Rabbit Hole '13

For those of you who feel like you don't belong anywhere...I know how you feel. Does that make you feel better?

For those of you feeling like no one loves you....I know how you feel. Does that make you feel better?

For those of you who feel like your life is like you're falling down a rabbit hole....I know how you feel. Does that make you feel better?

For those of you who feel like you are wandering aimlessly through life with no direction...I know how you feel. Does that make you feel better?

At least you feel better now. I don't.

Who will make my fears subside?

Who will make my worry go away?

Who will make me feel wanted?

Who will make it all be worthwhile?
