# Color Association

Shot with a paintball, creating that stunning swell with a color that tells you that your body should not dwell

Opposed to the real deal piercing the flesh with a dreadful gushing ooze of that repressing hue of red, what a mess

Reassess pain, what color does your mind instantly ordain?

Refrain from letting your clothes inherit any stain

This minuscule unexpected mark is a staggering stark giving strangers eyes an undelightful reason to bark, unless your wearing something fairly dark

No color is permanent, whether it's an overlapping surrogate or a fusion, soon there's a panorama of illusion, this pigment needs to be more eloquently impairment through my pair of eyes
