Little voices...

Small Voices

=====

When is enough, enough?

When the small voices of compassion stop

When can one take no more?

When the small voices of reason are silent

=====

I live there, at the point of pointlessness

But the small voices still whisper hope

I am still there, the climb looks too great

But the small voices offer help

=====

Doubt, regret, fear, anger scream loudly

Small voices drowned

When the small voices of love end

Then so do I

=====
