managed to control herself. Tonight she was practically was throwing herself at me. She told me she wanted me before she even started drinking. But its most likely just the alcohol causing her to talk like that. She not thinking clearly. I am not mad that she a virgin. I never took a girl's virginity. More then half the women I know have slept around. Never thought I have the chance to and it didn't ever matter since I haven't had a serious relationship with anyone since me and Cara broke up. Now here I am falling for Leah. What is this girl doing to me?

I shouldn't have walked out of the room like that but I am so sexually frustrated I had no choice. If I didn't get up I would have ended up fucking her regardless if she is wasted or not. But knowing she a virgin. I can't take her virginity not with her being so out of it. I care about her to much. I am happy I walked away when I did. Besides I feel like an ass for hurting her. At least if I had known I would have been a hell of a lot more gentle for her sake.

I ran up to the fourth floor . I needed to find Rosa. Rosa is the nurse -maid. She probably in her late 40s. I wanted to ask her to give me some pain medicine or something for Leah. When I walked out of the bedroom I realized I had some blood on my hands. She really was tight.. when I do "makelove to her" I really will have to be extra gentle. Either way it will hurt her until she gets use to me. I finally found Rosa and she gave me some medicine for her. I didn't tell her the whole reason not that she asked me. When I returned to my bedroom I didn't see her laying on the bed. I walked into my office I seen that I forgot to turn the light off from earlier that day. I thought Leah was in there but there was no sign however some of my books and things were knocked on the floor. Maybe someone knocked them off by accident?

..."Leah baby come out please" I was starting to get worried I flicked on the light and it took me a few minutes to realize her bag was gone. I threw on my jean and a black shirt and my shoes .

"Fuck where did she go" I decided to ask my security if they had seen her as I was about to run down the stairs to shout if anyone seen here but Jerry came running up.

"Ryan sir.. the girl you brought she left, Bob tried to stop her and calm her down but she was an emotional egg roll. I tried to get him to hold her off but she took off sir"

..."GOD DAMIT, I need my motorcycle "

"Sir it's raining I suggest the car"

.."Yeah good idea Thanks Jerry" I was running down the stairs I didn't even think to take the elevator I was a fast runner. I needed to find her a wasted girl in the rain is just bad. Not to mention she probaly a fucking

## Stranger To Love and Love Which to Fear

mess emotionally. This wasn't a safe neighborhood there was a lot of druggies I needed to find her NOW. I feel like shit right now. God damn it why did I walk out of the room like that. Maybe she went in my office to find me? I was in my car within seconds flying down the street. She been gone for about 20 minutes top. She can't be far. I keep trying to call her but she not answering me. God damn it I need to find her quick.

â Leah's POV.

It's fucking raining my luck I don't even know where I am. My phone is dying. He doesn't want me he made it clear. He wouldn't even look at me in his office. I don't know why he wouldn't just turn his chair around and look at me. I was so stupid why would anyone want me? Every guy hates me eventually, the only guys who want me are the ones who want to get with me. Max probably doesn't even like me as a sister. He probably forgotten about me and Gracie. He got out and now he good, fuck him fuck everyone. WHY AM I SUCH a fuck up..?

I feel so sick in my stomach there is a couple stores but they are closed of course. There is some creepy alley way but there a trashcan and dumpster. I need to vomit. I can't stop crying and I clearly drank to much. I wish he wanted me I can't get Ryan out of my head. I want to call him but I literally can't and he wouldn't answer me anyway. He won't ever bother with me after tonight. I didn't know being a Virgin was such a bad thing I never imagined this type of reaction from him.

Things are a bit blurry to me I am just holding myself up against the brick wall. I am puking god this is awful. I can't drink this much again. I wish I didn't even have to live another day in this fucked up life but I can't leave Gracie. I know my best friends would take good care of her. But I am her big sister..! But I am sure she be okay, Lilly is like a big sister to her.. Gracie probably loves her more then me.

I can't help myself I am so full of negativity right now. I have been depressed before but I try so hard to cover it up. I use to force myself to throw up when I was in middle school. I was 14 and skinny but a few of the girls were doing it from the cheer leading team I tried. I wasn't happy so I tried to take the pain away that way. I was a mess then my dad was gone and things were rough at home. Max caught me he tried to make me stop but I still did it when I got the chance. I guess it made me feel better in a way. I always went crying to him he was my support at home. I was Gracie's he was mine outside of my friends. Max was hurting to though, when he saw mom going on dates he took it to heart. I was the only one who could calm him down but I couldn't do it forever.. Clearly he left..!

I wish time would go back I wish my dad would come back. I want him and Max and our family back together. Things were great before but that was a long time ago. I saw my dad on my 14th birthday but that was the last time. I wonder if he is out there somewhere? I knew he went for a good reason but I needed him especially now. I miss him god do I miss him.

I am here vomiting and I am soaking wet my dress is drenched at least it's black? I think I hear a voice but I can't be to sure. I have tears running down my face and my stomach killing me my throat is so dry. I try to wipe my eyes and makeup is probably everywhere but why should I give a fuck?

..."Leah is that you? Its Richard"

I am sitting on my knees I went to answer her him but I was throwing up again. I could barely breath. I felt his arms on my shoulder his hands were pulling my hair back. I was glad to have my hair held back but I wasn't

## Stranger To Love and Love Which to Fear

really feeling to good that it was him. Richard was here in this dark alley where ever this was I have no clue but it's weird. I can't think much about it though. When I finish he looking at me.

..."What happened Leah..here take this he hands me a bottle of water and a piece of gum and a tissue" I heard a few other voices. Great here I am wasted and on my knees throwing up in front of my boss and his people. Fucking perfect.

â !."Leah"

"i drank to much, I mumble I am okay thanks" I take the tissue first and wipe my mouth and I drink some water then spit it out. It didn't taste much like water but whatever. I take another sip because I need something to drink. I pop the piece of gum into my mouth. He grabs me by my waist and helps me up. When I turn around I see him looking at me smiling.

.."Good girl I didn't want to have to force you to drink it and accept the gum" He said a playful voice he was laughing. I didn't find anything funny but I wasn't going to be mean. I was freezing I just wanted a warm bed to cry myself to sleep in. I saw two guys standing a couple feet away looking at me they creeped me out. Richard wrapped his arm around me.

..."Boys this is Leah one of my best bar tenders the girl I have been telling you about he said" So he talks about me outside of work? Maybe I should take it as a compliment but it makes me feel weird for some reason. They just look at me with a wicked grin I go to say hi but I feel like I am about to vomit again. I quickly turn away I wanted to drop to my knees. But Richard is holding me up his arms are wrapped tight around me, it feels a little to tight he crushing me it hurts. I try to push away a little but he has a tight grip on me and my hair.

When I finish he still hasn't let me go.

... "I am okay Richard you can let me go now please" I hear a few mumbles

"she right here why not now"

â !....."No I said it's to soon just listen to me dumb ass it's to soon just shut up" I feel so weak I just want to go.

"Richard let me go please I am okay really" Richard finally let's go of me or at least he loosened up his grip around me thank god.

..."Leah I have to go I am sorry these boy will get you home okay".. he looks to them "guys make sure she gets home ..SAFELY" ! He said safe with a harsh tone on it. I picked up on it but didn't think I should have worried to much.

I WAS WRONG..

I was leaning against the wall one of them handed me their jacket and held an umbrella over my head.

"Where do you need to get to?" I didn't want to tell them I didn't even have the words to say anything more. I just shrugged. Where did I even want to go? No where..!! I went to walk away but I felt his firm grip press me against the brick wall it hurt. I Seen a dim street light but no cars, this was a dead street it seemed. It was certainly creepy. I felt scared of him these two men made me feel weird.

## Stranger To Love and Love Which to Fear

"I need to call my boyfriend he will get me" I lied It was all I could think of. I knew RYAN wasn't going to get me why would he? They laughed.

..."She want's to call her boyfriend what do you think the buddy" They were looking away from me I only grabbed my hand bag I didn't care about anything else. I started to run toward the street but one of them caught hold of me.

.."where you going love? We haven't decided on where to take you yet not to mention you haven't told us" he slid his hand down to my backside. I put my hands in front of me pushing his chest away from mine trying to create some distance in between us.

"i am okay I can get home myself thanks though please let me go" He just laughed and pulled me tighter he was on something.. I could tell. My luck wrong place wrong time always.

.."Let her go dude you heard Rich"...

" SHUT THE FUCK UP. I didn't ask for you to speak to me you will learn boy eventually" He was a dick head clearly the other guy was around my age but this guy way like late 30 maybe? The kid was silent but didn't say anything after that. He turned back to me now.

"Listen to me or your going to make this worse on yourself. I want you right now so your going to get your ass up the stairs of this building and not make a sound or tell anyone you hear me girl? Then after you will be taken home I guess " He was kidding me right? Rich would kill him didn't he hear Rich say take me home safely.

I looked around where could I go.. I only had the street to run towards and it was dead. That was my only chance though. He unlocked the door but he sent the boy away I don't know where but he don't him to keep his mouth shut about all of this. The kid was out of my sight and then I was just standing there alone with this man. He pulled out a pair of keys and told me to follow him. He was pulling at my hands. I was pulling away but he had a tight grip on me I was begging him to leave me be.

"shut up bitch" He unlocked the door after a minute. He pointed for me to go up the stairs but I didn't move. I felt it coming again I was about to puke. He pushed me but I didn't move I fell forward a little he went to grab me but I slapped his hand off of me. Of course he slapped me and his ring cut into my cheek and it hurt it really hurt. I was about to just obey but instead I turned around and started throwing up it got all over him. Good serves him right.

"Eww you fucking bitch" I kicked him and slammed the door shut. I took off running down the alley. I got to the street and was in the middle of the street running. I saw a car coming. I had no clue who it was but I was happy it was a car. It was a person.. The car was coming to a stop at the end of the street. I heard the guy screaming he was coming I started to panic I was running as quick as I could in this pouring rain I ended up slipping. Next thing I know the car was by my side. I looked around but the guy wasn't in sight. Everything was blurry but when I got my focus I realized who it was.

RYAN.. I cried out. He picked me up off the street and I couldn't help but throw my arms around his neck I wasn't going to let go. I didn't care if he hated me or didn't want me I just needed him to get me out of here I was bawling my eyes out. He pulled me close and climbed in car pulling me in on his lap he didn't put me in the other seat instead he left me straddling him sitting on his lap. His shirt had to be soaking wet from my tears. I didn't care though I was safe now. He sped off down the street we were back at his house within 20

## Stranger To Love and Love Which to Fear

minutes.

He carried me to the elevator and he didn't put me down he didn't let me go he took me straight to his bathroom. He placed me on the huge sofa. I was freezing. I still was crying I couldn't calm down. I was having an anxiety attack on top of my asthma attack. I can't even remember the last time I had one. It had to be what almost a year ago? I had my inhaler in my bag. I was struggling to open my bag but he got it open for me I dug my hand in it wasn't hard to find. I pulled it out and immediately started using it. After a minute I dropped it to the floor.

I wrapped my arms around my knees hiding my face between. I was a mess. This was horrible. I have no clue why he came out or how he found me. Maybe he wasn't looking for me. Maybe he just saw me and felt bad after he realized it was me, he couldn't just leave me... He probably didn't know it was me. Why did it matter I knew he didn't need me or want me. I wanted him though after these past few months I was so happy with him. I had fallen for him. But I wasn't ready to admit it yet but now I never could.

I was crying harder!

..."Leah baby stop crying please" . He was trying to pull my face up to look at him but I wasn't letting myself look up. He pulled me to the end of the sofa chair and pushed my legs apart. He was between my legs on his knees in front of me on the bathroom floor. I still had my hands covering my face.

â !."Leah please talk to me. What happened why did you run off like that? You had me so fucking worried. I walked out of the room to calm down and I was getting you medicine. I come back and your gone. YOU didn't answer my call I was freaking out."

"You didn't want me you hate me and you don't want me because I am a virgin I cry out. You wouldn't answer me or turn around when I came in your office you just ignored me, I left" He shook his head and let out a soft laugh. Why was he laughing right now nothing was funny my feeling were hurt he didn't want me. How was this funny?

