

You and My Life

You and My Life

By : Dusty2012

A poem about that certain someone who comes to mean so much from the moment you meet them.

You and My Life

When I first met you,
there was something that got me
interested and intrigued.

As I got to know you,
and time passed, I fell
deeper and deeper.

Now at this moment, you
mean everything to me,
the world and the universe.

I don't ever want to lose you,
All I want is you and me,
to be there for each other.
