Candle Flame

its like a candle flame
burns inside me and
is fueled by the strong love
i have for you
it will never burn out
for if it did it means i never
loved you at all and that
is the opposite of
the fire inside my heart
and soul for it burns
for eternity because
i will always love you
candles burn but are never
gone no matter how long
they go on forever
like my love for you
is the flame inside my heart
