In The Cave - 100 word competition

A loud boom echoed off the walls of a rocky cave. There was something in there and I did not want to find out what, but I couldn't stop walking into this strange cavern. I looked around, moss decorated the walls, rocks hung like icicles from the ceiling just seconds away from falling. A darkness took over me, I felt like I had walked through a ghost. I took hold of myself once again and continued walking. It was deafeningly silent in the cave and I was worried. I didn't know what was back there, I was so very scared.
