Stranger!!

## Stranger!!

I envision your body to be perfectly sculpted!

I opened the door and there you are leaning against the wall ,  
you blink and crack a smile

I cant help myself so i wade over and lean into your space.

You snatch me forward pick me up spin me around and pin me against the wall,my legs latched onto your waist.

I can feel your penis; my mouth waters, I cant help myself, my head creeps forward and bites the lobe of your left ear.

Your hands are exploring my back,quickly u popping open my bra.

Your eyes;filled with lust, your right hand slides up my back, cradles my head and pulls it towards your starving lips

and we embrace in a erratic kiss.

You bite,suck and lick my lips all over.

Slowly I slide down your body Â whilst your hands run along my waists and up my arms Â through my hands, to the tips of my fingers.

mr right hand slowly slithers down the front of my body and I grin.

The signal was perfect; hastily my skirt was lifted,

my pussy was ready.

You run you fingers over my lace thong then sharply tear them off from the front.

You bunch them in your hand then trow them to the side.

I loudly exhale as the anticipation is killing me.

Finally you slowly take off your belt, Then shoes, then you tell me to turn around.

I turn around and placd my hands on the wall then suddenly .....
