

# International School of Ethical Hacking

By : **Juggernaut**

Hacking personal information of celebrities for sale is a big business. It is illegal and unethical. At International School of Ethical Hacking, students are trained to conduct electronic ears-dropping or hacking in ethical way.

# International School of Ethical Hacking

## *International School of Ethical Hacking*

Subba Rao

“ I just completed formalities to open yet another school in the Caribbean,” said Dan stretching his legs on the desk and trying to make a pyramid shape with tip of his shoes.

“ You already own few medical schools in the Caribbean,” Juggernaut looked surprised.

“ The enrollments in medical schools are falling and I recently tumbled into a field of study that promises to be a gold mine.”

“ Really?”

“ Yes, scavenging,” Dan pressed his lips together and looked at Juggernaut from side of his eyes.

“ Scavenging what?”

“ Information, particularly on celebrities worldwide in show business, sports, politics and business.”

“ How one can scavenge information on celebrities?”

“ Simple, by hacking their cell phones, emails and social networks.”

“ You cannot hack personal calls and emails, that is immoral if not illegal,” Juggernaut looked disgusted.

“ Precisely, that’s why I started an international school to train students in the field of ethical hacking.”

“ Hacking by definition is unethical, immoral and illegal.”

“ If hacking is done in ethical way, it is acceptable.”

“ How one can hack personal information in ethical way?”

“ Well, we train our students in ethics, morality, religion, philosophy, etiquette, world history, psychology and sociology in addition to the core courses in electronic ears dropping, computer science, electronics and electrical engineering; this all-round training would facilitate students to conduct the business of hacking with kindness and high standards of morality,” “ It is like courses offered to medical students in bioethics and business students in honesty and morality,” Dan looked very serious and committed.

## International School of Ethical Hacking

â I see, but those courses were not doing any good once the doctors and financial consultants start practicing their profession,â Juggernaut was doubtful.

â Exactly that why I named my institution as school of ethical hacking to get respectability and authenticity to the profession of electronic ears-dropping.â

â Do you have to use the word ethical for god sake? Juggernaut appeared annoyed.

â Sure, to keep my school operating license and accreditation,â Dan jumped from his chair to stand tall.

â Well, Dan I am sure you know what you are doing as long as you wonâ t get into trouble with the law,â Juggernaut poured some cashew fruit wine into his mug.

â You know I am untouchable,â Dan rubbed his nose as if he smelled something unpleasant.
