Stolen Children

I have read this one book plenty of times. Its called "Stolen Children" By Peg Kehret. The whole plot is this young girl named Amy babysits a little girl named Kendra then they both get stolen. The characters include the main charcter Amy, the girl she babysits Kendra and their parents, and Smokey and Huge the people that stole the kids and Jorja Amy's best friend. The setting is a dark cabin in the woods. Peg Kehret uses a lot of interesting words and i recommend this book to anyone who likes mysteries and horrors. Its really interesting and i love this book.
