if i were you for the day

## **if i were you for the day**

if i were you for for a day i would escape & get away

i would forget about yesterday and live for today

id find a way , to truly embrace you .learn about you

care about you , an do what i could do . to love everything about you

i wouldn't have to wish on a shooting star beacuse id look in the mirrow and see who you truly are ,

i could understand you and then really get why you do what you do i love you .

if i were you for the day

if i were you for the day
