How Can You Read My Heart?

How can you read my heart
with such ease and mastery?
You find those tender spots
that fear hidden inside of me.

Do my eyes, the mirrorâs soul
reveal those secrets and desire?
You know things instinctively
all my sorrow and passionâs fire.

I may never find those answers
But still I am content in knowing
Your love is here for me always
and each new day it keeps growing.
