# Nikole Kidman for you!

One upon day, at moonlit night  
unknown star fell down from the sky  
straight on the sleeping earth

The blue magnetic and nice light  
from fallen star is shining bright  
She's tender as a rose

Soon everybody knew her name  
Which known for the world became  
Nikole .we all love her

You must agree , without shame  
she's always graceful , and the main  
She was the same before

Her face and smile, her voice and style  
makes special effect  
In light Safita her blue eyes  
are full of happyness ,they shine  
She is always unexpect

You can not guess how old is she  
It's useless idea , you see  
Her beauty's out of time

Her talent opened for us  
the star which fallen on the earth  
its glory in the prime

Nikole Kidman for you!
