

What country are you from?

What country are you from?

By : **Km2**

This poem reminds me a little of my other one; The View from up Here. I kinda like the idea of this one though, wherein I'm asking everyone that enjoys this one, to please like and leave a comment, if you wish? And I'd like if everyone that comments, would include in their message what nationality, or what country you are from. I think it might be a fun idea.
