The pain . . .

## The pain . . .

The pain, the friction, the feral passions,  
the fury, the memories, the sarcasm,  
the shame, the infamy, the desperation,  
the silent  
cry  
of a reclusive poet, an atoning agnostic,  
a writer, a lover:  
my story is written on skin  
with steel  
and the fumes of  
'I don't give a shit'.

The pain . . .

The pain . . .

The pain . . .
