

THE INSTRUCTION BOOK

By : IMAD UL ISLAM

The paragraphs I am submitting is about how to pass our lives and in what manner. I have tried to make it quite simple with the help of an example. I think that you will find it useful.

THE INSTRUCTION BOOK

THE INSTRUCTION BOOK

Whenever someone creates, invents, makes, produces something new, which we have not seen or used before, he does not sell it up just like that. The second step after creating, inventing, making, producing it which he never forgets is the creation of the instruction book. If the creator, inventor, maker, producer sells the thing without any instructions, it will be useless. If the purchaser uses the instruction book, he will find no difficulty in using the created, invented, made, produced thing. And if he will neglect the instruction book, the thing will be of no use to him. So he will want to get rid of it, and will sell it to someone else. If the next customer is intelligent he will first read the instruction book and then use the thing. If he wants to create his/her own instruction book, it will not work.

Just as stated above Allah (God) has created the universe, and sent many instruction books. Some of their names are Bible, Torah, Zabur and the final and the last one is the QURAN. After QURAN no instruction book will be sent for the mankind. Therefore we should read the QURAN and pass our lives as stated in it. QURAN gives us the complete information useful to pass our lives in the best possible manner. If anyone neglects the QURAN and creates his/her own rules for life, at the end he will find that his saying "MY LIFE MY RULES" was not correct. He will say that I should have said "GOD GIVEN LIFE, GOD'S RULES" instead of "MY LIFE MY RULES". I do not want all of us to realize this at the end when there is no use of realizing it. Oh! God show us the straight path. So that we could be among those who sacrifice their lives for you. (AAMEEN).
