# VENUS WENT TO MARS

i thought we were the perfect pair

and meant to be since birth  
but downward went the mercury  
and brought me down to earth

she took off in her saturn  
and she aimed it at the stars  
i hollered, "oh great jupiter"  
my venus went to mars

to me she was the sun and moon  
the stars weren't right, i guess  
the flaming of our comet  
petered out to my distress

my sea of pure tranquility  
is cratered now with scars  
i need a good orion's belt  
my venus went to mars
