Life Itself - Winners and Losers

Have you ever felt
Like you never ever **won**
Something that meant so much
But that was taken away
By someone you **despise**
By someone with whom you don't get along
But that person **never** gave it back
They rubbed it in your face
Making sure you knew the real **winner**
That you had **lost** the game
Never turn into that person
Don't be so ignorant as
To turn away from **life** its self
And turn it into one big **game**
Winners who win
Losers who lose
No real competition
No **life** is worth living
If you only play by the rules
No **life** is worth living
If you act like a **fool**.
