Starry Night Sprite

Starry Night Sprite

Starry Night Sprite

Extinguished by morning light

Is my night time sprite

That ran havoc though my brain

-

Those thoughts that form

In the hours before dawn

Vague and now unable to explain

-

Shooting stars of connection

Like lines plotted in a constellation

The new day fades to the point of refrain

-

Oh, to pour in to a mould

The night's whispers I am told

A statue of my starry sprite till mornâ to contain

-

Dibs
