Chapter 1 Of Once Upon A Time : Chapter 1

Once upon a time! It sounds like a phrase that will mean you will hear at the start of a happy story where everything turns out in the end but this story's opening doesn't have an end where the Prince Charming and Rapunzel got married and lived in a purple castle. This is a true story of misery and fear! One day in the late spring the Josephs family were walking down the streets of the south of London when an extremely loud siren started going off. No-one knew what was going on! The alarm increased in volume and started flashing blue and red lights around the village. They ran. And ran. Until they found themselves at a gate! On the other side of this rusty grey gate there was a man. But this man, without even knowing much about him, was clearly evil!!! Screams echoed as the man slaughtered the youngest child in the family. He then stabbed his cold bloody sword into the guts of the child's father. Mother and the oldest child Isabel just managed to escape in time before the bloodcurdling terror could manage to kill them. Meanwhile everyone was being evacuated, well everyone apart from the people who were left of the Josephs family!!!!