.."Leah I wasn't in my office I went up stairs to the fourth floor"

" But your light was on and the door was shut and your chair was turned"

..."Yeah the light was on I forgot to turn it off earlier today. The chair was turned because my cat Gilbert was sitting in the chair most likely. As for the door I always keep it shut. I thought you were in there because I didn't see you in bed instead I walk into my office and found a few of my things knocked down.. and of course no Leah.. You weren't anywhere. You really worried me Leah don't ever do that again baby please"

I felt stupid..i was talking to his cat he wasn't even in his room? I caused this whole mess just to find out that he wanted me still that he didn't hate me. I felt sick again and my face was throbbing. I touched my face it felt bruised and bloody. Ryan pulled my hands from my face. I don't think he had any clue what happened I still had tears running down my face. If it wasn't for him what would have happened to me? I don't even know.

.." LEAH "he screamed in a worried tone he pulled my hands from my face. "oww oww it hurts Ryan"

He got up and grabbed a cold rag and placed it against my face,i looked in the mirror I looked like hell. My makeup was running my dress had some blood on it and I had a bruise. I bruised quickly. Not to mention I had a huge cut right below my eye. I didn't want him to see me like this it hurt but I could handle it by myself.

## Stranger To Love and Love Which to Fear

" I am okay Ryan please don't make a big deal out of this I am safe now I am here" He shook his head and pulled me tight into his arms he went to kiss me but I put my hand in front of my mouth to stop him. He looked hurt taken back by me doing this.

"Ryan I threw up and I am freezing I need a shower or something please"

..."Oh Leah he said " HE kissed me even though I just said I had thrown up only about 30 minutes ago. I guess he didn't care?"

.."I am so sorry I shouldn't have let the room like that I wasn't thinking I didn't even think about it. I didn't know you think I didn't want you I am stupid. I am so sorry"

"Its okay Ryan it's not your fault I am sorry. I shouldn't have left like that and I should have told you, I shouldn't have thrown myself at you like that it was slutty of me. I just really wanted you to want me I wanted tonight to be the night. I ruined it though."

I looked down at the floor with my hands on my lap pulling at my dress. I started to calm down from my anxiety attack. He really was so sweet. I though he didn't want me but I had it wrong. My face was really hurting and I really wanted to get cleaned up.

.."Leah your not a slut you didn't ruin anything and I still want you, I want you more then you know. Lets get you washed up instead of a shower how about a bath?"

I shook my head "Yes that sounds good" He gave me a toothbrush and I brushed my teeth at the counter while he filled up the huge hott-tub, bath..thingy. When I was finished I tried to undue my dress but he came over and un zippered it for me.

"Leah do you mind if I join you in the hot bath?" I smiled he wanted to get a bath with me..!

"Not at all" I was blushing I couldn't help it. Ryan leaned in and kissed me. I reached up and took his shirt off I kissed his chest slowly. Then I undid his zipper and button to his jeans. Pulling them down slowly I got on my knees and pulled his boxers down, He was hard and even bigger then I could remember. He took my bra and thong off again and then he pulled my hand softly as we walked towards the hot steamy tub. He stepped in first then he picked me up by my hips and softly placed me in the water between his legs.

.."Leah I have to tell you something please don't get scared or go running from me I really care about you Leah" I turned my head a little so I could see him even though I could have just looked into the mirror to see his and my reflection.

" I care about you to Ryan a lot" Ryan grabbed my hands I guess he wasn't done.

..."Leah I don't just care about you.. I umm I LOVE YOU Leah". Did he really just say that ? Was this all a dream?

"Pinch me" I said it out loud.

"What Leah? I am sorry I shouldn't have said it forget that I said that" No this wasn't a dream this all really was happening he just said he loved me and I loved him to I really did.

## Stranger To Love and Love Which to Fear

"Ryan I love you too"

.."Leah you don't have to say it just because I did its okay I am sorry for saying it"

" Ryan shut up I love you I really mean that I didn't want to say it to you but I have fallen for you. When I thought you didn't want me tonight I just felt like nothing. You really have made these past 5 months the best. Everything was bad until I met you things are more easier to deal with now it seems."

I kissed him and turned around "I love you I mean it Ryan"

.." I Love you Leah I care about you so much and I care about Gracie.. ill always be here for you both no matter what and I mean that it's not some lie" He kissed me deeply. This was so romantic but my face still hurt I grabbed some water and splashed in on my face. Then I straddled him in the tub but I gave myself enough space because his dick was huge. We weren't having sex not right now. He was just cuddling me kissing me. This was perfect....

( Don't worry there more of this hot tub scene in the next chapter guys(; â ; How ever I think I made this one pretty damn long.. & he will find out about the man and what happened to her he is just giving her time before he gets the information out of her! I mean she needs some time before being questioned about what happened.)

## Chapter 16: chapter 16

### CHAPTER 16

We still are here in this hot tub. Its been about 20 minutes. He reaches for the handle to add more hot water as he turns the jets on in the tub. I feel the vibration and the bubbles are forming around us and it feels so good. I rest my head against him as I am still straddling him. I don't feel sick anymore really at least not at this moment. He has his hands in my hair now he tilting me back a little I have my hands on his shoulders.

..."Leah I was so worried about you" I just tried to lean into kiss him but he was leaning be back in the hot water. Ryan's hands were around my neck supporting me but allowing my hair to fall into the hot water. His one hand was wrapped around me as I wrapped my legs around his back holding onto him tightly. I didn't want to let go. I was looking into his blue eyes and then I closed mine tightly. I tried to pull myself up towards Ryan. But he slipped and I fell back but he had a tight enough hold on me and the tub not allowing me to smack my head. Ryan was right on top of me in the tub it was so intense. The bubbles were covering my body but not his. He started pulling my hair back a little as he lifted me up a little.

"Ryan I, I was scared you didn't want me. I couldn't call you or anyone. I don't know what he would have done to me. I am so happy you came. I felt so alone and scared. I was stupid for leaving" He looked at me. I was crying again.

.." Who?? LEAH who? What are you talking about. I didn't see anyone. I think you just drank to much babe?"

"The guy " I whispered. I thought he had an idea but clearly he didn't he thought I just fell or got cut up myself. I know I am always tripping and managing to hurt myself. But this wasn't my fault this time. Yes I left the house and I could have prevented the situation but I didn't ask to be hit. I didn't deserve to be treated the way that guy treated me. Did I? It happened I wasn't to wasted to know it.

â !."Babygirl your safe now, I know you were scared but I didn't see anyone. Are you sure your not just imagining it? I mean you were pretty out of it Leah. But if your telling me someone tried to hurt you I will go find that fucker right now"

Ryan was staring to move me to get up. I didn't want him to leave. I know what happened!But I didn't want him to leave me here now. I wanted him!I was safe I would just put this behind me now. I am safe he can't hurt me now. Who ever he was..! I could have been imagining it, but it seemed to real I was sure that it happened. I did drink a lot though so I probably provoked the person, it was probably my fault. My face still hurt regardless,

"No stay don't leave me. Please don't leave me again, your right I was out of it I still am so I don't know what happened. All I know is I was scared and now I am not because I am here with you. I am safe so please don't go away"

His hands were wrapped around me.

..." Leah I am not going anywhere" I laid back and rested my head against him leaning down in the tub I felt him hit off the lights as he lit a candle that was next to the tub. His hands slowly massaged between my legs. It felt so good I was closing my eyes I felt so tired. His Hands slid up to my breasts and he was pinching my nipples between his fingers rubbing them slowly in a circular motion. I let out a soft cry. He slide his one finger up to my lips and I automatically began sucking hard on it. I felt his body shift in the hot water as the bubbles gathered around building higher up. I felt his hard monster poking at my bottom. I really wanted him

## Stranger To Love and Love Which to Fear

but It was not the right time. I should be happy that this is even happening...

I felt his hands against me. Slowly they slid between my legs and sliding over my breasts and occasionally grabbing at my ass. I was so relaxed and yet turned on . I really had no energy to act on what I wanted. I seen him pouring a sweet scent into his hand. It smelled so good and I felt his hands massaging my head, he was totally washing my hair it felt amazing. It reminded me of when I went to the hair salon I loved when the girls washed my hair it was the highlight of the experience. I let him continue to wash me as he moved onto my body. I don't know how long it lasted but I would have been fine with it lasting forever.!

.." Cupcake your falling asleep I believe we should get some sleep? This time we will actually go to bed.. I don't want to have to tie you to the bed " He laughed and kissed me. Mmmh tie me to the bed? I was still feeling out of it but I caught on to what he said .It instantly had my mind racing. I always had wild ideas about what I wanted my "sex life" to be like. He just added to my want and ideas, my plans.

He left me in the tub while he grabbed us a hot towel. Then he grabbed me by my hips he picked me up out of the water he had a towel wrapped around him. But I yanked it off him as it fell to the floor. He looked at me..."Leah baby, you need sleep" I kissed him hard shutting him up. He was wrapping the hot towel around me but I let it fall to the floor as he carried me to the bedroom. He dropped me onto the bed.

.."Your so playful you won't go to sleep without me having you tonight will you?' I bit my lip.  
" I want you Ryan,"

I put my hand against my cheek I still felt a little sick he grabbed a drink out of his mini fridge and then he gave me two pills.

..."Leah take this when you feel better I will make love to you I promise. Just get some rest baby, I will be right next to you the whole time. Believe me I would love to have you but I want you to feel everything I do" He had his hand's in mine pressing his lips against my neck we both were naked. I knew he was hard and I knew I wanted him but he was right.

"Okay but when I feel better it's happening. No excuses Mr " I turned on my side and felt his arms tighten around me I loved him cuddling with me.

.." Leah I have a shirt for you and clean panties." He pulled me onto my back and leaned over me he made me lift my arms as slowly pulled the t shirt down on me. Then he planted soft kisses up my leg as he pulled silky soft panties up on me. Right before he pulled them up to hide me from him he kissed my Kitten (pussy) and slipped his tongue inside me. God he was confusing I thought he told me to rest? I can't when he is doing this. He teased me as kept withdrawing his tongue and soft kisses from me. I held his head down and he knew I wanted him. He had me moaning screaming for him not to stop. He kept teasing me building me up I was about to burst out screaming. Ryan ate me out for about an hour as he played with my clitoris and rubbed my pussy. He made me wait so long before he let me have my first orgasm ever. It was so intense and powerful it took all my energy to kiss him after.

â !...."Leah I love you, your so beautiful you don't even know it and you taste so good I could do lick,kiss and eat you forever. Your so different from all the girl's I never want to let you go. I never want you to feel scared or like I don't want you. I will always want you I have wanted you from day one. I love you baby sleep well. Ill be right here when you wake" He pulled me on my side so I could face him.

"I love you to Ryan..never stop loving me please you give me a reason to fight.. for what I love what I need " I felt my eyes closing I just about got the words out before everything became black to me.

## Chapter 17

### CHAPTER 17

.. "Leah baby are you okay?" My eyes flew open I had tears running down my face I guess I was having a bad dream. I don't even remember what it was about. I realized I had my hands digging into his back he didn't have a shirt on only boxers. Ryan was wiping my tears away pulling me into his hold tighter. He pulled me on top of his body tightening the blankets around us. I don't know what I was dreaming about but it sure as hell had me scared.

"I am okay I mumble back to him I just had a bad dream" I really don't know what happened but I just wanted to get a shower and freshen up. I look at him and then looking down realizing my clothes were all in place. I couldn't help but feel disappointed.

"We didn't do it I asked shyly ?"

â !..."Leah !no we didn't. I told you last night I wasn't .I told you to get some rest I also told you it would happen I promised you it would and so it will. How ever I don't want to plan it I want it to just happen. It's going to be special, I want it to be better then you could imagine it to be baby. What's the rush in losing it to me? I don't see why you want me to take it so badly right now. You have waited this long I don't think waiting longer will kill you. I love you I want you but I am just waiting for the right time. Besides we have forever, if you stay with me forever ? Leah?.."

"I don't know I just want to I cant explain it or why it's just how you make me feel, I love you Ryan"

.. "I love you to cupcake. Shower time? Then perhaps brunch ?" I smiled and climbed out of the bed he threw me over his shoulder and smacked my butt playfully. I had forgotten about last night. I didn't even know how bruised my face was. I suppose it had swollen up over night. I was standing there in front of the mirror the was surrounding the shower and hot-tub. He came up behind me wrapping his around my waist kissing my neck softly.

â !."Baby you took a pretty hard fall. I am happy I got there when I did. I still don't know where you were going or planning to go. But thank god you were on the street. It's not the safest place for a beautiful women like your self, especially you. Please never leave the house like that again ever. And if you plan to walk out,don't do it around here. Its the last place I want you walking alone. Hear me Leah?"

