What's Out There?

## What's Out There?

Can't have fun on the Sun

or get a

sultry hot surgery on Mercury

and find a

rain making genius on Venus

but there's

moms giving birth on Earth

while there's no

last chance bar on Mars

you might

search for pewter on Jupiter

or see that

elliptical pattern on Saturn

and there's no

drums so membranous on Uranus

but you could

Listen to new tunes on Neptune

and only

you know whats past Pluto.

What's Out There?
