Declaration of Equality

They tell us

â We hold these Truths to be Self-Evident:â

because they think we cannot speak for ourselves

â That all Men are created Equal:â

But not women.

â That they are Endowed by their Creator with certain in-alienable Rights:â

and that our rights takes away theirs

but We know that these *truths* are not self-evident

â we have fought hard to be heardâ

that not all men, nor all people are, nor anything on this earth is created equal but we will fight until they are

â and We Know

â That we are Endowed by our Creators with certain in-alienable Rights:â

that among these are:

â life,

â liberty,

â and the pursuit of equality.