"Yeah I hear you and okay I won't I am sorry for last night " I stood there hating this ugly cut that was on the right side of my face. I know I was out of it but I feel like that fall wasn't my fault. But maybe I was just imagining that there was a guy trying to hurt me, or that I saw Rich..! I felt better convincing myself it was a fall. I fell a lot anyway. The only time I wasn't falling was when I was dancing. Imagine that me not falling while dancing & teaching but it's true.

â !.....Were at brunch now and then headed to the fair. The shower involved a lot of kisses but other then that not much happened I know he was holding back and I was to I wanted him badly. But here we are and I am wearing a short black skirt that a little above my knees. I have a pretty blue dressy top that shows off my curves along with a blue flower that holding back a piece of my hair which i french braid hair. As for the rest of my hair it is flowing to my sides, All curly and beautiful.

## Stranger To Love and Love Which to Fear

I see women looking at him like he is a piece of candy. I want to get out of seat and scream he is my boyfriend he is mine stop staring at him. I know I would seem like some crazy girlfriend. It really bothers me though. It makes me feel insecure and I hate it. Feeling as if he could be taken from me at any second. I am thinking back to what he said before we got a shower. Once we finish our brunch we walk back to the limo and I am happy that nobody can see him except me. I can't hold back my words anymore. I climb onto his lap and grab his face making him looking into my eyes. Every time I look into his eyes I feel like I become speechless so I have to force myself to break the stare. I play with one of the loop holes of his Grey jeans that he wearing. Along with His white t shirt . God he is so hot. Stop it stop it I need to tell him how I feel. I take a breath and get my words out.

" Ryan, forever is a long time. You wont want me forever. Nobody does but yes forever does sound nice. I don't know why I am so impatient I can't help myself. I want you and every other girls wants you I am just one out of the many others. I can't picture you needing me or even wanting me forever."

â !."Leah that is not true at all I love you and nobody can or will take your place, beside my girlfriend Gracie" he winked... "Now that little girl, I can't help it, I can't turn down a challenge especially a sing off with princess Gracie" I was giggling he always knew how to turn my mood around.

"Gahh"

..."Leah did you just say gahh to me" I pulled his finger to my mouth and bit it hard.

" Yes I believe I did Mr Ryan. Is that a problem? Is this a problem? " I bit down harder then started sucking his fingers. I don't know why but I really loved his long fingers. His hands were huge and just strong and perfect. Everything about the way he looked was perfect he was better then model material there wasn't anything that I could complain about when it came to his looks. This blue eyed, brunet hair man had the perfect naturally tanned skin. His muscular body could crush you I swear even his pinky finger could do some damage. I decided I wanted more I quickly let his monster be free. I kissed his monster it was so hard and big. How did he manage to have so much control? Why couldn't I? I mean I am the virgin shouldn't I be more calm then him? He done this before shouldn't he be jumping at the opportunity to fuck me ? He confused me but him playing hard to get just made me want him more.

â !."mmh baby girl it's no problem but your going to be punished for this.. and then of course I have all of tonight to decide on things" He licked my cheek then pulled me up and had me against him with my back tight against his chest. He managed to get his leg between mine forcing mine apart. He pulled my skirt up as he slowly massaged my legs. Then he took his hands away. He was reaching beside him for something in a bag I didn't know what it was. Then I felt something pinch around my wrists he had my hands cuffed behind my back. He placed one of his hands on my inner thigh and squeezed. I was squirming around in my seat he defiantly just cuffed my hands behind me. I cant touch him now. I feel his fingers trace down my legs I feel so wet already.

"Please Ryan just give in to me give yourself up to me stop playing so hard to get" He had me all turned on without hardly doing anything. That's when I felt his hands pulling down at my hot pink thong. His fingers brushed against my smooth shaved (Kitten). Then he pushed one if his fingers into me I pushed myself against him. I needed him and this. I pushed my feet down as if I wanted to take the flooring of the limo right from under us. He knew what he was doing.

"Harder deeper please"

## Stranger To Love and Love Which to Fear

..."Baby relax I don't want to hurt you. Your so tight you don't even know it. It's going to take a lot of time before you can take all of me in you or as you like to say my (MONSTER). But don't worry ill get you to that point. In the mean time just breath and enjoy, I know you want me to slam my fingers into you since I havent give you my (Monster). But if I do that right now you will be in pain and I don't want you in pain, Ever I want it be all pleasure even if it's slow delicious torture."

He said his words so seductively I knew what he was saying but I still wanted him to push harder to finger me harder or something.

"PLEASE have me" I screamed a little to loudly. He instanly picked me up and turned me around to face him. His Dick or as I like to say his (Monster) was hard and long for me!He pulled my skirt up higher and completely ripped my panties off.

â !." Leah is this what you want?" I looked down and bit my lip hard mmmh of course it was I shook my head yes to let him know I wanted him.

â !....." Okay Leah if that what you want. Since you can't be patient and wait and let me pleasure you right" He grabbed me and pulled my hip down towards him he was right at the entrance of my pussy. I was breath so unevenly. God damn it why did he have to say it like that. I went to push up but realized me hands were still cuffed behind my back.

"Wait WAIT" I screamed at him. "Ill wait ill wait" He held my hips holding me up so that his hard dick was just barely in my entrance.

.."Good girl I am glad you decide to wait. I knew you were a smart woman" He kissed me and laid me on my stomach on the long seat behind him. How ever he wasn't done he still left me with my hands cuffed behind my back.

"Leah close your eyes baby" I closed my eyes immediately. He slide his finger inside of me slowly but started pushing it in a little faster and deeper. I was moaning right away. I felt something warm agaisnt the front of my kitten. It was his phone he turned on the vibrator and held it right agianst me while he fingered me. It felt so good.

"cum Leah come on baby cum for me don't be scared to get your cum on my phone let go" I was screaming soon as he finished his last words. It felt so amazing. My second orgasm ever. It just kept getting better and it was happening faster. I was so much more aroused by him then I knew.

He let my hands be free from the cuffs as withdrew his finger from me. Ryan licked his fingers then slid his phone from under me and licked my cum off his phone. It was hot watching him lick me off of his fingers and expensive phone. I was now on my back watching him do this.

..."Are we in a better mood no cupcake" I giggled oh fuck yes I am in a better mood. How couldn't I be after that?

" Yes , yes.. Thank you babe. It felt .. well I can't explain just to good to explain"

..."Glad you enjoyed babygirl, there a whole lot more to come and we have a long life ahead of us, meaning me and you together" I smiled and he leaned down and kissed me.

..."Leah baby we are here at the fair" He pulled my skirt back in its place as he put his monster away. We looked at each other for a minute before leaving the limo together.

## Stranger To Love and Love Which to Fear

â !..... I saw Gracie and she came running to me jumping into my arms giving me a kiss and hug.

"Leah Leah look I have a fish I named it Dragon, where is where I Ryan where my boyfriend" I started cracking up laughing Lilly, Hunter and Mark along with Ryan joined in hearing what Gracie just said.

"Hey there little lady what did me and Hunter tell you about us guys â ! they have cuties no boys till your a 100" Mark had turned her upside down tickling her after he handed me her fish of course. But soon as she saw Ryan she jumped out of Marks arm and climbed into Ryan's. Ryan threw her up in there air and spun her in a circle then placed her down on the ground.

..."Anyone thirsty he said after saying hi to everyone and giving Lilly a hug and the guys their manly handshake. Ryan walked to the stand and got us all cold milkshakes. He shared a big black and white shake with me though. We all played a few games and sat watching Gracie while she went on some of the rides. Mark had brought one of his youngest nieces so they girls went on the rides together. Lilly and Hunter walked around by them selfs for a little while Mark and Ryan and me watched the girls.

Ryan gave them loads of money to buy coins which kept them busy playing games for hours. We were staying for fireworks and the bands. It was probably about 7:30pm it was just staring to get dark. I needed to use the bathroom so Lilly and me took the girls to the bathroom while the guys sett up seats on the field. I was the last one to use to use the bathroom. I told Lilly to head back over with the girls that I would be right there. I washed my hands and pulled back my curly hair in a high pony tail.

I was walking out of the bathroom when out of the corner of my eye I seen something disturbing. I heard a girl scream but nobody was around besides me. The band had started playing music and everyone was over at the field! I walked a little closer and seen the girl with her hand on her face.

"Fucking bitch I told you to wear the other shirt why don't you just listen for once dumb bitch" It was one of the girls from the dance studio. I taught her class a few times at the dance studio when Lilly mom was out. She was a very sweet girl, she was young I think she might have been in middle school probably 8th grade. From what I knew... I couldn't stand there and let him talk to her like that.

"Excuse me is there a reason your screaming like a lunatic at this girl" I saw his hand up he was probably about to slap the shit out of her but he quickly stopped when he saw me. Shock on his face made it clear he wasn't expecting anyone to see or hear him like this.

"Hun you look beautiful don't let some boy speak to you like that. As for you get lost you should be ashamed of yourself speaking to a girl like this" he had to be what 15? I walked over to her and told her to come with me as she tried wiping the tears from her eyes. He ran off and I took (Sofia) over with me to the field. I bought her a cold smoothie and nachos before we walked back to everyone. When I turned around they asked where I had been. But when they saw Sofia's tear red swollen eyes they knew something had happened. Lilly was by her side questioning her on what happened. I explained the story for her to them while she sat with the younger girls on the blanket coloring pictures munching away at the nachos. Ryan and Hunter & Mark were about to go looking for the kid but me and Lilly stopped them. I handled it I said if he trys anything later you guys can take it from there.

â !.. "Leah I am going to get some drinks and food for everyone would you like to come" Ryan had his arm out for me I would love to. We got a list of what everyone wanted. Basically cheeseburgers and fried with a couple gallons of sweet teas and of course plenty of cups and napkins. We forgot to grab the ketchup so I ran back by myself as Ryan passed the food and drinks out to everyone. I didn't realize I would be walking right into my enemy.

## Stranger To Love and Love Which to Fear

â !."Well hello Leah.. You look sexy as usual whats the occasion " Adam was high as shit and I could smell the alcohol coming off his clothes.

"Shut up Adam I am here being normal and enjoying the fireworks & band unlike you. Can't go with out a drink or a high can you?"

It was dark and the band was so loud.

..."What the fuck who do you think you are talking to me like that you little bitch!!" He grabbed me by my hair and pulled at my arm leading me towards the woods where his drunken doped up friends were partying it up. He walked really fast he had long legs so it didn't take him long to get us there.

" Get the fuck off me ADAM. Ryan will notice I am gone let me go now your hurting me"

..."OH so you do have a boyfriend well I would love to meet him why don't we call him up right now?" I forgot I had my phone in my bra but he pulled it out of my bra and clicked on Ryan name.

..."Hey lover boy I think you girl friend could use some rescuing and I would love to meet you the man who trying to fuck with my angel of innocene" He coughed "SLUT" he threw me against the tree and hung up on Ryan.

I had no clue if Ryan had got the message but here I was in the woods with Adam and a few of his nasty perverted drugged up friends. â !

" PLEASE JUST LET ME BE ADAM" I went to walk away but he grabbed me and had me on the floor his knees were digging into my arms.

...Shut up LEAH JUST SHUT UP he won't find you I am sure he has already found someone else to cuddle up with" Jealous.. now I was jealous there was a bunch of girls staring at him today even though my best friends were their with him I wondered how many girls approached him just in the few minutes I was gone.

"No HE LOVES ME ADAM"... he started laughing as if I wasn't cable of having love or being loved by a man.

..."Well he doesn't love you he probably just want's a good fuck from you. But we all do..! If he does love you then he better learn to forget about you quickly because he doesn't have long to keep loving you" What did he mean? I felt his knees press tighter into me.

"GET OFF OF ME YOUR HURTING ME ADAM" I was crying out in pain. I couldn't feel my arms they felt numb. All the sudden I Adam threw himself off of me and I heard Ryan's voice.

â !." Get your fucking hand's off my girlfriend" He was punching him in the face and I seen Adam fall to the ground and then I saw Hunter and Mark pulling Ryan off of him before he murdered Adam. It all happened so quick when I sat up I saw Adams friend's pulling Adam off the ground as they took off running in the woods. Adam was by my side and the boy were chasing after Adam and his friend's telling them to get lost before they killed them.

