The Imagery of Hell

What passes as sky, a fetid mosaic of fire and gore.

That greets, as you vaporise thru a blackened door.

*

A blanket of choking ash from discarded dreams and despair

A carcinogenic mix of discarded souls, that passes as air.

*

Blood soaked barrens, seething with lust and uncontrolled mirth

Passing for what should be a firm underfoot of gods given earth.

*

Mountains of sinew and bone writhe a morbid dance of un-death

Enticing soulless creatures into cavernous, bile filled depths.

*

Unearthly Beasts with no visible eyes and fang filled maw

Guard the dark citadel of the all menacing Lord!

*

His vile presence causing mortal blood to boil and madness to transcend

Like vitriolic evil fog formed tendrils that are used for your life to end.
