A Lingering Kiss

A Lingering Kiss

A lingering kiss.

A moment of true passion,
a window to what can become.

A feeling one can not feel
with out another person.

When your heart is pounding,
wishing that moment will never end.

A kiss that lingers long after it ends,
a kiss that puts any other to shame,
a moment of true weakness.

A passion that can not be lost,
one that needs to be kept lit,
one that makes you over come anything
that is put in your path.

A lingering kiss
for the hopelessly romantic,
its what I feel will come.

When the time is right,
a moment of true surprise.
