PORN GIRL : SQUIRTING ON CAM

(this is totally based on fiction, no intentions to hurt or harm anyone)

I was ready with my denim skirt barely covering my ass, and a red sleeveless tank top, loosed my hair and let them fell on my shoulders, a little lipstick, a cup of milk and a banana. I was doing something like this first time but I was not a baby, I knew hot to make a guy cum on cam, as I used to surf porn a lot. I can say that I am graduated in porn, I sat on chair and waiting for the guy to come online, after a few minutes a pop message appears to connect to my first guy.

I accepted but I covered the cam with my hand I was not sure about to show my face. He texted me asking for cam, as I looked on my computer screen his cam was on, he was just in his shorts sitting on his chair and he was showing his face. He was senior in my college, not muscular, but cute. I had chosen to a porn star but showing my face that time when I was in college wasnâ t good idea I didnâ t wanted to ruin my college life what if this guy would tell everyone about me then there could be a big problem, so I refused to show my face.

I tilted the cam a little down enough to show everything down my neck He asked me to use mike and headphone, I thought its good I grabbed my head phone and we started. He asked to have a close look of each part of my body, I held the webcam and ran it all over my body from neck to toe. I gave him every close look of my body, my cam moved from my neck it stopped at my cleavage just a little , then my one hand pulled down my top a little more to expose my breast, and I can see that his hands moved to his cock.

I asked her to lower down his cam to his cock, as he did I can see the tent in his shorts, and his hand was rubbing it over the top, I was getting so excited, my cam moved over my breast to my belly, I lifted my top to show him my belly and my piercing. I moved my fingers around my belly in circular motion then its was turn for my skirt I pulled it more down to giving him a look of my panty that was black, then to my thighs and to my toe.

My nipples had got erect and they were trying to tear my top I again moved cam to my boobs showing a look of my erect nipples. I again placed the cam on table and starts playing with my boobs over the top, I starts making some moans . he asked me to take off my top, but I want to tease him, I asked him to take off his shorts, looks like he also wanted to show me his thing. He stood up and dropped his shorts revealing his more than 6 inches hard stick that was aiming to the webcam and her balls were hanging down.

He ran his hand over his cock, the most I like that he was clean shaven, he again asked me about my top , this time I did and took it off, and my tits were flashing on his screen I hold the cam again and showed him a close look of my nipples I can see his cock getting more hard, I stood up and took my hands under my skirt and pulled down panty, I swing it in front of cam, â ohhhh you are so meanâ he moaned rubbing his cock, I asked him to give me a close look of his cock , he showed me a very close look and his purple head of cock was flashing on my computer screen it was looking so big and I can see her blood veins trying to burst , I held the cup of milk and starts pouring slowly on my tits, and wow I was even excited to see my tits on my screen.

Milk was running down from those milk tankers it felt so amazing. I drank some milk and let it drop from my corner of mouth trying to be more slutty he couldnâ t see that but he had the idea what I was doing, I was so excited that I didnâ t give him a chance to ask to take off my skirt I pulled it down and my cleaned shaved pussy was flashing on my own screen too.

## PORN GIRL : SQUIRTING ON CAM

I was still a virgin, and I rubbed my palm over it, then it was time for some banana I grabbed the banana peeled it and rubbed it over my clit I tried to insert it in my pussy but it smashed and stick on my pussy and some inside, then I eat it he was really horny and his hands were moving faster on his cock. He asked me to masturbate but then stopped me and said that he wanted to see how girls put tampon in their pussy. I thought that was really exciting showing a guy your secret stuff, I left my chair and moved my computer to my bed's side. I took out a tampon from my drawer and spread my legs on the bed showing my pussy to him then by one hand I opened the pussy lips and by other hand I inserted it carefully. I was excited and felling the tampon going inside my pussy I moaned, here I had done with the tampon and there he had done with his cock cum was dripping from his cock and his hands were covered with his own juice.

it was so exciting seeing all this, now I pulled out the tampon, it was wet with my juice, and I starts fingering me, â yah oh oh aaaah, u see that baby,,,oh it feels goodâ I was moaning, he again got hard and ready to make himself cum again, this time he put some oil on his cock, and wow it looks like a iron rod shiny and hard, I was stroking my fingers hard and â oh yahhhhh oh my, I am gonna cum yah ohâ and with a scream I squirted and some drops hit the computer screen, I heard him moaning and saying that he is going to cum , I looked at the computer screen, and wow he was cumming more than last time.

He seems exhausted like me, he sat on chair and we both were just looking at each other my hands moved to my tits massaging them. This was so amazing, I was happy that I made a guy cum twice on cam, he asked for next meeting, I told him that I will message him when I would decide, and I logged out , and shut down the computer, but that nightâ ï.
