

I Feel Everything

By : parkelis

How do you express your emotions? Do you bottle them up or share them?

I Feel Everything

I feel everything.
I feel like the world is weighing me down.
Help, I'm about to drown.
I feel like the man is stripping me.
Help, I just want to be.
I feel like the sun is blinding my eyes.
Help, I need some goodbyes.
I feel like the moon is hiding my tears.
Help, I have to express my fears.
I feel everything...everything inside.
Help, I need my emotions to come outside.