## Stranger To Love and Love Which to Fear

"Leah baby I am here I am here" I felt him gather me in his arms. I Just wanted to shoot myself I was always getting myself into some trouble and it was always with Adam. Would Adam ever be out of my life he was the creepiest person I have ever met...! I wish he leave my life I wish he go away I wish I never had to see his face again. Mark and Hunter were right beside us.

"Leah are you okay what did that fucker do to you... he Is so done" Hunter screamed to us. I just hid my face into Ryan's shirt I just needed to go to bed I always needed to sleep. Sleep was the only peace in my life.....

## Chapter 18

### CHAPTER 18 POV RYAN'S

I don't know what just happened I just know my blood is boiling . I want to kill those guy especially the one who was holding Leah down. One minute I am With Leah getting food for everyone. Next I am getting a phone call from some ass whole telling me to find my girl. I am fucking pissed .Who does he think he is calling me hanging up on meâ ? To top shit off who is he ? Why was he pinning my girlfriend to the floor? How did he get her here ? Everything happened so fast. Everything happening so fast...

â !."Leah baby girl look at me open your eyes look at me love" She won't look up at me she hiding her face into my shirt. I feel her one hand digging into my skin. I can tell she was scared maybe more so in shock. Possibaly PAIN? Hunter and Mark are trying to get her to talk but she wont. She not letting go of me. She screaming in pain biting my shirt. I don't mind that she holding me so tight but she screaming in pain and we can't get her to answer us.

.." Leah Damn it answer us" Hunter pulled her face from my shirt to get her to look at us. Usually I flip if a guy put his hand on a girl especially mine. But he is her best friend and he is becoming a very good one of mine. They all are.

.."LEAH tell me what he did what did he do" His voice is gentle and I can tell he truly cares about Leah. It nice to see. But I can't help but feel a bit jealous especially when she responds to him. My arm she screams barely and she holding her neck as if she cant breath. We look down at it. We see her arm is bruising it possible it could be fractured or something by the way he had his knees digging into her.

"Get her up get her up where is her inahler" Mark is dialing Lilly's number telling her to meet up in the parking lot asap. We get there and Lilly throws me her inhaler I have her in my arms and mark takes the inhaler pushing it towards her mouth. She takes it and within a few minutes her breathing is almost back to normal. She still crying though. We Kept the girls away especially Gracie we didn't want her upset.

.."We have to get her mom" Lilly says. Hunter and Mark looked at Lilly as if she was nuts.

.."Guys its her mom, she been needing it a lot lately I am worried and were not taking her home were taking her to my house her mom can meet us there" The guys seemed to relax. From what I knew Leah's mom seemed nice. I knew that there was tension between her mom and the boyfriend and Leah but Leah never told me much. Leah seemed to really keep quiet about a lot of things. She tried to anyway but she seemed to have her breakdowns around me. Even though I wasn't happy seeing her cry it was nice to know she felt she could around me.

.."Ryan don't take me home just take me to your house please" I looked at her.

"Leah you need to get checked up by your mother or something right after I will take you back to my house"

â !..... Her mother came to Lilly's house we all waited in the other room. Leah was sitting in the living room while her mom gave her the checkup..! I heard Leah shouting at her and I jumped a little at the random outburst.

.."Just go ahead mom run back to him, You always do"

## Stranger To Love and Love Which to Fear

.."Leah stop it I love you and Gracie you know that, You just don't understand"

..."Your right I will never understand just have fun with him mom" I heard her scream. Her mother came in to say goodbye to us and told us that we needed to keep watch on her other then that she was okay. She had bruised arms she may have a pulled muscle but that was all. Lilly followed her mom out. From what I know Lilly was like a daughter to Leah's mom until Leah's mom met the new guy.

Hunter suggested I go in and check on Leah. Leah's mom walked out of the house and it had been a good five minutes. I was in the room talking to Leah trying to find out what happened until we heard a scream. We heard Gracie screaming. I was out the door so fast running to the front of the house. Leah was right beside me.

.."Come on baby were going home" her mom was pulling at Gracie's arm

.."No mommy NO I don't want to go Please no mommy I want to stay" Gracie was crying reaching for me. I was about to grab her when Leah jumped in between her mom and Gracie. She told me to get Gracie in the house.

I wasn't leaving her though but when Hunter and Lilly came out I decided Leah would be okay. I took Gracie in to distract her from what was going on. Mark was inside with me. I told Gracie she could spend the night with us and we would stay up watching movies and eating junk food.

"what about our sing off" she was still crying a bit. She had beautiful blue eyes like her big sister. I loved this little girl. I loved kids I just never could think about having my own after the whole thing with Cara.

"Of course we will have a sing off Gracie but I need you to wipe those tears away because crying might cause you to lose a few rounds to me" I picked her up and turned her upside down tickling her feet. Mark and me were throwing her up in the air as she ran back and forth between the two of us. It was about 15 minutes before Hunter, Lilly and Leah came walking through.

â !."Leah Baby, don't worry about it I won't let your mom take Gracie from you. I won't allow it. By the way your sister staying with us. As you know I have plenty of room and bedrooms. She can pick which ever room she want's and decorate it." She looked so shocked that I just said that and I am not sure why. I told her before I loved her and Gracie. But she was crying kissing me. Atleast it was happy tears this time. I felt her pushing me into the bedroom and she shut the door.

.."Oh boy our boy is getting lucky " Hunter & Mark screamed. I laughed knowing exactly what they meant. I heard Lilly to tell them to shut up that they just ruined the cutesie moment. Leah was totally ready. She was biting my lips pushing me down on one of the bed's biting me lip.

â !."Leah baby wait wait" She didn't listen she un- zippered my pants and yanked my boxers down pulling me free. I cant deny that I wasn't ready. I sure as hell wasn't expecting her to do this at her best friends house. But I have one wild girlfriend, one amazing love. I have wanted her since I have seen her but I have done everything in my power to keep this beautiful,sexy girl waiting. Especially since I know she is a virgin. I love her but I just want to make sure she is ready. Once I have her once I take her virginity she in mine I couldn't deal with her moving on. I can't even deal with her finding someone else now but It will just be a thousand times worse if she wanted out later in life.

## Stranger To Love and Love Which to Fear

..." Babygirl oh my fucking god" Her lips were on my dick (Monster)Sucking hard. I know she is a virgin. She is new to it all outside of kissing. But damn for this being her first time doing this she was amazing. She didn't stop she was determined to have me and I couldn't fight her right now.

.." I love you Ryan" she spoke out as she started sucking even harder wrapping her tongue around me. She sucked on the tip of my head for awhile it felt great. She was playing with my balls at the same time as she sucked. I had my hands in her hair pulling her closer. I pulled her a little to close getting lost in how good she made me feel. She was choking a bit. I loosened up on her and then she got the hint. She started taking me deep in her throat. I know she wasn't going to be able to get me in all the way I was over 9 inches longs.

..." I love you Leah" I could hardly tell her I was about to cum damn she did a fucking awesome job. I was not going to be able to hold her off much longer from sex. Not if she was going to act this way.

.." I am going to Cum baby where do you want it" She kept sucking harder and she let her teeth skim over me lightly but it felt good it wasn't painful surprisingly.

..."Leah Baby did you hear me I am going to cum" She heard me she didn't care I went to lean up and she shoved me back down with her hand. Its not like I can't get her off. Believe me I am strong as fuck. But why would I push her off especially when she was making me feel like this good. I just leaned back and watched her. I felt her take me back of her throat and I lost control I felt my cum shooting down her throat. She swallowed it all. Not one drop escaped her mouth.

.."Babe you taste so good" She was licking her lips and crawled on top of me and pulled her skirt up. Let me remind you she didn't have panties I ripped them off of her earlier that day.

"Leah baby that felt so fucking good ! But let me make love to you home in my bed I promise please baby girl not here your friends are here" She was leaning over top of me and she just smiled"

.."Okay baby" she smiled at me and went to climb off of me. Oh she was playing hard now teasing me. I pulled her back on top of me before she could get away. I lifter her skirt up . I knew she was wet and turned on by me without a question. I slipped my one finger insider of her and slowly started pumping it in her . She moaned against my lips. She was trying to pull away but I wasn't letting her sneak away that easily. I pinned her down under me and pushed my finger deeper in her watching her wiggle beneath me.

..."I though so baby lets go" I kissed her and got up I left her laying on the bed with her mouth open.

.."Babygirl you might want to pull your skirt down before I open the door. Once your ready we can go back home" She was laying there looking so lost and wound up. I walked back over and kissed her pulling her skirt down for her. I picked her up and carried her out to the other room.

"Well well we were wondering when you guys would be done" Hunter patted me on the back and everyone was laughing. I put Leah back on her feet. As Leah walked over to Gracie.

â | "Gracie mommy's not taking you anywhere your staying with me. You never have to do anything without me got that monkey?" I could tell Leah was still upset and pissed the second she spoke about her mom. she had a long day well technically a long night -day and night-!

## Stranger To Love and Love Which to Fear

â !.....It was about 10pm

.. "Time to head home girls..To my house your new home" â !.....

## Chapter 19: chapter 19

### Chapter 19 POV Leah

Were here at Ryan's house. It's about 11pm and its so dark. I can see the beautiful lake lights glowing. It's been raining the whole ride home but it's still humid. Right now I just want to tuck Gracie into bed and get a shower and call it a night. I know I still want Ryan but I am most likely not going to have him tonight. Gracie is here anyway. I guess will have to figure out some type of schedule for the fun personal time between me and Ryan.

... "Leah baby I am going to go carry Gracie in don't worry about her bags I will have Jerry Bring them in for me. " I realized I had zoned out for a second and looked at Gracie asleep on us.

.."Babe I can get them they aren't that heavy my arms still works you know" He just laughs.

.."Yes I know baby. But I rather you not. Come here please. I step out of the limo and he scoops me up off my feet. He throws me over his one shoulder while still holding Gracie. He makes it look so easy I can't help but giggle. He pinches my butt.

.."Babygirl shhh I don't want to wake Gracie up. If I do she is never going to sleep without a sing off" He still holding me in the elevator. Once we get on the third floor he places me down. I have never actually been on the second floor. I never thought to ask. Maybe soon ill ask but right now I am to tired to hold a conversation and my arms still soar. I don't know why I have had so many asthma attacks lately. It's worrying me. I guess it best not to dwell on it.

â !."Leah what room do you want Gracie to have? "

"It doesn't matter to me Ryan it's your house I am just thankful to be here. Thank you for being here today and coming to my rescue. Along with everything else you have done."

..."Leah my love I will always come to your rescue and your more then welcome I love you Leah" Ryan walked to the guest bedroom closest to his. He went to set Gracie down on the bed and cover her up. Of course her eyes flung open.

.." Leah, Ryan I don't want to go to sleep yet.. But when I do fall asleep then you keep the door open tonight in case I need you..I can be a big girl and sleep alone sometimes. I feel safe here"

.." Gracie you can keep the door open and you can have a million night lights if you want. Leah can even sleep with you if you like. But since your up would you like a snack or drink before bed" Ryan really did spoil her.

.." What will it be for you young lady? Ictea ? Fruitpunch? Apple juice..Lemonade? & as for the snack, chocolate cookies, Brownies or ice-cream cake ? "

.." That's a lot of choices I don't think I am allowed.." She looks up at me. Usually I would sneak snacks into my room for her because James told my mom we "girl's didn't deserve it" I payed for it though so he was not going to control me in that way.

..."Gracie you can pick your allowed your not going to be in trouble" Ryan said to her looking at me to see if there was something he was missing.

## Stranger To Love and Love Which to Fear

" Monkey eat up " I smiled at her and gave her a hug as she snuggled up against my lap . She choose the fruit punch and chocolate brownie. I honestly didn't want anything even though Ryan kept trying to get me to take a bite of his brownie.

â !.

It was finally time for bed. But I needed to give Gracie a bath first. I used the bathroom that was in the bedroom which Gracie and I had our stuff in. Rosa the house maid gave me a fresh supply of kids bathing shampoos along with toys. I know Ryan had told her that we needed this stuff in case Gracie had ever spent a night with us. I was sure happy he did. Gracie was all sweaty from the fair. After she was bathed it was bedtime for sure. Ryan put on a movie for her on his big flat screen TV. This of course was in the guest room which Gracie choose to sleep in, along with our things.

