In the darkness . . .

## **In the darkness . . .**

In the darkness of my dreams

I chance upon a little scheme

to become the master of my fate

and erase the darkness with the light.

And when the light crescendos â white â

across the aspects of my eyes,

I'll remember: life unseen

is just an echo of a dream.

In the darkness . . .

In the darkness . . .
