Poem for primary school kids

Season's cycle paddle vigourously
So do the season's changes continuously
Summer, Winter, Spring and Autumn
Are the names from top to bottom

Seeing the colours flying in the middle
One can know about the rainy's meddle
And watching the rainbows in the sky
Make the children to fly

Once for all the winter blows colder and colder
While the Sun awaits for glowing hotter and hotter
Nevermind its summer or winter
It is a pleasure to enjoy the season's glitter :)