I tucked Gracie into bed while she watched her movie. I told her I be in when the movie ended and I come in and check on her through out the night. I needed a shower. When I was walking out of the room to sneak into Ryan's room it hit me. Shit shit I completely forgot to call out of work. Rich is going to kill me. I was never late to work and I never just missed. This was a first of many. But That's when I saw Ryan getting undressed as I peeked my head in through his door. Ryan only had dark green boxers on. I tip toed up behind him. I wrapped my arms around him while standing behind him with my head resting against his lower back.

"Baby I missed work, I forgot to call out, look what you made me do. I am becoming forgetful." He was smiling. That adorable smile and I couldn't help but smile back. He turned around to face me and pinched the dimples on my cheek. Softly Ryan brushed his finger tips against my sides. I felt his hands cup my ass cheeks under my black skirt. I didn't have panties on but he still kept my skirt on me.

..."Leah baby" he whispered in my ear. I felt his hands dig into me again. He was lifting me up carrying me into the bathroom. He somehow slipped out of his boxers and I barely had my shirt off when he had us in the shower. His bathroom was heated. As soon as we got in the water was perfect temperature but he made it even hotter.

"Baby!! I still have my clothes on" I squeaked. He only used one hand to undue the hook on my bra and instantly he ripped my bra off. His lips were latched around my nipple before I could say anything more. I was pinned hard against the heated wall of his shower. His hands were holding me up I couldn't even touch the ground if I wanted to.

... " Leah my love I want to have you right now right here"

I felt him pressing against me harder his monster was way bigger then 9 inches maybe a little over 10 ? Defiantly 10 ! He was long and thick and I felt him and how extremely hard he was. I felt my insides turn on me. This is what I had been wanting and right now I am so scared.

His lips were so soft against mine which automatically had me distracted. His large hands were holding me tighter as he pulled my short black skirt up higher. That was the only piece of clothing that I had left on me. My legs were tightening around his waist when he decided to take his hands off me I slid down the wall a little. But don't worry I didn't fall. His strong muscular chest slammed against me leaving my hard nipples dig into him. They were so sensitive, oh so sensitive.

"Ryan have me have" His hands were busy soaping my hair up. I felt the hot soapy water running down my body god he is such a fucking tease.

## Stranger To Love and Love Which to Fear

"Please Ryan" I moaned as I felt him right at the entrance of my soaking wet pussy. My hands were massaging shampoo into his short brown hair. I was doing everything I could do try and distract myself.

He pushed himself up a little more letting me feel his hard dick. He didn't slide it in me though. NO not yet. The water was weighing my skirt down so he helped me pull it off. Then all of the sudden his lip bit down on my lower lip. I felt him pulling and tugging my lip and it started to felt numb. Slowly Ryan let me slide back down so my feet were on the shower floor. His soft large muscular hand's were on my hips as he stepped back to look me over.

"Ill be right back baby"

"No No don't leave me like this Mr" .

He grabbed me hard and pulled me tight against him. Ryan carried me to the soft sofa in the bathroom and dropped me... "Ill be back baby girl. Stay"

"Wait waa-" He was on top of me his tongue was in my mouth exploring and just as I went to dig my hands into his back he pinned my wrists to my side.

â !."Ill be back cupcake take a breather you will need it." He winked at me and waved a key at me then he shut the door and I heard it lock from the outside. He literately just locked me in the bathroom leaving me naked on his sofa.

It's been about 5mins but It feels like forever. I am just laying here impatiently waiting for him to return. That's when I hear the door make a click sound.

.." Leah baby come into the bedroom please"

I blush a little and smile to myself knowing he cant see. I crack the door open. Oh he defiantly can't see me his room is pitch dark. He is playing games. I will play to. I scramble to my feet. I decide I am going to make a run for it straight to his bed. But just as I am about to land he tackles me right and I land on the bed. I scream out and I begin laughing so hard.

..."Leah your so sexy and beautiful" Ryan's lips are all over me and sending shivers down my body. He is kissing me and creating a trail of soft pleasant kisses down my body. Between my legs, it getting harder to keep myself controlled.

.."I..LOVE..You..Leah more then you know. You didn't eat desert with me earlier. So now I am going to have desert. Then you can!. I was thinking chocolate covered strawberries? But first I need to do something" He lit a candle beside the bed then smiled wickedly at me.

I was laughing harder. I felt him reach into his dresser beside the bed. His body over top of mine. Was he really going to try eat something right now or feed me in the middle of such a hot moment..!

..."Leah I told you early I wanted to punish you for being so playful in the limo before the fair. I told you, I would have you. So this is how I want you right now. This is how I will have you because this is how I want you. I know you will love this Babygirl."

I felt his hands on the inside of my thighs as he slowly moved them down. I also felt something cold it felt like metal then it hit me his handcuffs. I went to sit up quickly but he was like a ninja. He had my legs spread apart so quickly and cuffed to the pole at the bottom of his bed. It was like ice against my ankle I wiggled my

## Stranger To Love and Love Which to Fear

feet a little but I already knew that I wasn't getting out of this.

"Mr your confusing me I thought you wanted me to have desert" I said it playfully and took it upon myself to smack his ass. He automatically grabbed my wrist and pushed them above my head.

.." Cupcake you had your chance to have desert now you have to wait while I have mine" He cuffed my wrists together then he had them cuffed the pole right behind my head.

"Ryan please just fuck me already your such a tease"

..."Leah I am not going to fuck you. Make love to you yes, but maybe not tonight we have Gracie right in the other room" I started biting my lip and he saw me.

"I guess your right but I want you I need you I won't be able to sleep if I don't get you"

.."I love when your this turned on by me Leah" His lips closed around my nipple again. While he squeezed my other boob in his hand making in soar as fuck. I moaned out a little to loudly and his hand covered my mouth but he quickly replaced it with his lips. I felt his lips pull away from mine and I tried to lean up to see what he was going to do but I couldn't see much. The way he had me cuffed and the dim light of the cinnamon scented candle did me no justice when it came to view.

I felt his lips softly kiss against my pussy. Then his tongue was exploring inside of me. I felt like bending my knees but I couldn't. His hands were pushing my legs further apart right before he allowed his one finger to slowly dip inside of me. I was out of breath. This wonderful feeling can't be explained. Just when I was about to ask him to kiss me I felt something round and cold being pushed into me. It didn't hurt but it was cold and felt strange. I knew right away it was the chocolate covered strawberry.

" Oh Cupcake you are so turned on aren't you"

I felt his teeth biting into me a little on my pussy. He was licking me still but then he pushed the strawberry a little deeper in. I cried out.

" It's cold it's going to get lost inside me if you keep pushing it deeper"

..."Leah baby your so tight. It's not even close to lost and it's sure as hell isn't in deep. It just feels that way. Its hardly in. I picked the biggest one I could fine just to warm you up to what will be coming."

He poked his monster Dick at my kitten and pushed the strawberry in bit more. I really wanted to wrap my legs around his neck or at least touch him to be able to put my hands on him. I couldn't though. My body was responding to his every touch and I just wanted him to have me. I felt him slide off me a little so that his mouth had the perfect attack on me. His tongue was swirling around inside me.

"Don't stop please don't stop babe" I screamed at him as my hips were moving to there own rhythm. Until of course he placed his hand on my waist making me hold still. He was biting inside of me now and sucking on my pussy lips. He switched it up by sucking on my clit and rubbing me at the same time. I finally felt him pull the chocolate covered strawberry out of me with his teeth. Ryan did it so slowly but he kept pushing it back in and out. I was so wet that you could here my wetness making noises.

## Stranger To Love and Love Which to Fear

.. "Oh baby I no have a cum covered chocolate strawberry. I have never tasted anything so delicious before in my life."

He was chewing the strawberry tasting me while fingering me. Once he was finished his tongue was even deeper inside. I felt his hand on my hips but he was allowing me to move them at my own free will. As soon as he released me my body went crazy and my orgasm took over me for then next 15 minutes I was in pure heaven. He didn't stop licking or biting however he did un cuff my ankles. The second they were free I had them wrapped around his neck. My breathing became a little calmer and before I knew it he was un cuffing my wrist leaning over top of me kissing my neck.

â !." Baby.. I can wait if you want or I can make love to you right now. Gracie is sound asleep in the other room. I checked on her before I came in. Do you want me to make love to you Leah? Or have you had enough for one night my beautiful cupcake? "

His eyes were full of hunger and want and I know mine were too. I knew my answer. He knew my answer. I wrapped my arms around his neck and kissed him deeply. Then I let my lips slip away from his just for a second..

"Make love to me Ryan I am ready please take my virginity please have me now and not a second later I want this with you only you I love you... Please have me. Be as selfish as you want with me I belong to you just you.. "

## Chapter 20: chapter 20

### CHAPTER 20

â !. I am laying here under him. Just waiting for him, my tummy is in a knot. I hear his heavy breathing. But barely because I am so wound up myself. Looking at him over top of me is only making my patience go down the drain. Doesn't he realize how crazy I am for him? I feel Ryan moving around on the bed reaching into a box. He grabs a condom out of the nightstand beside his king size bed. I hear him tear a packet open. I guess I forgot about "protection" fucking hormones..! Since I never did this before who knows how this will turn out. Maybe ill hate sex but then again It has to be decent since it is with him. I am happy he was thinking because I am certainly not on birth control.

..." Leah are you sure you want to do this we don't have to do it right now baby"

"Shut Up Ryan and just have me already. I am nervous clearly but I have been wanting you and this so please just..-"

His lips were crashing down hard on mine and I felt the fireworks going off. One minute I was talking and the next his delicious tongue is tangled up with mine. I would call it war but If we are both winning then it couldn't be. I was still trying to control my breathing from my current orgasm. How ever Ryan was right back to work. I felt his hands sliding over my breasts teasing me. He pushed my legs up and made me hold them. I felt his two fingers pumping inside me and before I knew it I was having another orgasm. I felt the tear and it was stinging. The more he did the more I felt pain/ pleasure . I only just recovered from my last one not even 15minutes ago. He was clearly trying to kill me. The struggle to stay still was unbelievable. As his mouth started sucking on my clit. While still pushing his hand into me non stop for a good 20 minutes. He leaned up for a brief second to see me shaking under him. I saw his sexy smile and it got me thinking.

" Don't stop please don't stop babe.."

That's all I could get out, the fear of him pulling away for to long or deciding to make me wait longer crept in my mind. I couldn't take it if he rejected me tonight. I automatically shoved him off of me putting myself over top of him . I don't know how but I went all "Green hulk on him, thank god for dance. It really did give me super leg strength. I tighten myself around him his hands were now on my hips. My breasts were full and sensitive nearly smashed down on his chest. Resisting his lips even for a second was so hard. But I needed to tell him that he was very much wanted by me right now.

" I want you youu--"

.."Cupcake relax your going to have me just like I am going to have you. But you can't be top Baby sorry that's my job " I felt him his hard monster rubbing against my kitten. He was long and hard and I was dripping wet. I couldn't have been more ready. I felt my legs go numb. He wrapped his muscular arms around me and rolled me back over so I was pinned under him. Ryan position himself between my legs. His eyes were playful. All I could see was an alarm clock and the burning candle beside the bed.

.."Baby I love you..close your eyes and enjoy this, if you need me to stop just tell me" His breathing was heavy and his words were space out. I felt his hand dip inside of me rubbing over my special spot just to make

## Stranger To Love and Love Which to Fear

sure I was really ready. I knew he was slipping the condom on at the same time. Out of no where he hit my inside harder then before and it had me wild. I felt my body reacting as I flung myself up at him but he had my hand pinned above my head.

" Stay still baby girl and relax. I am going to be as gentle as I possibly can, until you say for me to go rougher."

That's when I felt it his dick slowly entering me. I felt my body tighten around him and he was pushing in slowly. Everything inside of me felt different he was very gentle about his intrusion. Each long hard thrust made me want to claw the shit out of his back. I was biting his shoulder so hard I knew I had to have left teeth marks. His hands released mine allowing me to wrap my arms around his neck. I felt the burn inside of me it hurt but it felt so good. This is probably the only pain that mixes well with pleasure. He was holding back I knew that and I wanted him to enjoy this. I wanted our first time together not to just be about me since I am a virgin. The desire he had to make me feel amazing was the same I had for him.

