

The land of the Free daddy its me

By : Michelle D

The land of the Free. Look in to a soldier's eyes, what else can you see but land of the free. I wish it could be me. Foreign countries can not conceive the hopes and dreams of one day being free. Fighting for our victory this American dream hoping his appearance will reflect some respect walking down the street as a retired vet. Vietnam was the war that I can not forget but always regret. Daddy wake up it's only me can't you see it was just a dream look in to a soldier's eyes what else can you see but the land of the Free.
