Ode to Gaza

By : masteroffear

Another funeral another body and another prayer, More lines of poetry insulting another bleeding vein Another child bleeds another heart in pain Words are out souls are out â€¦ but are we there ??!!!

Ode to Gaza

City under siege â what have they done
Full of F16 is the sky â. They blocked the sun
Oh city over sea â what more can you handle
Still we stand and all we can we do is share a stupid candle

Bounded we are â dear city under sky
I screamed for your name â and from tear gas now I cry
Oh Gaza with words to ease your pain I try
Those without swords upon swords may die

Fight and donât fall wait for another dawn
Fight and stand tall you shall take them down

Dear sons of Gaza for you I weep
If sleepless I was... now I cry to sleep

Run to the light at the end of this cave
Fill your earth with a grave next to a grave
Your freedom they may take
Sunlight your eyes may forsake
But never can they make you a slave

Ode to Gaza

Blood and honor you have gave

Oh God your mercy we ask we beg and pray
May Gazaâs suffering end up today

And still we watch and still we cry
How much longer can we refuse and deny

Ode to Gaza