"Harder please Ryan harder"

..." Leah your so fucking tight baby -.. God this feels so good it feel so perfect being inside - .. your so beautiful baby.. and your all mine"

He automatically picked up the speed thrusting into me harder with each thrust. Deeper and deeper he pushed and I felt myself tear inside it was so painful. His hand were caressing my boob's as he leaned down tugging at my hard nipples. I Finally got my hand into his hair and dug one of my hand into his back. He moaned my name and he slammed into me really hard. I held back my tears squeezing my eyes together and moaning into a blanket. I some how managed to pull it to my face. Biting the the soft fuzzy blanket saved me from having a bloody lip. He was getting more freaky and I was loving it. I am not sure how long I could keep from crying out like a baby. But for this moment I kept my tears to myself.

" Oww owgh owgh owgh " Fuck I didn't mean to scream it out loud. I didn't want him to stop no no !

..."Damn Baby I don't want to hurt you but god this feels so fucking good" I felt him starting to ease up on me and I dug my hands so deep into his back and slapped his ass playfully. Ryan's face was full of love and concern but I didn't want him to be easy on me.

"Don't you dare even think about easing up on me babe. I can handle this please.." I was shouting out between my cry's and moans of pleasure and stinging pain. He just looked like he was going to stop but I guess my plead was heard. He dug his teeth right into my neck and lifted me off the bed slightly while his hand grasped my ass. He quickly pulled my legs over his shoulder titling my body up slightly. Never pulling out of me completely. He slowed down the speed but each of his thrusts inside of me made up for it. There was no need to beg he knew exactly what he was doing. Slow and deep pushes had me on the verge of another orgasm.

..."Hold on baby don't you dare cum again not yet things are just getting good love" Ryan lathered up my nipples chocolate from the strawberry. He managed to multitask while still thrusting inside me. Once he smothered me in chocolate he began sucking and licking me like I was his last treat. Slowly Ryan let my legs slide off his shoulders while still exploring my tight inside world. That's when I felt him lift me slowly and he pushed one of his finger between my ass just teasing between my cheeks. Surprisingly it turned me on it was a little weird but I was open to it all with him. Ryan was trying to explore as much of my body as he could and I wasn't about to stop him. The thrust and speed was picking up again as he pinned my body back down on the bed beneath him. His final push was so deep as his teeth were digging into my breasts it sent me overboard. I knew he was beyond ready I felt it by the way his body tensed up.

## Stranger To Love and Love Which to Fear

..." Cum for me now Leah, come on baby " I was so happy he said it because I really couldn't hold back a second longer. I was all moans and tears I was drained completely. The sex lasted about 45minutes god was it good. Everything was perfect my legs felt like jello. It was as if I just swam a 20 miles race because the cramp in my leg was so bad. Everything in me felt so good,different and new. Throwing myself at him felt so right and he tighten his hold pulling my side tightly pressed against him. He was squeezing my leg ass kissing me deep and I was trying to get get rid of the cramp building in my leg. Ryan seemed to notice and immediately shifted around so he was back by my legs massaging my aches away. When it left me he kissed me even more passionately. I felt the burn between my leg and new I would be hurting in the morning. I know he didn't push all of him in me but I got a good amount of him in me I was pleased enough with him.

Ryan told me to lay still and close my eyes. I felt him rubbing warm vanilla scented lotion all over me. He started at my feet and I giggled softly because I was so ticklish. He bit down on my big toe and kissed up my leg to my pussy. Pressure was building up again I wanted him to have me again but I knew my body couldn't handle it right now. I was struggling to keep my eyes open. Ryan returned to massaging my legs up my tummy. He didn't miss a spot. My arms were beside my head while he sucked on my nipples one last time before turning me onto my tummy. Ryan's trail of kisses lead straight down to my ass and he took a large bite into my ass. I pushed my butt up at him and his big hands were going wild along with his mouth.

..." Your body is so beautiful and your ass is so perfect I could go crazy with this"

Ryan's had a playful serious tone when he spoke his words. My heavy eyes were becoming weights on me I just couldn't fight the sleep that I so desperately needed. I swear he spread my ass and let his tongue explore before I zonked out but I didn't have the energy to ask him. To be honest I didn't care what he did to me. I would never say no to this man not after tonight not after everything he done.

â !..... It's 6am in the morning and I am looking out Ryan's huge window which is on the far left side of the room. I can see the sun shine peeking through the window. I wouldn't have been awake if it wasn't for his alarm clock going of...

"It's getting hott in here so take off all your clothes I am getting so hot I want to take my clothes off" I couldn't control my laughter. I had tears rolling down my face. I know I was overly tired. He rubbed his eyes and leaned to the right side of the bed and smacked the off button.

â !."Sorry baby he said and oh by the way Good morning cupcake how did you sleep?" His arms tightened around me and his lips pressed down on mine breaking off my laughter.

"I slept wonderful I am still so tired and soar though I can't even feel my leg's everything feels so sensitive babe"

.."Well I am glad to hear that baby" His wicked sexy smile told me he was up to something. His hands pulled min in closer and he pulled the blankets over us and crawled between my legs. Ryan mouth was licking away at my pussy and sucking so hard on my pussy lips that I was instantly wet. Man he wasted no time. He didn't push his fingers in me he just used his mouth. It didn't even take 5 minutes before I was screaming his name. Cum was all over his face face and mouth but he kept going. He licked me off until I was crying like a baby into a pillow begging for him to let me catch my breath. That when Ryan decided to come back up and rest his head on my breasts. I just ran my hair through his short hair and whispered to him.

"I love you so much" he wrapped his arms tight around me while laying down on top of me.

â !." I love you more baby girl"

## Stranger To Love and Love Which to Fear

We drifted off to sleep for another hour or so. I woke up to him kissing my neck. I hear bath water running and I smiled at him with questioning eyes. Pointing to the bathroom. He smiled at me and reached for my my body.

..."Good morning again baby he said, I filled a hot bath for us. Figured we could use it before we start out day"

"That sounds lovely babe" He scooped me up off the bed and that's when I realized what a mess I had made. Blood was all over the sheets. I turned my face away and covered my eyes remembering that he just ate me out only a bit ago.

"Don't worry about it baby we can get new sheet's. No issue with that at all besides I have a ton and I am happy that there is blood on the bed. I did something right if there wasn't then I be disappointed with myself. By the way you taste amazing blood or no blood .No need to get all insecure and embarrassed cupcake. I love you."

He placed me into the bathtub with him and the water was so hot but refreshing. We laid in the tub for about 45minutes soaping each other up kissing. Staring into one another blue eyes. When it was time to get out he picked me up wrapped one huge towel around both of and carried me to his bedroom and set me on his huge black dresser. He pulled out two pairs of boxers sweatpants and a t-shirt for me and a muscle shirt for him. He helped me dress into his clothes and when we finished he left me with a kiss.

.."Time to check on princess Gracie he said" We tiptoed into the bedroom seeing that she was still asleep it was about 10:30 am she should be waking soon. Rosa was in the kitchen making a big breakfast. Finally we heard Gracie little voice as she let out a yawn Ryan picked me up over his shoulder and walked us into the room with Gracie. He plopped me right down beside her and curled up on the side of me.

..." So how did you sleep Princess Gracie? Like your new room? I think you and Leah need to go shopping with Lilly and decorate" Gracie leaped over me and gave him a hug.

.."I love this bed and I never want to leave and can we go shopping today please please. I never want to go home this can be my home forever. Please keep me with you guys ill be good I promise "

..."Sure you can and Gracie your always welcome here this is your home now too as long as you want it to be.I would never make you leave. How ever you do have to get out of bed we have a very big breakfast waiting for us and Rosa the cook would like to meet you. I might of told her how much you loved baking so she wants a helper for tonight if your feeling up to the challenge"

I was smiling god he was so perfect with my little sister. I can imagine how much he will spoil his own children. We walked to the kitchen and all sat down talking and laughing. Everything seemed so perfect and right. Everything always seemed perfect right before something bad came along. I only hope that this happiness last a little longer they 24 hours..

## Chapter 21: chapter 21

(Prewview of this chapter) Things can only go so well until something manages to screw it up. I love Ryan i love how he touched me and staying at his place.It was perfect for three weeks just three weeks, Here i am working I don't know if i am crazy or if this man really just saved me from that blow. Him out of all people. There something wrong with this picture something.. is defiantly off. Since when does he care or care to protect me. He not drunk.. something has changed..but why ?

### Chapter 21

It's Sunday, and it's about noon. Here I am with two of my favorite people Gracie and Ryan Heading to the mall. Were suppose to be meeting up with Lilly to go shopping for things to decorate Gracie room. I am still so soar from last night. My body hurts in all the right ways. I can't deny how amazing it was. I couldn't have asked for a better first time. Ryan will always have my heart. At least that how it feels. I haven't even spilled the details to Lilly. I know she will be beyond happy for me. As for the boys they have been waiting for this day to happen. But they always teased me because I kept myself to myself. They will be blown away to hear I am NO longer a virgin. Should be interesting to see their face's when I hit them with my word's.

I haven't spoken to my mother since our blow up the other day. She claims to love Gracie and I so much yet she runs right to James. I don't know why she protects him or what she sees in him, ill never understand. I haven't heard any news on Adams where about's. I just know my mom was most likely running home to take care of him because James called her freaking out. I never got to tell her the whole story of what happened. Just when I was about to she told me she had to go. I am pretty dam sure that Adam told his dad. They wouldn't tell my mom, at least not the truth anyway.

.."Lilly Lilly"

I hear Gracie shouting from the back seat of Ryan's Black ESCALADE. I was in the front seat next to Ryan. His one hand was resting on my leg rubbing it throughout the car ride. He is an excellent driver I know he likes to drive fast. How ever he drives extra careful especially with Gracie and I in the car. When we parked in the spot Gracie was struggling to get out of her seat. She was more then happy to be free from her car seat. Lilly was holding Gracie asking her if she was ready to shop. We stood by the car a few minutes waiting for Gracie to get all her excitement out. Ryan's was holding his arms around my me kissing my neck softly whispering to me.

.."I love you baby girl and were buying clothes for you today and things for you as well". I went to shake my head no but he turned me around so quick and kissed me. I felt like melting in his arms his soft powerful kiss always left me feeling so defeated.

" I am okay Baby I don't need anything--" He didn't even let me finish he smacked my ass really hard and scooped me up in his arms.

..." Cupcake your getting things either way even if I have to give money for Lilly to buy it for you. If your going to be so stubborn. So tell me do you really refuse to pick things out for your self ?I know Lilly knows your style. She would do a fine job at it so stop avoiding me buying you things I am doing it either way."

"Ughh not fair Mr put me down I have a dress on "

I smacked his butt playfully. I had a short white sundress on that covered just above my knees. My cute white flats along with my hair all naturally wavy and falling over my shoulders. My eyes were really blue this morning I only applied eye liner mascara it really made my eyes pop.

## Stranger To Love and Love Which to Fear

â 1.. We walked around the different stores at the mall and found Gracie a lot of things. New bed comforter, Clothes, Cute posters and a kid desk for her to put things on. Along with her own individual Wii and karaoke machine which he bought her. We stopped for lunch and that's when I really got to talk to Lilly. Ryan had taken Gracie to play some games while we waited for lunch to be served.

.." You finally did it? How was it ? Did it hurt did you enjoy it are you going to be a freak now in bed"

Lilly just kept the questions coming.. She was so happy for me. Lilly told me she knew I would do it soon enough . She was just waiting for me to come to her with the juicy details. I couldn't help but smile. Of course she was the first person I would tell and of course she knew. She was like my sister she knew everything...!

After we got done lunch I did some shopping. I found a couple dress's and a handful of cute shirts and skirts. There was a decent amount of yoga pants and shorts that I loaded up on. I got a couple bikinis but didn't go to crazy yet. After all summer was just around the corner. Once we finished up we all went back to Ryan's. Lilly followed behind us and we had the boys along with Mark's (Girl of the month) meet us there. It was probably about 4ish when we were all settled inside. The guys were helping us decorate Gracie room while running back and forth watching some car movie. When the room was completely finished Ryan told us he had a surprise for us girls. I really had no clue where we were going,. We walked to the second floor which I had never been inside of. Being the door was locked and sealed tight.

I knew Gracie knew because he and the boys led her off with Rosa to her bedroom. Rosa told us she be right down with Gracie I tried to ask Gracie but she just smiled and ran away from me. She was protecting her boy's and not spilling the beans. The boys made us close our eyes while they left us to check something out. Appertantly Ryan had something to "show and tell "

When they came back I didn't get a chance to look. Lilly and Marks "girl Lauren " and I all had our backs turned. I had tried to peek but Ryan's hand's were instantly covering my eyes . When we entered the big secret room I heard the splash of water and I knew right off the bat. POOL. Ryan instantly had me in his arms. Mark had already got Lauren in. Before I could run me And Lilly were both being picked up to get tossed in to the pool. I clung To Lilly hand. How ever I was quickly torn away. I didn't release my hold on Ryan. I was laughing so hard I had to pee begging him not to throw me in. He just smiled and said okay. Instead he jumped in with me holding me tight against him.

