Have you ever heard of the video game Skyrim? If not then please tune in to this message; Skyrim is a very popular game, It is very interesting. The story line is Skyrim is starting a rebellion against the Imperials who try to rule their lands. The High King of Skyrim was Murdered by Ulfric Stormcloak, the leader of the rebellion. Also, dragons are coming back and are trying to destroy Skyrim, you have to stop the Ultimate evil dragon Alduin. The game has amazing graphics! You can use weapons and armor, you can make weapons and armor, you can Steal and kill. You can do almost anything! There are several factions to join, Such as; The Companions, for warrior and mercenary people, there is also the thieves guild, and the college of Wnterhold. Skyrim is for the; Xbox360, PS3, and for the PC.

You are also able to fight monsters, You can use a two-handed weapon, or a two one-handed weapons, or a one-handed weapon and a shield. There are several perks and skills to unlock. Don't take my word for it. Try or buy Skyrim for yourself!
