OPEN YOUR EYES !

## **OPEN YOUR EYES !**

**If you open your eyes wide enough, you will see the reality, you will see that things are never, what they seem.**

**However much you want it to be It will never be, or however much you donâ t want it to be it will be.**

**However much that doesnâ t make sense it does, and however much power you think you have. You can always gain more.**

**People underestimate their strength their possibilities in life.**

**That can make a change a massive difference in themselves and others. I am a person with dreams, with thoughts, with ideas I want to share**

**! I will open my eyes and I will live the reality.**