We were in the pool for about 5 minutes before Gracie came down. She was laughing at me my white dress was floating up. Ryan had his strong grip on me and my dress keeping it down.

"It looks like a jelly fish" Gracie said while jumping right into Mark's arm. Mark had releases his hold on Lauren just to catch Gracie. Mark and Gracie were best buds when it came to playing tricks. We were in the pool for about a half an hour Before Rosa came down to tell us that diner was ready. She had brought us all down hot body robes to slip into. I went to walk into the bathroom alone but I seen Ryan watching me. Staring at me while I walked into what I thought was a bathroom. It was a bathroom in a way but there was another door locked and I had no clue what was beyond it. I saw his oh so sexy grin and a hard slap right on my ass.

"Owwww babe couldn't you just give a fair warning I know my ass has your attention and it's hard to keep away. But for the sake of my now rosey red ass give a girl some warning"

## Stranger To Love and Love Which to Fear

Everyone was walking out to go sit on the porch on the first floor for the BBQ diner. Ryan left with them to show them the way. How ever I was still trying to get out of my now soaked sundress. I forgot to lock the door. I had not clue Ryan would return. I should have known that though. I had my two hands on the wall holding me up for balance as my dress dropped to my ankles. I went to step out of it and I felt Ryan's hands wrap around me.

..."Baby your so beautiful I want you right here right now"

His hand slid right between my legs and I allowed for one of his fingers to enter me. Then I tightened my legs around him keeping his hand still between my legs. His fingers was pushing against my special spot. I felt his lips kiss down my naked exposed body. His teeth brushed against my vagina and then he took a bite into me. I kicked off the dress letting it fall free from my ankles.

"Hold still baby girl"

Ryan's quickly pulled my legs over his shoulder. His tongue was swirling around inside me. My soar parts became so sensitive to his touch .I felt him standing up as his hand slipped up to my breast. I never liked heights and Ryan was tall. He had my back pinned to the wall as my hands were against the wall. My eyes were closed tight. Mainly out of fear and pleasure

"Let me down-- let me-- down please -please.. Babe"

His tongue was going deeper then ever before. All my screams escaped my mouth. Tightening my legs around him was the only thing I could manage. But I was panicking the longer I was up there. I felt the tears building up and pouring down my face. Next thing I know his hands were on my hips lifting me a little higher until I was off of his shoulders. He immediately pulled me back down and pushed me down on the floor hard. But gently enough not to hurt me. Kissing away all my tears was his only concern. I tried to hide my face. I didn't want him to think I didn't enjoy it. When I really did. But my fear of heights gets me every time no matter where I am.

..."Baby I am sorry-i am sorry- "

I quickly slid out from under him. I think he thought I was trying to avoid him all together after holding me up like that. But I climbed right over him and straddled him and let his large monster have the opportunity to enter me. Seeing that he was still confused I took it upon myself to have him. I lowered my body so he was deep inside of me. I started riding Ryan so hard that I never wanted to have to stop. I knew my body couldn't keep it going forever but right now it felt so fucking good.

â !..."Leah baby---Leah-- "

Him moaning my name had me so ready. I knew he was so ready to cum but that's when I realized once again that he didn't have a condom on. I think he forgot because once I started slowing down he just kept me going thrusting himself up inside me harder and faster each time.

"Ryan-- OHH ryan"

## Stranger To Love and Love Which to Fear

His hands were pulling my wavy hair and bringing my face closer to his. He was such a tease keeping me so close yet so far from his lips. Everything felt so different on top. It felt so much deeper. My legs became jello like but I wasn't ready to stop. I Ryan was picking up on the speed as he squeezed my nipples between his fingers making the veins in my boobs feel like they just pop. The final thrust of him inside of me sett my orgasm off. It feels like each time I have one it becomes more powerful and weakens my body a whole lot quicker. In a good way though. When he pulled me off and laid me on the floor next to him I know he needed to cum. Without even asking him I climbed on to of him and I started humping his mouth with my pussy. I had my lips locked around his dick taking his long hard delicious taste into my mouth. I felt my wetness flooding out of me and going all over his face. I didn't care though it felt so good man it felt amazing.

Three weeks later

â !..... It's been about three weeks since my first time and I have yet to go home. I never got in trouble for Missing work that one night at the bar which makes me happy. School and work really have been keeping me on my toes. Gracie has been spending a lot of time with my bestfriends and Ryan while I am working. Life seemed to be okay at the moment since I managed to escape my real home for this long. I knew it wouldn't last forever. Shit was going to hit the fan eventually. Unfortunately eventually had to be now. I didn't know when to expect a call I just knew I would be getting one eventually...

Its Saturday Night I am working at the club serving drink minding my own business. There only a handful of people in here since were about to close. I don't really care to be here tonight after me and Ryan's first REAL argument. I was completely focused on serving drinks to the guys at the bar until I seen my boss friend hit some girl that was quickly yanked behind a curtain. I had a flash back of the events that had taken place. The Van which contained a scream and a face which I couldn't identify. As well as the night at the fair with the younger girl Sofia who almost got beat by her boyfriend. Then of course my own situations. I still am struggling to remember if I was just to drunk the night I was almost "yanked up the stairs to have things done to me by Rich friend" I can't be sure if it was real or if I imagined it. I still get scared when I think about it but I don't tell anyone about it. Ryan knew and he was the last person I wanted to talk to about it with especially now. Everything was driving me insane and I took a shot before I made my move. Why is it that men feel they can just lay their hands on us woman? How would they feel if we did it to them?

Without thinking I grabbed a glass of water marched over to where the guy had led the girl and tossed the glass of water on him. His face turned bright red and I think he was going to knock me to the floor if it wasn't for JAMES. Yes thats right "James"

"Ass-whole" I had screamed at the man and pulled the girl to my side she had to be about my age. I could see her eyes begging for me not to leave her and I wasn't even planning on my next move but I knew it didn't involve me leaving her there. I never would have thought James would be my "hero" not for any moment not any day or night but he sort of was. The girl jumped behind me and I put my hand up so that the man couldn't grab her. James jumped in front of me and pushed the guy back in his seat. I guess he gave him the "You TOUCH her I fuck you up look" because the guy just remained seated. I never planned on James being here I haven't seen him in three weeks. It's shocking to me that he not drunk. It's an even big shock that I didn't know he was here. He couldn't have been here for long there no way. The guy was eying me up hard core. I had short black shorts on and hot pink strapless top that revealed my tan body . My hair was pin straight with of course a hot pink flower in it. James turned around grabbing me by my arm leading me away from the tabel.

## Stranger To Love and Love Which to Fear

..."Leah what the fuck are you doing you don't just go up to a man and throw water at him especially not him you got me now go back and apologize"

Since when did Jame's ever care about anyone else or respecting someone for that matter. I was not going to say I was sorry to a man who just laid his hand on a girl. Fuck that. I had my arms on my hips I was really fucking pissed tonight was just one of those nights where nothings makes sense....

## Chapter 22: chapter 22

### CHAPTER 22

"I am not sorry for throwing water at you I am sorry that you feel it's okay to put your hands on a girl. James asked me to apologize that's the best I have for a man like you."

I stormed off to the counter so quickly after I got those words out of my mouth.

"!."Fuck Leah what was that about? " Brie spins me around not understanding what happened. I explained the situation to her real quick and she just gave me a look like I wasn't suppose to be mad at that mans behavior.

.." Leah you can't just walk up to some man and throw water at him especially him. You don't know who your fucking with. You can't protect everyone!! I Know your trying to do the right thing but you need to be careful. Next time just ignore it your better off. With that she says bye and heads out the door along with everyone else.

I storm off once again and I just grab my jacket and bag. I want to get back to Ryan's house and just shower and sleep. I am just going to sleep with Gracie tonight in her bed. I checked my phone earlier and I seen his text to me but I never replied. He was probably going to be mad at me for taking my car instead of getting driven to work by his driver. Ryan's protective over me and I really do love him. Lately I feel so shitty though . The warm weather doesn't cure all of my problems no one does. His company and his love means everything to me it helps me. But I am still the same Leah and I have my issues. My brother is still gone and his birthday just passed a few days ago, I really miss my father it's been three years and I still have no clue whats going on. I just want things to be right but that's asking to much.

Ryan is upset with me because of the other night. He caught me forcing myself to throw up. I though he and Gracie were still on their walk but I was wrong. I had no time to hide what I was doing. He isn't stupid. He wanted me to promise that I never do it again but I couldn't .When I get stressed I am not hungry. He been trying to shove food down my throat and so I please him by eating it. Then I please myself by getting rid of it when I am meant to be on my own. I realize I have an eating disorder but I have kept it hidden pretty well. Nobody needs to know about this and especially not him out of all people .

I haven't technically spoken to him since last night . He had already left for work when I woke up. Rosa and Gracie were in the kitchen having breakfast. Rosa really enjoyed Gracie company. I left her Grace instead of dragging her to Mark's mom house early in the morning. Jerry and Bob always were chasing after her when Rosa had things to get done. Everyone loved her and I wasn't scared to leave her with them. I knew she was well taken care of.

.. "Leah damn it I told you to apologize not say what you just said and then storm off over here and make small talk with that girl."

James tugged me by my arm leading me towards the hallway to the the elevator. We got to ground level as he walked me to my car or should I say pushed me to it like he was rushing me away. He was all panicky and pissed. Honestly I don't have a clue why he protecting me or trying to. James put his hands on me before. Why did he care if the other guy got a hold on me wouldn't that make him happy. Or maybe he just a controlling bastard. Maybe James only feels he has the right to hurt me physically when he mad and drunk-doped up.

## Stranger To Love and Love Which to Fear

.."Leah he may have been wrong in your eyes. But your an idiot for getting involved in something that had nothing to do with you. You had no reason to do what you did. You don't know the situation and you just made shit worse. Now I have to go kiss his ass because you dug a deeper hole for me. Can't women ever just stay out of things? Do me a favor and get out of here Leah! Don't come back here until you hear other wise. Whatever you do stay away from that here and these people you hear me girl? Get out of here NOW!"  
"JAMES your scaring me your making it sound like like the man is some---"

..."LIKE I am some what ? What do you think little one or should I say Leah Rose Flame? By the way the man being me I have a name it's Mr.FLAME. Weird right? Anyway James I have a new idea"  
He turns to James slowly and out of no where he gets a grip on my hair and pulls a little to tightly bringing his teeth to my neck.

"Oww oww get off of me JAMES HELP"

..."Hey You know it only took me about a few minutes to realize what I want James. You haven't exactly been the best worker lately, your distracted. Perhaps I need to be repaid other wise.

.."Let her go Mr. Flames I will have your money along with everything else we talked about you don't want this bitch anyway. Believe me she nothing but a fuck up her mother is fortunate enough to have me. I had gotten rid of her trust me she a downgrade you don't want this."

..." No James you are wrong. She is not a downgrade she would be an upgrade in my business. Your just a selfish fuck and for that ill put you in your place. Also how dare you talk about this beautiful woman like that. It's as if we have lost our manners for our new employees. Let me remind you what happens when you try to pull one over on me. Or try to fuck me over. I always win I never lose but you do and they do ! With that being said.."

James was pointing to me like I was just some thing that doesn't deserve to exist. I have tears in my eyes I am about to have a melt down I know it. But before I can even say anything I see Mr Flames swing at James. James is on the ground knocked out cold. My heart it racing I am on my knees next to him crying tugging at his arms. I see the blood dripping from his nose and mouth. I feel a painful kick in my side and then I feel Mr Flames yanking me up by my hair off the ground.

.." Get up and get out of here he is fine. I did you a favor and eventually you will return the favor. I am letting you slide for the night. Now get lost and don't speak a fucking word or else your little sister Gracie Flames will be the youngest to ever be so broken in by me. I don't like young Baby but if the chance of me taking your little sister keep you quiet then so be it. I want what I want!!1 You brought this upon your self. Play by my rules and you might manage a life after a life. Now GET THE FUCK OUT OF MY SIGHT AND NOT A WORD TO ANYONE I WILL KNOW! You got a minute to get out of my sight before I change my mind about letting you walk away so easily. The count down starts now 60-55-30-25 "

I scurry to climb in my car as quick as possible he is at 10 before I slam the key in and . I am speeding off out of the parking garage with my door barely shut. I hear the thunder and the storm is getting bad rain is pouring down.I make a couple of quick turns here and there not even paying attention to which street I am on. All I know is I am on some dark street and I see headlights behind me.

I don't recognize these roads but I know there is some truck right on my ass riding my tail feather.. !I don't even know what to do if I slam on my breaks I will get hit. This is all happening so fast I am crying and struggling to catch my breath. I feel a slight tap on the rear of my car then another one I swerve and slam hard on my break. All of the sudden a horn goes off and big bright head lights are blinding me from in front and behind my car. I feel so small like this is the end.

## Stranger To Love and Love Which to Fear

My hands have no control my car is spinning in a circle and all at once I get slammed. One truck rams me from behind hard then back off. Just as I open my eyes I see the headlights and the truck is heading right towards me from the passengers side. It slams the side of my car and my car immediately flips over and I am trapped in my car. Everything is black I just hear rain and thunder. The water is rising I feel my clothes becoming soaked this street is flooding. I can't move I am helpless.

"Help Help please " I cry out I see a small light flashing in my face.

.. "mmm Leah, Leah, Leah, you weren't quick enough and I just wanted you to be sure that I am nothing but serious when I say you will obey and listen to what I say. I call this a good example !Much much worse will come if you choose to go against me. Sadly I can't sit here and grieve over your tragic crash but you will be saved soon.

He reaches his hand in and places my phone in my shirt. He doesn't help me though.

"Let's just keep the story simple you were drinking a bit to much and you lost control of your car. Ill be seeing you soon my dear. Enjoy your company they should be here in about 15 or so your boyfriend been calling your phone very concerned. Seems he is tracking you down right now. It about time I mean you been done work for about 3 hours. Time.. time, well this is good bye for the moment I have some bigger things to handle. Try and hold your head up I don't want anymore scrapes on that pretty little face of yours. Your the next in line."

"Help me please HELP ME SAVE ME SAVE ME" I hear a girls voice she screaming & then silence.. all I hear is my own crys. He walks away.. I am alone.

I feel the water rising and I feel weak. I know its only been about 5 minutes since Mr. Flames left me but I am scared and I can't feel anything I feel so numb. It hurts to breath. I can feel the dry blood and taste it in my mouth. I can't keep my eyes open anymore. That sick man doesn't have to worry about be telling a soul I wouldn't even if I could. But I feel like I am laying in my death bed. Upside down smashed down on a street flooded in water. I am going die he just wants me to keep myself waiting feeling this pain having hope.

Well I have no hope and everything in life is upside down and twisted. Pretty much like my position. So much for dance for a future, family, my love life..so much for any of it. But my last thought is don't give in to death not here not like this. Gracie, she needs me I need to fight. Nobody else needs me but she needs me.I can hardly move but I manage to click my seat belt and it flings off of me. I fall right down my hats hit the water that is inching closer to my face.

"Help I scream and cry out"

I feel like if I move the glass will cut into me. I stay still thinking about being an idiot. I am screaming to no one. I can't be heard especially not over this storm. My phone is now drenched in water. I doubt I have signal .I can't be tracked not in this storm no way. Before I can cry anymore for myself I hear screeching tires and I see blinding head lights..

Someone coming to save me I am being saved I am being saved...

BOOM...Crash. Slam right into my car. The car spins once more and I am screaming. SCREAMING bloody murder. I am not being saved no this is it I was so wrong. I feel glass digging into my hand. I have no energy to fight anymore this is it.. it really is over for me. I can't cry I can't be here for Gracie I am as good as dead. I hear door fly open I see a streak of lighting in the sky and I hear Foot steps. They are splashing way closer to me but I dare not to look I cant look even if I try. I love, I love you daddy, Max, Lilly, Hunter, Mark I even love you mommy whisper in my last words I love you Gracie I am sorry for this..I barely have got in me to say manage these last few words. But I hear tons of vehicles pulling up. There is so many muffled voices a bunch panic in them but all of them I cling to v Ryan's voice.. !

## Stranger To Love and Love Which to Fear

Its closer and I feel his warm touch against my cold body. I am shaking and shivering I am so cold and I feel helpless. I hear people breaking the car apart I know they are trying to get me out but its hopeless. All I can choke out is "I love you and I am sorry"

â !."No baby no stay with me! Don't you dare close your eyes. Keep your eyes open Leah. Look at me baby look at me. I love you your going to be okay. I am here I am not leaving you your not leaving me."

He some how manages to slide in through the broken window his lips are hard against mine. My heart is racing and I just feel pain I taste the blood in our kiss. I pull back as much as I can trying to avoid his kiss for his own good. But he doesn't let me and I am not exactly in the fighting my position. He deepens the kiss distracting me from the true pain I am in and whip lash. Boom just like that out of out of no where the top of the car is pulled right off and I am immediately in Ryan strong arms. He hugs me so tightly but enough not to do anymore damage then what already has been done. I don't say anything I just cry and I see a bunch of blurry faces and I hear loud noises but I am fading out and once again everything goes black.

"Help, Help Please help me" The voices the voice of a stranger stuck in my head.

## Chapter 23

Chapter 23 Everythings dark. I can't think about anything but I feel sharp pains. The noise around me is trying to cave in. Some how I am managing to keep it distant. Memories are flashing through my mind at such a rapid speed and all I can do is scream out. It hurts so bad to know and here I am alone with my thoughts. It taunts me everyday since. I have yet to sett foot outside of Ryan's house. It been about a month since the big accident and here I lay in bed. I have no major physical injures. I don't know how I got so lucky to get away with so little damage. Yes I got slammed pretty bad and cut up. I have some deep scars from the glass that dug into me. I had a concision I was out of it for a good week maybe a little longer but I am okay now, I think. At least that's what I have been told. I some how manged to not break anything beside my right arm. Some might say I was blessed but emotionally and mentally I think I prefer to be dead. There nothing worse then waiting just waiting on Mr Flames words to come true. I cant hide forever. I cant stay in Ryan's house forever. Certainly can't keep Gracie locked up eventually he will get what he wants. Maybe it doesn't have to be as bad as I am making out to be. He just needs me to work for him clearly he is a very serious man. I can be just as serious. There has been no words between me and James all I know is we are both alive. I need to speak to him I need to know more, I need to be prepared. There is no asking Ryan to save me he can't know. I don't say much to anyone. My excuse is I am in pain or my head hurts. It's the only safe solution until I figure this whole mess out. ... "Leah Leah help" I automatically jump up out of Ryan's bed. Everything now has me on my toes especially when it comes to Gracie. I realize I am safe when I am with Ryan. I know he is an FBI agent and has his own business making weapons for the forces. He has got a lot of skill. How ever he doesn't have the time to protect me every moment. He would but I can't ask that of him. I don't want him to baby me or grow to hate me I just want him to love me and Gracie. I will do whatever I have to to keep the danger away. Even if that means working some unknown job with Mr Flames. As long as I come home to My Gracie and see she is fine I will do what I have to. Once I please Mr. Flames it will all be behind me. It cant be forever, its just a job! This is what I am telling myself this is what I want to believe. "Princess I am in here whats wrong" I capture her in my arms and I see that her arm is a bit swollen. â !.." I got stung by a buzz buzz a bee a wasp a something. It hurts help" She crying into my shirt as I pick her up in my arm. Just as I am about to lift her up Ryan come running in and scoops her out of my arms. ..." Baby you shouldn't be lifting anything or Gracie yet just give it a little more time. As for you little one I have medicine for that sting go sit with Leah on the bed" Ryan disappears into the hallway but return within seconds. I love watching him I love how he treats me and Gracie. He pulls the stinger out of her arm and gives her a cold ice cream cone to keep her distracted while he cleans her arm. Here I am sitting with Gracie between my legs hugging her. I only have Ryan's boxers and t-shirt on. The windows are open and the sun is shinning though. It's probably close to noon. After he Handels Gracie sting he takes her to see Rosa. Apparently Rosa and Bob and Jerry are having a pool BBQ day. A hot bath seems like a good idea for me. Closing the door of the bedroom I strip out of my clothes. I turn the radio on in the bathroom letting the hot bath water fill up. Sliding the robe around me I tie I loosely. I cant help but look into the mirror. The bath water fills up rather quickly. I pour a little bubble mix into the water and then I hear the door creep open. Before I can turn around I feel Ryan's big firm muscular hands cup my breasts. His finger tips trace down my breast to my sides. Slowly he loosens the silky robe as he fingers my nipples. "Baby I - I love you I need a bath" ..."I know you want a bath princess do you mind if I join you" His playful tone is alarming and I automatically turn to face him. "Not at all babe" I slide my hand into his hair and tug at it a little as he picks me up and I wrap my legs around him. His moves are quick and he has me pinned against the bathroom wall. His hands are no longer around me he my leg are just tight around him. Ryan tears his shirt off and quickly steps out of his boxers before smothering me in intensively hot kiss .."Leah baby, I don't know and I can't even begin to imagine how or what I would do without you. I love you so much. I need you in every way." "I know I am here though so no worries and I am alive. Can we please not talk about that night. I love you and I am here I will always love you no matter what. Now lets get a bubble bath baby pretty please I need to relax" ..."Okay babe but there is still a lot we have to talk about there is a lot of question people have. Alot of questions I have. I know you don't remember much and I know you will talk when your ready. But If you could be ready sooner then later that would be more helpful. "Babe.. I am sorry I

## Stranger To Love and Love Which to Fear

just I don't.." ..Look Leah I don't want to stress you out or for you to get upset. Will take this case slow. But I know for dam sure that was a hit and run and I am going to find out who it was. You say you don't remember faces or anything. "Ryan I just don't like remembering it's easier if we just let it go. I am alive I am here. Who ever did It was probably just out having a good night..I say we just leave it be what it is please" ..."Who ever hit you was fucking around because it happened more then once. Your car is proof. If your keeping something from me if your scared.. you don't have to be. I Love you and I will protect you. If you remember anything even the littlest thing just tell me. Ill figure it out either way but it be easier with your help baby. I know you want me to let it go but I cant this is what I doing for a living. Especially when it comes to my girl and dangerous situations" "Babe ughh ..." â !."Don't babe me Leah. You could have died. I could have lost you. You don't understand and that fucking idiot isn't getting away with it. I am sorry but I wont let this go. I love you . I love you more then you could imagine and that's why I wont stop. Now lets get in the bath princess." "Bath sound like a great option smart man of mine" If I can just get him distracted I will be good. His lip bites down on mine and I feel small and helpless. He suckles on my lips and then he massages my ass as his finger slowly skim over my butt hole. Everything he does gets me hot for him. I feel that I am soaked and wet for prepared for his intrusion. The light silky robe slide down my body and his soft lips scatter kisses all over my upper body. Not missing a spot on my neck I feel him claim me and I know it will be a huge bruise in to time. "mmmh you torture me please have me already babe" Taking a step back he makes his way over to the huge bath with me in his arms. Sinking into the water slowly give me the chills. I am a little to wild for him because without giving it a though I force His king monster inside of me. I am still really tight so its not easy but it feels good the more I get use to it. Lucky for me I was wet enough so I could just have all of him. "I really love you Ryan." I lay my head against his shoulder. I don't want to fuck. I want to makelove. I want it slow I just want it all to happen slowly. This would be nice to have him inside of me forever. I close my eyes and tighten my legs closing him in tighter inside of me. I feel him moan my name into my neck. Strong hands slide up and down my small body making me shiver. He thrust up inside me of but he gets the hint I want it slow. I want to have control over him right now. My turn. If I can have control over anything in life this is the one thing I feel I do well. â !."I know your trying to distract me baby girl and its working. But I will get it out of you or ill figure it out on my own just keep that in mind. It's only because I love you that I am doing it. Oh and because it's my job." I hear him chuckling in my ear. His laugh is so unique and I have loved it since the first time I heard it. Hearing him just makes me want to burst out laughing. â !.The bath went well eventually I got clean after a good love session. We ended up joining everyone outside for the lunch BBQ . Everything tasted delicious and it always does. I love seeing Gracie so happy. Just knowing that she is safe here from outside world means everything. Just wish it was everyday. And I wish more then anything that I never had to question her safety. It would make life everything in life a whole lot more deal able.
